REM: Bring your Laptop to the Exam

On the Final Exam you must answer the **four (4) questions** on the final randomly generated by  canvas from the pool of questions put together from the **study questions on the annotated Week 14**.

They may include . . .

- A **current affairs** question
- And questions made up from the **Study Questions** in the Final Exam Question Wiki, which you can find at Week 14  canvas:

 [Contribute Your Question to the Final Exam](#)

- Use the Annotated Contributed Question List from Week 14 **as a Study Guide**. Be sure to note my comments and other additions.
- Each question is worth up to 100 points.

## Course Evaluations

**This week we will do a brief *in-class* evaluation, which is a supplement to the one which our IT folks sent to you on-line (see below).**

Please complete both of them carefully and thoughtfully as they are very important to this class, and to the Department and College.

**This week we reflect, re-view, and review. We'll **step back and reflect on the semester****, and make some suggestions for next time around. This week we ask you to reflect on the course itself, and tell us what you think by evaluating the course and its parts. Please take time to respond to those requests. Your responses are very useful and helpful to us, and to the operations of the Department and University. We look to you for suggestions for improvement in the future, and various administrators look to and at the results for program and performance

evaluations and for the future planning of course offerings. Course evaluations are one of the few places where you can have a real influence on how the University operates in the future.

The Information Technology Systems & Services (ITSS) sent you an **Invitation to Participate in an Online Course Evaluation.**

Evaluations are important to me, the Department Head, and the Dean, as well as everyone in our Department.

Please fill the online Course Evaluation out carefully.

Evaluations are anonymous, and will not be seen by the instructor until final grades for this course have been recorded.

## **Re-Visit, Re-View *Kypseli***

As mentioned Week 1 we'll re-view the film *Kypseli: Women and Men apart—a Divided Reality* to see what you see this time through. **So before Thursday review your original Case Study paper on the *Kypseli* from Day 02. Your re-flections on your re-view, *Kypseli* Paper II, are Due Saturday, 4 May 2019.**

## **Term Papers**

If you haven't received **your Term Paper** back with my comments, you should be receiving it shortly. It takes quite a while to read those and make careful and extensive comments on them, so please be just a little patient.

In the next two weeks I get to read and evaluate several hundred final exams, term papers, forum

postings, and final projects. As you can imagine, that takes quite a bit of time—so have patience. I’ll be working at them pretty much continuously for the next two-and-a-half weeks. But, having said that, if you have any questions about any of those, please feel free to e-mail: <mailto:troufs@d.umn.edu>.
