Title: **Dumpsters Management**

Addresses Minimum Measures:  
I  Public Education and Outreach  
III Illicit Discharge Detection and Elimination  
VI Pollution Prevention/Good Housekeeping

Target Audience: University Employees  
Auxiliary Services  
Facilities Management  
NRRI  
Students

Description: Inventory containers on campus sites for: location, damage, and overflow issues. Develop interdepartmental dumpster maintenance practices.

**Measurable Goals**

1. Review all permanent dumpster locations on campus map and note problems.  
2. Develop checklist to review container condition.  
3. Develop draft handling and inspection practice for trash containers.  
4. Review draft with stakeholders  
5. Produce dumpster practice brochure and implement  
6. Annual inspection of dumpsters  
7. Review of effectiveness

**Timeline:**

- March 2005  
- May 2005  
- August 2005  
- September 2005  
- January 2006  
- Annual start May 2005  
- Annual start May 2006

**Specific Components:**

- Identify and create a map of dumpster locations.  
- Create handling procedure and annual inspection.  
- Develop policy regarding placement sites and storm water management in area.  
- Prepare checklist for container inspection and procedures. Distribute to departments for annual inspections.  
- Develop policy/procedure for trash cans/cigarette bins.  
- Develop dumpster fact sheet.

**Educational Components:**

- Inform university employees, A/Es, and contractors through email, website, and/or meetings.
