ACKNOWLEDGEMENTS

We would like to thank the Precambrian Research Center for giving us the opportunity to conduct this mapping, the University of Minnesota Duluth for allowing us to map in both Soudan Underground Mine State Park and Lake Vermilion State Park. In particular, Jim Essig of Soudan Underground Mine State Park is especially thanked for his efforts in coordinating our mapping project. Individual and corporate members of the Precambrian Research Center are also thanked for their financial support which create a geologic reconnaissance map for the northern part of Soudan Underground Mine State Park and the Lake Vermilion and information on file at the Precambrian Research Center. In addition, effort has been made to ensure that the interpretation conforms to sound geologic and cartographic project.

DESCRIPTION OF ROCK UNITS

EXPLANATORY NOTES

The symbols used in the map are explained in the explanatory legend (below). Distance was calculated on a 1:50 000 scale.

DECORATION AND DESIGN

Acknowledgments are made to the University of Minnesota Duluth and the Precambrian Research Center for providing the opportunity to conduct the mapping. The authors also wish to acknowledge the assistance of the Park Service personnel of Soudan Underground Mine State Park and Lake Vermilion State Park, Minnesota, who helped make this mapping effort possible. Special thanks to T. Jeff Gier for his help in preparing and printing the map files.
