Assistant Professor in Civil Engineering, University of Minnesota, Duluth

The Department of Civil Engineering at the University of Minnesota, Duluth has a tenure-track position at the Assistant Professor level available beginning Fall 2011. Desired focus area in Geotechnical Engineering (Soils focus, field or lab research preferred). The successful candidate will have the opportunity to work with excellent faculty and resources in other departments, the Natural Resources Research Institute, and the Large Lakes Observatory. The candidate will be expected to teach a broad range of undergraduate courses in their focus area as well as courses related to their specific expertise. Additionally, the candidate will advise students, have a commitment to professional & academic service, and demonstrate a willingness to interact with industry and/or have industrial experience. Essential qualifications include a PhD (or ABD) and BS in Civil Engineering or closely related field; demonstrated evidence of effective communication skills; strong potential for quality teaching; and strong potential for effective research appropriate to a faculty position at the Assistant Professor level. Further details about the Civil Engineering program are available at www.d.umn.edu/civileng.

The University of Minnesota requires that you apply online for this position. For a complete description and information on how to apply online, visit <http://employment.umn.edu/>, and search for Job Requisition 168976 (Geotech). Complete applications will be reviewed beginning December 15, 2010.

The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression.
