

UMD 201 - Public Participation/Involvement

Title: **Seek Public Input on Program**

Addresses Minimum Measures: II Public Participation/Involvement

Target Audience: University Employees
University Students
Contractors
Architects and Engineers

Description: Invite stakeholder groups, including UMD departments, employees and students, to review and give input on storm water management priorities and programs.

Measurable Goals:

1. Hold public meeting to receive input on program draft.
2. Create response form on UMD Storm Water web site.
3. Hold annual public meeting to review program and evaluate progress.
4. Document input and report to UMD Storm Water Steering Committee.

Timeline:

- February 2003
- March 2003
- March 2003
- Annually beginning 2004

Specific Components:

- Initial draft presented for review February 13, 2003.
- Thirty days notification will be provided for the annual meeting.
- Annual meetings may be combined with Regional Storm Water Protection Team or other appropriate meetings.
- Input will be documented and kept on record.
- A procedure will be developed by the UMD Storm Water Steering Committee to respond to public comments.

Responsible Party: UMD Storm Water Steering Committee
