TWEED MUSEUM

Drawings by Frank Big Bear are on display thru March 22.

Draw to Live and Live to Draw: Prints and Illustrations by Wanda Gag is on display thru May 17.

“Bright Life: Works on Paper by Karel Appel” will be on display thru May 24.

“Framing the Collection: Select Works” will be on display thru May 24.

“Work Through the Lens: Photographs from the Permanent Collection” is on display thru May 24. Selections from “The Richard E. and Dorothy Rawlings Nelson Collection of American Indian Art” will be on display thru Sept. 13.

The Visual Lecture Series presents photographer and pharmacologist Vance Gellert at 6 pm on Tues., March 10 and artist and filmmaker Danièle Wilmouth at 6 pm on Tues., March 24.

A family event called Story Time Art with a story, a snack, and the opportunity to create a pop-up Valentine, will be held at 2 pm on Feb. 14 in the Tweed. The featured story is the pop-up book, *Brava Strega Nona* by Tomie dePaola.

Each Tue., from noon - 4 pm during Spring Semester, the public is invited to Discovery at Tweed. The events allow the community to observe museum staff, UMD student interns, and volunteers as they process and assess works from the collection. The public component is important because the museum also wants to capture stories from individuals in the community.

Senior Student Shows will be featured throughout the year including: Molly Martancik thru Feb. 15, Katie Dupre from Feb. 17-22, Jesden Hansen and Alicia Weagel from Feb. 24 thru March 1, Aaron Mcleod from March 3-8, and Brit Salmela from March 10-15. The opening receptions will be held on Tues. at 4 pm.

For Tweed Museum information go to www.d.umn.edu/tma, contact tma@d.umn.edu, or call 726-8222.

ITSS AND REQUEST TRACKER

The ITSS Customer Service Team, acting on a Transformational Leadership Project (TLP), has identified communication with customers as an opportunity for improvement. ITSS has adopted a new web-based task management system, an open source product called "RT" which is an acronym for "request tracker." During Spring 2009, RT has replaced the Help Desk problem database. As staff test and tweak the system, more and more of our services will move into it. Customers who visit the TechCenter and/or call the Help Desk may immediately notice email acknowledgment and updates when they report a problem. Over time, ITSS will implement more of the RT system capabilities, including self-service login for customers, replacement of existing web forms, expanded views for IT professionals within their support units, and shared project management capabilities even with external vendors.

UMD GUEST WIRELESS SERVICE

In addition to our standard, authenticated wireless service (UMD-Wireless SSID), ITSS has implemented a limited, non-authenticated wireless service for short term guests (UMD-Guest-Wireless SSID). This wireless service is rate-limited and restricted to web-only access (no email, VPN, ftp, access to any authenticated resources such as the Library, etc.). The guest wireless service is available wherever the standard authenticated wireless service is available. The UMD-Guest-Wireless service is provided as a short-term service for temporary guests only. Those who have a U of M Internet ID or are affiliated with the University should use the UMD-Wireless SSID for a full range of services.
