

Pre-Dental Club

Meeting 1 Minutes:

September 25, 2008

6:00 p.m. SSB 202

- **Introduction of the Club**

We talked about the club goals and activities that we try and accomplish during the school year. We introduced the club officers in addition to our new faculty advisor, Dr. Paul Bates. We talked about some of the events we participated in last year, such as going to visit two dental offices in Duluth as well as being able to take part in a number of volunteer activities on and off campus.

- **Activities Planned for this Year**

This year, we have planned a trip to the University of Minnesota, Twin Cities Dental School to take a tour of their Simulation Lab which will take place on November 7.

We talked about different fundraising ideas for our club. In October we will be having an “artificial sweetener” bake sale.

On Halloween, we will be going to Lowell Elementary School in Duluth and reading kid friendly, oral hygiene books to the different classes.

We took votes and decided on T-shirt designs for this year’s T-shirts and sweatshirts.

The club has been awarded one free Kaplan DAT course which we will be raffling off to club members that have been a part of the most activities throughout the school year.

- **Next Club Meeting**

The next Pre-Dental Club meeting is on October 14, 2008 at 6:30 at SSB 202. Dr. Fred Nervick from Suburban Dental Studio will be there to speak about his practice and some experiences throughout his dental career.
