

PRE- VETERINARY MEDICINE PROGRAM

Pre veterinary medicine is not a major; it refers to a specific curriculum, or set of courses, required for admission to veterinary school. Although a bachelor's degree is not required for admission to the Doctor of Veterinary Medicine program at UM Twin Cities, approximately 70% of students entering the program each year have completed a bachelor's degree. Most pre-veterinary medicine students spread the required courses over three years. Students work with an academic advisor to determine the best sequence of courses.

^First math course is determined by math placement exam. This schedule presupposes placement into Math 1250 or Math 1296.

¹ Students may instead take Phys 2011 and 2012, which require the completion of Math 1296 and 1297, Calculus I and II.

² Prerequisite for Biol 4501 Microbiology.

³ Courses in UMD Liberal Education categories 6-10 are required. These required courses must include at least 12 credits from History & Social Science and Arts & Humanities. Applicants should list no more than two courses from any one department. Applicants entering the D.V.M. program without a baccalaureate degree are required to list two courses from the history/social science area and two courses from the arts/humanities area. Recommended additional courses are economics, public speaking, statistics, computer science, anatomy, physiology, quantitative analysis (chemistry), nutrition, business management
