Pathways Program

- Apply for a 2-year training program in Biomedical/Behavioral Research
- Enhance your credentials for Graduate School
- Work in a research laboratory as a Research Assistant
- Opportunities to attend National Research Meetings
- Underrepresented students in STEM are encouraged to apply
- Applications are on the WEB site below
- **Deadline for submission is April 15, 2016**
- Acceptances will be announced on **May 2, 2016**

Pathways is open to undergraduates wanting to enter careers in Biomedical, Bioinformatics or Biobehavioral research. Candidates must have completed 2-years of undergraduate work with at least 2-years of coursework remaining before graduating to be eligible. Trainees are given a 2-year appointment that starts in June. The program provides 10-weeks of full-time employment during the summers, and part-time employment at 15 hours per week during the academic years. The “**Pathways to Advanced Degrees in Life Sciences**” is a preparatory program for Doctoral (Ph.D.) level graduate school, and funded by a grant from NIH/NIGMS—GM086669.
