

Data Set

```
/******  
/* Define a library and Create a dataset work.test */  
/* To remove the date from the top of each page, use the NODATE */  
/* system option. */  
/* To replace the default title, use the TITLE statement. */  
/* The label option uses variable labels as column headings */  
/* rather than variable names (the default). */  
/* The noobs option omits the OBS column of output. */  
/* The heading=vertical option prints the column headings */  
/* vertically. */  
/******  
options nodate;  
data test;  
    set mylib.productsales;  
run;  
proc print data=test label noobs /*heading=vertical*/;  
title "Product Sales Report";  
run;
```

Part of the SAS output

Product Sales Report					
	Predicted				
Actual Sales	Sales	Country	Region	Division
