

# Yang Li

March 29, 2018

## ADDRESS

Department of Mathematics and Statistics  
140 SCC, 1117 University Drive  
University of Minnesota Duluth  
Duluth, MN 55812

## CONTACT

*Office:* (218)726-8377  
*Fax:* (218)726-8399  
*Email:* yangli@d.umn.edu  
*Web:* www.d.umn.edu/~yangli

## EMPLOYMENT

*Assistant Professor* (2013 – present)  
Department of Mathematics and Statistics, University of Minnesota Duluth

## EDUCATION

*Ph.D. in statistics* (June 2013)  
Department of Statistics, Iowa State University

*Ph.D. in physics* (August 2006)  
School of Physics and Astronomy, University of Minnesota

*B.S. in physics* (July 2001)  
School for the Gifted Young, University of Science & Technology of China

## RESEARCH EXPERIENCE

*Research assistant* (2019 – 2013)  
CSSM, Iowa State University, Ames, IA

*Intern - Technical II* (2012)  
AT&T Research Lab, Florham Park, NJ

*Intern* (2011)  
Noble Americas, Stamford, CT

*Postdoctoral research associate* (2006 – 2008)  
Department of Physics, Iowa State University, Ames, IA

*Research assistant* (2003 – 2006)  
School of Physics and Astronomy, University of Minnesota, Minneapolis, MN

## AWARDS AND HONORS

University of Minnesota, International Travel Award (2017)  
Student Travel Award, American Statistical Association (2011)  
Holly and Beth Fryer Award, Department of Statistics, Iowa State University (2010)  
Outstanding Student Award, University of Science and Technology of China (1996 – 2001)

## GRANTS

- University of Minnesota, Grant-in-Aid of Research, Artistry and Scholarship (GIA), “Spatial Point Processes on Networks”, \$32,997 (2016 – 2017)
- University of Minnesota Duluth, EVCAA Research and Scholarship Grant, “Spatial Point Patterns on Networks”, \$1,500 (2015 – 2016)
- University of Minnesota Duluth, Swenson College of Science and Engineering, Chancellor’s Faculty Small Grants, “Spatial Analysis of Network Point Processes”, \$1,500 (2014 – 2015)

## PUBLICATIONS

### Accepted and Published

1. W. A. Fuller, J. C. Legg, and Y. Li, “Replication variance estimation for rejective sampling”, to appear in *Journal of the American Statistical Association* (2017+).
2. Y. Li and H. Papei, “Stochastic Local Community Detection in Networks”, *Proceedings of the 6th International Conference on Complex Networks and Their Applications*, Complex Networks, 341 (2017).
3. P.-J. Shi, D. A. Ratkowsky, N. Wang, Y. Li, L. Zhao, G. Reddy, and B.-L. Li, “Comparison of five methods for parameter estimation under Taylor’s power law”, *Ecological Complexity* 32, 121 (2017).
4. E. Heald, T. R. Hrabik, Y. Li, Z. J. Lawson, S. R. Carpenter, and M. J. Vander Zanden, “Examination of variability in spatial autocorrelation in fish and zooplankton populations during a lake mixing experiment”, *Aquatic Sciences* 79, 543 (2017).
5. J. I. Kapusta, G. Chen, R. J. Fries, and Y. Li, “Early time dynamics of gluon fields in high energy nuclear collisions”, *Nuclear Physics A* 956, 553 (2016).
6. Y. Li and Z. Zhu, “Modeling nonstationary covariance function with convolution on sphere”, *Computational Statistics and Data Analysis* 104, 233 (2016).

## **PRESENTATIONS**

### **Invited**

1. Department of Statistics, University of Missouri-Columbia, Columbia, MO, “Use Convolution to Model Nonstationary Spatial Random Field on Sphere”, March 9, 2016.
2. International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC 2014), University of North Carolina Greensboro, Greensboro, NC, “Modeling Nonstationary Covariance Function on Spheres with Convolution”, October 10, 2014.
3. School of Management, China University of Mining and Technology, Xuzhou, Jiangsu, China, “Spatial Statistics and Its Applications”, May 28, 2014.
4. Department of Mathematics and Statistics, University of Minnesota Duluth, Duluth, MN, “Modeling Covariance Functions on Spheres”, February 26, 2013.

5. Department of Statistics, Western Michigan University, Kalamazoo, MI, “Nonparametric Modeling of Covariance Functions on Spheres”, December 7, 2012.
6. School of Physics and Astronomy, University of Minnesota, Minneapolis, MN, “Gluon Recombination at High Parton Density”, November 5, 2007.
7. Physics Department and RIKEN, Brookhaven National Laboratory, Upton, NY, “Near-Field Properties in Relativistic Heavy Ion Collisions”, January 16, 2007.
8. Department of Physics and Astronomy, Iowa State University, Ames, IA, “Rescattering Effects on HBT Interferometry”, February 17, 2006.

