

DAY Prehistoric Cultures Week 10

Premodern Humans

Neandertals and Other Archaic *Homo sapiens*

Midterm Quiz 2

This week Neanderthal is on Trial.

And we'll have a look at *Homo habilis* and *Homo erectus* also.

Homo habilis and *Homo rudolfensis* are sometimes simply referred to as “**Early Homo**” and sometimes some folks talk *only* about *Homo habilis*—favoring a one-species approach to Early *Homo*.

“Java Man” and “Peking Man” are the best known of the *Homo erectus*, but don't forget they had “contemporaries” in Europe and Africa—we met “The Turkana Boy” from Kenya last Thursday.

On Tuesday of *this* week we'll see *Neanderthal on Trial*. There are a number of major problems with Neandertals, including . . .

- “**The Neandertal Problem,**” which is about why the Neandertals disappeared so suddenly about 35,000 ypb
- **Are Neandertals a separate species, or are they a variety of *Homo sapiens*?**
- **Did they interbreed with the Cro-Magnon? If so, what were the consequences?**
- **Did the Neandertals speak a language? What kind?**

By the way, speaking of Neanderthal problems, **technically *Neanderthal* should be spelled *Neandertal***, but you rarely see it spelled that way in the U.S.A. **The scientific name *Homo sapiens neanderthalensis* keeps the *h*.** (“In 1901 an orthographic reform in Germany changed the spelling of *Thal* [valley] to *Tal*” but those changes didn’t apply to scientific terms.)

On Tuesday, I’ll also summarize things for the exam on Thursday.

Wednesday night, the night before the exam, there will be an **opportunity for a live chat to review for the Exam.**

DAY

- [Live Chat -- Review for Quiz 2, Wednesday 7 November 2012, 7:00-8:00](#)

Join the live chat *via* the “Week 10 Activities” listing.

In the **moodle** Forum this week we have a look at a prehistoric cannibalism . . .

DAY

- [Forum: Prehistoric Cannibalism \(Due by Friday, 16 November 2012\)](#)

Your **moodle** Topics and Reading Assignments Listings for Week 10 will look something like the information at the end of this memo.

As usual, if you have any questions, please let me know: <mailto:troufs@d.umn.edu>. Or, better yet, post them on your **moodle** Discussion and Project forum boards.

Share your ideas. Discuss them on-line with the others in class . . .

f2012 DAY 1601

- [Live chat for Project Collaboration](#)
- [General Student Discussion Area Forum](#)

The above items will be found at the top of your **moodle** folder under “**Student Collaboration Space.**”

Best Regards,

Tim Roufs

Your **moodle** Presentations and Readings Listings for Week 10 will look something like this:
