### TWEED MUSEUM

Drawings by Frank Big Bear are on display thru March 22.

Draw to Live and Live to Draw: Prints and Illustrations by Wanda Gag is on display thru May 17.

“Bright Life: Works on Paper by Karel Appel” will be on display thru May 24.

“Framing the Collection: Select Works” will be on display thru May 24.

“Work Through the Lens: Photographs from the Permanent Collection” is on display thru May 24. Selections from “The Richard E. and Dorothy Rawlings Nelson Collection of American Indian Art” will be on display thru September 13.

Peter Spooner, curator, will give an introduction on Andrea Carlson and her work from the Tweed collection from 4 - 6 pm on Feb. 3. A reception follows the introduction.

The Visual Lecture Series presents photographer and pharmacologist Vance Gellert at 6 pm on Tues., March 10 and artist and filmmaker Danièle Wilmouth at 6 pm on Tues., March 24.

A family event called Story Time Art with a story, a snack and the opportunity to create a pop-up Valentine, will be held at 2 pm on Feb. 14 in the Tweed. The featured story is the pop-up book, *Brava Strega Nona* by Tomie dePaola.

Each Tue., from noon - 4 pm during Spring Semester, the public is invited to Discovery at Tweed. The events allow the community to observe museum staff, UMD student interns, and volunteers as they process and assess works from the collection. The public component is important because the museum also wants to capture stories that individuals in the community have.

Senior Student Shows will be featured throughout the year including: Graphic Design Group Student Show from Jan. 27 thru Feb. 1, Cathy Hesch from Feb. 3-8, Molly Martancik from Feb. 10-15, Katie Dupre from Feb. 17-22, Jesden Hansen and Alicia Weagel from Feb. 24 thru March 1, Aaron Mcleod from March 3-8, and Brit Salmela from March 10-15. The opening reception will be held on Tues. at 4 pm.

For Tweed Museum information go to [www.d.umn.edu/tma](http://www.d.umn.edu/tma), contact [tma@d.umn.edu](mailto:tma@d.umn.edu), or call 726-8222.

**Cheryl Reitan**, publications director, presented "Grabbing--and keeping--the reader's attention in print and on the Web" along with Martha Coventry, U of M-T.C., at the Council for Advancement and Support of Education (CASE) District V conference in Chicago in Dec.

**Robert Repinski**, associate professor of art, has received a Juror's Award of Merit for his work "Shelter #1," included in the exhibition "Monoprint / Monotype," sponsored by the Mid-America Print Council and currently on view at Quincy University's Gray Gallery, in Quincy, Illinois. The exhibit was co-curated by Robert Lee Mejer, Distinguished Professor of Art at Quincy and Robert Kennon, associate professor of art at Culver-Stockton College in Canton, Mo.

Repinski also had work selected for inclusion in "Positive/Negative 24," a national, juried exhibition that on view during the month of Feb. at the Slocumb Galleries of East Tennessee State University. Photographer Pradip Malde chose the work from several hundred submissions.

## NRRI NEWS

The St. Louis River Alliance was awarded the Weber Stream Restoration Initiative at UMD's Natural Resources Research Institute with the Milton Pelletier Environmental Stewardship Award on Jan. 21. The award was given for the Initiative's efforts to enhance habitat and biodiversity in Lake Superior tributary streams by protecting and restoring watersheds along the North Shore.

Weber Initiative Coordinator and NRRI Scientist Dan Breneman accepted the award as one of several other awardees of the Alliance which seeks to restore and protect the lower St. Louis River and its estuary.

Learn more about the Weber Stream Restoration Initiative at [www.lakesuperiorstreams.org/weber](http://www.lakesuperiorstreams.org/weber).

The UMD Center for Freshwater Research and Policy (CFRP) recently published *Fresh Water: Understanding and solving freshwater problems facing the world*, a publication that highlights aquatic research being conducted at UMD and how freshwater professionals in northern Minnesota are making a global impact. Copies of this publication can be downloaded from the CFRP web site: <http://www.d.umn.edu/cfrp/index.htm>

**Subhash Basak** gave the following six invited lectures and practical tutorial presentations at the University of Valencia, Spain, in December under the "Masters in Green Chemistry" program funded by the University of Valencia and other Spanish universities. This is a newly designed, high-quality, inter-university science program aimed at training gifted students in six advancing frontiers of Green Chemistry.

Basak also gave an invited faculty seminar entitled "Use of mathematical chemodescriptors and biodescriptors in predicting bioactivity and toxicity of chemicals" at the University of Valencia.

Among the 20 most-accessed papers of the *Journal of Chemical Information and Modeling* in 2006 is "Combining Chemodescriptors and Biodescriptors in Quantitative Structure-Activity Relationship Modeling" authored by Douglas M. Hawkins (UM, TC), **Subhash C. Basak**, Jessica Kraker (University of Wisconsin-Eau Claire), Kevin T. Geiss (U.S. Air Force Research Laboratory, Ohio), and Frank A. Witzmann (Indiana University School of Medicine), published in *Journal of Chemical Information and Modeling*, 46(1) pp 9 - 16. #### **Sea Grant Fellowship Opportunities**

Application deadlines are approaching for the Great Lakes Commission/Sea Grant Fellowship, the Knauss/Sea Grant Fellowship, and the NOAA National Marine Fisheries Service/Sea Grant Fellowship in Fisheries. Review these opportunities carefully and encourage students to apply.

#### **UM MEDICAL SCHOOL-DULUTH NEWS**

An article about teaching children about the brain appeared in the Dec. issue of *Minnesota Medicine* “Service Learning in Rural Communities (Medical Students Teach Children about the Brain).” Written by Janet L. Fitzakerley, Ph.D., associate professor, physiology and pharmacology, and Ruth Westra DO, MPH, chair of the Duluth Department of Family Medicine and Community Health, the article describes incorporating service learning into medical school curriculum via Brain Awareness presentations. Since 2005, medical students have made presentations to over 10,000 elementary school students in Minnesota and Wisconsin.

The UMD Medical School from Dec. 6-7, was the site of a Military Combat Healthcare Training program for military medics and police officers. Army medics from the 34th Infantry Division, police officers from Duluth, and instructional staff from Minnesota, North Dakota and Wisconsin

participated. The medics were preparing for tours of duty in Iraq or Afghanistan. Colonel Kevin Murphy, M.D. from the Army National Guard in Duluth started this program working with Arlen Severson, Ph.D., anatomy professor on the Duluth campus, about 10 years ago.

The Medical School hosted the annual meeting of the Autosense project from Dec. 11-12. Team members attended from the National Institutes of Health (NIH), University of Memphis, Ohio State University, and Guided Therapeutics an Atlanta-based company that has developed a tool to assess alcohol and stress hormones. The Autosense project is supported by NIH to develop a wireless sensor network that enables continuous collection of real-time data on the effects of stress and addictive substances.
