The Global Issues Class as a Global Village

As we approach various global issues, we will work to have our class function as a “global village.” Each student will represent about 300,000,000 (3 hundred million) of the people who currently inhabit our world, with the 20 students being somewhat representative of the countries and regions of the world. You will be asked to obtain a variety of information about the person whose identity you will take on and will be asked to share information about different issues from the perspective of that individual. You will be asked to share information about the first 12 items below on February 3 and on other issues (items 13-22) throughout the semester.
