

Collection Guide

UNIVERSITY OF IOWA FACULTY AND STAFF FILES

RG01.15.03

45.0 linear ft.

This document describes a collection of materials held by the
University of Iowa Archives
[Special Collections Department](#)

University of Iowa Libraries
Iowa City, Iowa 52242-1420
Phone: 319-335-5921
Fax: 319-335-5900
e-mail: lib-spec@uiowa.edu

Acquisition Note: The University Archives continuously receives material for this collection from various sources in the form of newspaper clippings, publications, manuscripts and other types of documents.

Access and Restrictions: This collection is open for research.

Digital Surrogates: Except where indicated, this document describes but does not reproduce the actual text, images and objects which make up this collection. Materials are available **only** in the Special Collections Department.

Copyright: Please read The University of Iowa Libraries' statement on "[Property Rights, Copyright Law, and Permissions to Use Unpublished Materials](#)"

Use of Collections: The University of Iowa Libraries supports access to the materials, published and unpublished, in its collections. Nonetheless, access to some items may be restricted by their fragile condition or by contractual agreement with donors, and it may not be possible at all times to provide appropriate machinery for reading, viewing or

accessing non-paper-based materials. Please read our [Use of Manuscripts Statement](#).

Scope and Content Note

The Faculty and Staff Files of the University of Iowa Archives consist of records pertaining to over 4,000 former and current University employees, including administrators, professors, instructors, clerical workers, health care providers and others. The files may include, but are not limited to, obituaries, résumés, newspaper articles, and scholarly publications. The collection is a convenient source of biographical information about University of Iowa faculty and staff.

Related Materials

Related materials at the University of Iowa Archives include the University General Catalog collection. Released annually from 1855 to 1972 and biennially thereafter, the catalog includes information about administrators, faculty and staff, including their titles, educational background, and courses taught or areas of specialty.

The Faculty Card List is a 30-drawer card file that contains information about many former and current faculty members: years of service to the University, rank at the time of service, and degrees held. It is arranged alphabetically by name of individual. Information in the Faculty Card List is drawn from the catalogs.

Many photographs of faculty and staff are housed in the [F.W. Kent Collection of Photographs](#). Also, in some instances, there are larger collections of papers donated by faculty, staff, alumni and others pertaining to the individual. For example, James A. Van Allen is represented not only by a file in this collection, but also by the [Papers of James A. Van Allen](#).

Series Description

The Faculty and Staff Files consist of one series, arranged alphabetically by name of individual. The list of files below indicates that a file pertaining to that individual

is available at the University of Iowa Archives. For convenience, researchers may click on the letter of their choice to view that portion of the list.
