ARCHAEOLOGY FIELD SCHOOL

WHAT: ANTH 4696, Field Research in Archaeology includes:
classroom instruction on laws, methods, artifact ID, culture history of NE Minnesota
fieldwork including survey & excavations in NE Minnesota (you choose the trips):
  - a survey trip in Boundary Waters Canoe Area Wilderness
  - various sites in Duluth Hillside and on the North Shore of Lake Superior
laboratory training on artifact cleaning, identification, accessioning and interpretation

WHY: to learn archaeology field techniques and methods for:
  future employment in archaeology as a technician;
  graduate studies in archaeology
Field archaeology is a fun and exciting way to volunteer in the outdoors!

WHERE: University of Minnesota Duluth
Class/lab week on campus [8:30 to 4:30 Monday through Friday]
Field work mostly day trips from campus [Monday-Friday] but note:
THE BOUNDARY WATERS TRIP IS CAMPING FOR 8 STRAIGHT DAYS

WHEN: summer session 2012 (June 4 through July 27)
  Class week is required for all students: June 4-8
  Lab week is highly recommended: July 23-27
  Choose individual field week segments (to be announced)

HOW: submit application form by MAY 1
Application packets available at Sociology-Anthropology Dept. (228 Cina Hall)
Or at www.d.umn.edu/socanth/anthropology/fieldschool.php
  8-10 students will be chosen depending on background
CONSENT OF INSTRUCTOR REQUIRED FOR REGISTRATION!!!

WHO: Susan Mulholland, instructor
Adjunct Assistant Professor and Registered Professional Archaeologist
  218-624-5489 or email suemulholland@aol.com
The UMD course **Field Research in Archaeology, ANTH 4696**, will again be offered for summer session 2012, conducted by UMD instructor Susan Mulholland. The full 6-week experience (for 6 semester credits) provides preparation for those interested in pursuing a career in archaeology as well as those just interested in seeing what archaeology field work is like. Partial credit for shorter time commitments is also possible by arrangement.

The course is scheduled for **summer session (June 4 to July 27)**. Classroom activities (week 1) will include an orientation to archaeology, Federal laws, and identification of archaeological materials; lab analysis (week 6) will focus on artifact identification and interpretation. Field work (weeks 2-5) will provide 4 weeks of survey and evaluation on in Northeastern Minnesota. The course will require 40 hours per week, with the schedule varying from 4 to 5 days in a week. Students are responsible for their own living arrangements while in Duluth. More details are in the application package (see below).

**Students may choose between several field projects in Northeastern Minnesota.** A canoe trip for archaeological survey in the **Boundary Waters Canoe Area Wilderness** is one option (covers 2 field weeks). Other projects will be day trips from Duluth to sites on the Duluth Hillside and adjacent areas, so evenings/weekends are open for other commitments.

Interested students should inquire at the Duluth Archaeology Center (218-624-5489); email to suemulholland@aol.com or smulholl@d.umn.edu; or leave name and contact information at the Sociology-Anthropology Department office (218-726-7551; socanth@d.umn.edu). Application packets with more detailed information are available at the Sociology-Anthropology Department in 228 Cina Hall, from the instructor (by pdf), and on web at www.d.umn.edu/socanth/anthropology/fieldschool.php.

Consent of the instructor is required for registration and is based on the application form. **STUDENTS WHO ARE ACCEPTED INTO THE COURSE WILL BE GIVEN A COURSE OVERRIDE NUMBER FOR REGISTRATION!!**

Applications will be reviewed as they come in; please reply by **May 1** to ensure consideration. A maximum of 8-10 students will be accepted so get in touch with **Dr. Susan Mulholland (218-624-5489; suemulholland@aol.com)** as early as possible.
