

Math 3280 Worksheet 8: Equilibria of autonomous ODEs

Group members (2 to 4): _____

- (1) Sketch the phase plot (equilibria and direction of solutions) for the ODE $y' = y \sin y$ in the interval $y \in [-10, 10]$.

- (2) Sketch the phase plot (equilibria and direction of solutions) for the ODE $y' = y^9 - y$ in the interval $y \in [-2, 2]$.
