## EVENTS, faculty and staff

### UMD WEB CALENDAR OF EVENTS

UMD is getting a new Web Calendar of Events. The old Calendar of Events will retire on Dec. 22. Jeremy Casper from University relations in the Twin Cities will demonstrate the new UMD Web Calendar of Events at 11 am on Fri., Nov. 20 in the Kirby Rafters (3rd floor). Casper will walk the audience through the simple steps to post an event. He will also show how entering an event on the Web Calendar can appear on another website. Colleges, departments, and programs will be able to enter their events in one place and the events will appear on another or multiple web pages. The new calendar provides for photos and video as well as many other features. Your feedback is appreciated as we tweak the program for UMD's use. Want to be the first to try it out? Email [creitan@d.umn.edu](mailto:creitan@d.umn.edu) or [amanteuf@d.umn.edu](mailto:amanteuf@d.umn.edu) to get a password.

### ASSESSMENT WORKSHOP

## FACILITIES MANAGEMENT SNOW AND ICE CONTROL GOALS FOR WINTER 2009-2010

UMD Facilities Management is committed to providing safe access to and exit from the campus without causing unnecessary harm to the environment. To this end, we will strive to reduce the effects of snow and ice as quickly and effectively as our resources and the unpredictability of Minnesota winters will allow. We know that we cannot clear snow and ice from every entrance and walkway by 7:00 A.M. following a storm, so we have identified priority entrances to receive our earliest service.

Please review and retain the attached map to locate the priority entrances. We ask the campus community to use these doorways to enter and exit, for maximum safety during and after a storm.

### GOAL ONE:

By 7:00 A.M. on the day following a snow/ice event; all parking lots will be accessible and open.

### GOAL TWO:

By 7:00 A.M. on the day following a snow/ice event; A passable walkway will be provided between the nearest road and the priority campus entrances which serve the Academic buildings. Additional care will be given to clearing power assisted entrances.

(See circles and triangles on map. Triangles identify power assisted entrances.)

### GOAL THREE:

Within 48 hours of a storm's termination, secondary entrances to campus buildings will be cleared.

### GOAL FOUR:

Within 72 hours of a storm's termination, all exits will be cleared to the closest public way.

### ICE STORMS:

In the event of an ice storm, Facilities Management will de-ice the campus in the most timely and efficient manner possible. Ice conditions may make it necessary to de-ice entrances in a circuit route rather than in priority order shown on map. Please always be alert for slippery walkways and use proper footwear.

NOTE: The severity, duration and timing of the storm will impact our ability to meet these goals. Problem areas should be reported promptly to Facilities Management at (726) 8262. Parking lot concerns should be reported directly to Parking Services at (726) 7433.

If you have questions about these Goals, please call Candice Richards at 726-8262.
