

UMD 202 - Public Participation/Involvement

Title: **Establish a UMD Storm Water Steering Committee**

Addresses Minimum Measures: II Public Participation/Involvement

Target Audience: University Employees
University Students

Description: The UMD Storm Water Steering Committee will provide oversight of UMD's Storm Water Pollution Prevention Plan, will establish sub-committees, and will ensure submittal of the annual report. Broad representation will be sought from across campus and will include stakeholders.

Measurable Goals:

1. Vice Chancellor of Finance and Operations appoints committee members from among stakeholders and interested individuals.
2. UMD Storm Water Steering Committee Meeting.
3. Creation of sub-committees.
4. First sub-committee meetings.
5. Submit annual report

Timeline:

- April 2003
- Quarterly beginning May 2003
- May 2003
- December 2003
- Annually beginning March 2004

Specific Components:

- Review and respond to comments, incorporating into SWPPP where appropriate.
- Broad representation will be sought from across campus and will include stakeholders representing Environmental Health and Safety, UMD academic departments, Research Facilities, Auxiliary Services and Facilities Management employees, construction management, student groups and administration.
- Committee will draw upon University resources to complete tasks of committee and sub-committee where appropriate.
- Sub-committees will be created as needed or as required by specific BMP's. A representative from the steering committee will chair each sub-committee and report on the sub-committees' actions.
- A (minimum of one) representative from the steering committee will represent UMD on the Regional Storm Water Protection Team.

Responsible Party: UMD Storm Water Steering Committee
