

Areas that Discharge into Designated Trout Steams

The University of Minnesota Duluth discharges storm water to several designated trout streams, as listed in *MN Rules 6264.0050 Subpart 4*.

These properties include:

- Glensheen (South West Quarter)– Tischer Creek (PP (#78))
- Campus (North Side) – West Branch of Tischer Creek (PP (#78))
- NRRI – Miller Creek (PP (#53))
- Limnology (East Side) – Lester River (PP (#47))
- Research and Field Studies Center (RFSC)* – East Brach of Amity Creek (PP (#3))

*The RFSC is located outside the urban area of Duluth and therefore not specifically included in the UMD SWPPP.

Any new development of these properties should not create any new or expanded discharges. Any new development on these properties should meet or exceed the requirements of Part IX. Appendix C (C) of the MPCA permit # MN R 040000 and Appendix A (B.8) of the MPCA permit # MN R 100001.
