

UMD Children's Place

July 2009

Did you know?.....

It is now time to change our parking permits....

Our 2009-2010 green permits went into effect as of July 1st., 2009.

Permits were placed in children's mailboxes for your convenience.

If you did not receive one, or if the license plate number is incorrect, please contact Jen and a new one will be given.

The old "pink" permits can be thrown in the trash.

Thank you!

From the Director's Desk

This past month has been a very busy time for us here at Children's Place.

Our June rummage sale fundraiser was very successful, and was able to raise \$560. This amount, along with the \$246 we received from the pancake breakfast will enable us to make some significant purchases for our program.

We plan on purchasing more playground sand as well as replenish the supply of outdoor materials, such as sand exploration toys, bikes, balls and etc.

Our playground will also be receiving a new look

during the middle of this month. The toddler climber is set to be installed Friday, July 17th through Tuesday, July 21st.

The center section of our playground will also be receiving new sod around the end of July/ beginning of August.

We are exploring options due to the high use of our playground and how best to support the grassy sections.

I have spoken with Facilities Management, and we may need to have portions of the grass re-sodded periodically. Our current priority is to repair the center portion of our playground as well as the sections by the street-side gate area.

Discussions were also held regarding the weed growth and the importance of the facilities staff to pull the weeds as they see them (and not just mow over them).

Thank you, and I hope you have a wonderfully safe and fun filled month!
