Where fading clouds of vanished years Still blush with buried pair To dreams no after—days can share. The hopes that death holds

hopes and fears, back a while, Two The dreams before thy birth.
II: *Birds of the Twilight Air*

Pensieroso, venusto, andantino

Music: Justin Henry Rubin (2016)
Text: John Evelyn Barlas (1860-1914)

1. Birds of the twilight air,
   Sing not of love.
2. Light of the forest pines,
   Wake not my pain,
3. Kindling the meteor lines,
   Speak not of love.

Haze of the sunset fair,
Smooth the green river shines,
Incense of golden prayer,

Poco rit.
Dis-tance of sweet des-pair,
Speak not of love.
Wake not my pain.

Wake not, wake not my pain.
