Meeting 5 Agenda

Campus Change Team  
March 7, 2011  
KSC 268 11-Noon

1. UMD Seminar (Megan Perry-Spears and Jeni Eltink)  
2. Unit change teams  
3. Climate Surveys

Meeting 5 Summary

Megan Perry-Spears and Jeni Eltink from First Year Experience presented the current curriculum for UMD seminar (1 cr). They also discussed the new pilot course scheduled for Fall 2011. The pilot (1 cr) will include one large lecture and one small group meeting each week. They also shared the learning mode and the required themes that will be included in the class.

CCT members asked what is covered under cultural diversity and if there is a possibility to be more intentional in weaving cultural diversity throughout the semester instead of only during one class set aside for cultural diversity. We also discussed Paula Pedersen’s work in UMD Seminar and the use of IDI. Megan and Jeni said that they are open to new suggestions and that they are always looking for ways to improve the class.

We also discussed the unit change teams, their role, the relationship between the CCT and the UCTs.

The Summary of Climate Surveys was discussed; it is posted on the Campus Climate website.
