Welcome back to Spring Semester. I hope you had a grand Spring Break.

This week we’re off to a great start with a visit from Morris Levy, Associate Professor, Biomechanics, Health, Physical Education and Recreation. (Prof. Levy was originally scheduled for next week). Morris grew up in Belgium, and returns there regularly to visit friends and family, to do research, and to teach. He’ll give us an overview of his motherland, talk about changes he’s seen over the years, and answer your questions. From year to year, Morris continues to be one of the most popular “events” of the semester. Be sure not to miss him.
If you took the exam the results are in your *moodle* Gradebook (check the upper left-hand corner of your *moodle* HomePage under “Administration”).

**Profs “grading” exams is a lot like an ump in Major League Baseball calling balls and strikes.** The Major League rules are clear <http://www.d.umn.edu/cla/faculty/troufs/anth3635/cegrades.html#strikezone> as are the stated criteria for written projects and exams <http://www.d.umn.edu/cla/faculty/troufs/anth3635/cegrades.html#title>.

But, in the end, they are both human judgments.

The biggest difference between a Major League Umpire calling balls and strikes and a professor calling a grade is that you get ejected from the baseball game if you are argue balls and strikes (see Section 9.02 Official Baseball Rules <http://mlb.mlb.com/mlb/official_info/official_rules/foreword.jsp> is that one should really question the prof if they didn’t like the call, and that is especially true for midterm exams as one can often learn quite a bit that is helpful on the final by looking over and discussing a midterm exam.

Maybe a better analogy would be judging **Olympic Figure Skating, or Gymnastics, or Ski Jumping, Diving** and the like . . . <http://www.d.umn.edu/cla/faculty/troufs/anth3635/cegrades.html#gymnastics>.

If your style is to look at charts, the grading “chart” is at <http://www.d.umn.edu/cla/faculty/troufs/anth3635/cegrades.html#gradingpolicies>.
So if, for whatever reason, you didn’t like “the call,” e-mail or stop in.

**Please pay attention to what the numbers mean** in terms of the final course letter grade:

---

**Numerical Example:**

\[\frac{18}{20} + \frac{93}{100} + \frac{372}{400} = \frac{483}{520} = 92.9\% = A\]

(the highest grade the UM system allows)

---

As usual, if you have any other general or specific questions—especially on your Project, Promissory Abstract and Working Bibliography, or on the Midterm Exam Results, or about the Final Exam—please let me know: mailto:troufs@d.umn.edu.

---

**EXTRA CREDIT**

If you didn’t do quite as well as you might have liked on the Midterm Exam, or if you did better than you even hoped on the Midterm exam but want to “bank” some insurance points for your final course grade, think about doing one (or even two—one of each) of the optional extra credit papers.

There are **two Extra Credit options**: (A) a case study, and/or (B) a review of a lecture or an approved film (other than one of the films we see in class). For the review option you may also *compare* two or more films. (Remember from Week 1, one of the main features of anthropology is that it is *comparative*?)

**Details on the extra credit** are on-line at <http://www.d.umn.edu/cla/faculty/troufs/anth3635/extra_credit/ceextracredit.html#title>

**On Thursday** we’ll have a look at Ireland, focusing on Robert Flaherty’s *Man of Aran*.

*Man of Aran* created lasting images and formulated the insular people of Ireland as a popular myth. What do the people of the Aran Islands think about that? We’ll see about that next week.
Week 10 we’ll also visit Inish Óirr (aka Inish Beag), the smallest of the three Aran Islands. We’ll visit the knitters of the famous “Irish Fisherman Sweaters”, and have a look around the island, and “the mainland”, before we say Slán agat.

Our course developer, has prepared an on-line survey of the class. Please help us by filling it out honestly, and promptly. Your views are very important in the future development of this course.

Take the Student Survey:

We greatly appreciate your participation in the course survey. If you didn’t fill the Student Survey out yet, please do that (with the “Activities” for Week 8)

And this week it’s time to sign up for your class presentation.

A major part of this course is your research project—not just for the points, but because researching a topic you are interested in and presenting your findings to others, and then writing the results up as a formal paper, is one of the best ways to learn things. (Lectures, as it turns out, research suggests, are one of the worst ways—keeping in mind that one must separate “learning” from the "perception of learning."’) So this week be sure to spend some time working on your Paper and Presentation. (Remember that your Presentation is a “work in progress” report on your paper.)

If I can be of help with your project, please let me know.

**Sign up for your Class Presentation Time**

*(See Week 9 Activities)*.

(Sign up for one time slot selected from the following days)

(Right now there are enough time slots for everyone to sign up. Do not wait until the last minute, or until after the Presentation Sessions have gone by, and then argue that you cannot give your presentation because there is not a time available.)

**Share your ideas** with others. It’s always a good idea to share your ideas with others. You can discuss them on-line with the others in class. And you should do that.