### **Other**

1. Contributed talk, International School and Conference on Network Science, NetSciX 2018, Hangzhou, China, “Stochastic Local Community Detection in Networks”, January 8, 2018.
2. Poster presentation, the 6th International Conference on Complex Networks and Their Applications, Lyon, France, “Stochastic Local Community Detection in Networks”, November 30, 2017.
3. Department graduate colloquium, Department of Mathematics and Statistics, University of Minnesota Duluth, Duluth, MN, “Stochastic Local Community Detection in Networks”, November 2, 2017.
4. Contributed talk, Spatial Statistics 2017: One World: One Health, Lancaster University, Lancaster, United Kingdom, “Spatio-Temporal Modeling on Spheres”, July 6, 2017.
5. Department graduate colloquium, Department of Mathematics and Statistics, University of Minnesota Duluth, Duluth, MN, “Introduction to Geostatistics”, December 8, 2016.
6. Contributed talk, 2015 IMS-China International Conference on Statistics and Probability, Yunnan University, Kunming, Yunnan, China, “Semiparametric Estimation of Spectral Density and Variogram with Irregular Observations”, July 2, 2015.
7. Seminar, Department of Mechanical and Industrial Engineering, University of Minnesota Duluth, Duluth, MN, “From Classical Statistics to Spatial Statistics”, April 29, 2015.
8. Duluth R Group seminar, Duluth, MN, “Some R Functions in Spatial Statistics”, November 12, 2014.
9. Contributed talk, the 6th International Statistics Forum at Renmin University of China, Beijing, China, “Modeling Nonstationary Covariance Function on Spheres with Convolution”, May 25, 2014.
10. Contributed talk, Next Generation Climate Data Products Workshop, the National Center for Atmospheric Research, Boulder, CO, “Modeling Nonstationary Covariance Function on Spheres with Convolution”, July 16, 2013.
11. Poster presentation, the 7th International Total Survey Error Workshop, Ames, IA, “Processing Error in Erosion Estimations Based on a Longitudinal Survey”, June 4, 2013.
12. Survey working group seminar, Department of Statistics, Iowa State University, Ames, IA, “Review of Soil Erosion Analysis in NRI”, April 26, 2013.
13. Statistics Department talk, AT&T Research Lab, Florham Park, NJ, “Spatial Anomalous Events from MTS and Correlation with Cellular Network Data”, July 13, 2012.
14. Survey working group seminar, Department of Statistics, Iowa State University, Ames, IA, “Survey of Iowa Farmers on Use of Cellulosic Biomass as a Bio-fuel”, October 3, 2011.
15. Contributed talk, JSM 2011, Miami Beach, FL, “Calibration of Soil Erosion Estimates under New Protocols”, August 3, 2011.
16. Survey working group seminar, Department of Statistics, Iowa State University, Ames, IA, “USLE and RUSLE2 Soil Loss Analysis in National Resources Inventory”, October 11, 2010.

17. Contributed talk, the 20th International Conference on Ultra-Relativistic Nucleus-Nucleus Collisions (Quark Matter 2008), Jaipur, India, “Baryon Enhancement from Quasi-Classical Fields in Nuclear Collisions”, February 5, 2008.
18. Contributed talk, APS DNP meeting 2007, Newport News, VA, “Gluon Recombination at High Parton Density”, October 11, 2007.
19. Contributed talk, the 20th Midwest Nuclear Theory Get-Together, Argonne National Laboratory, Argonne, IL, “Gluon Recombination at High Parton Density: Hadron Production at RHIC”, October 6, 2007.
20. Contributed talk, APS April meeting 2006, Dallas, TX, “Near-Field Properties in Relativistic Heavy Ion Collisions”, April 23, 2006.
21. Group seminar, School of Physics and Astronomy, University of Minnesota, Minneapolis, MN, “Rescattering Effects on Intensity Interferometry in Relativistic Heavy-Ion Collisions”, October 27, 2005.
22. Contributed talk, Hot Quarks 2004, Workshop for young scientists on the physics of ultrarelativistic nucleus-nucleus collisions, Taos Valley, NM, “Rescattering Effects on HBT Interferometry”, July 22, 2004.

### **TEACHING EXPERIENCE**

Stat 5511 - Regression Analysis (Fall 2015, Fall 2016)  
 Stat 5571 - Probability (Spring 2015, Spring 2016, Fall 2016, Spring 2018)  
 Stat 5411 - Analysis of Variance (Fall 2013, Fall 2014, Fall 2015, Fall 2016, Fall 2017)  
 Stat 4040 - Introduction to Survey Sampling (Spring 2016, Fall 2017)  
 Stat 3611 - Introduction to Probability and Statistics (Spring 2014, Fall 2014, Spring 2015, Summer 2017, Spring 2018)  
 Stat 3411 - Engineering Statistics (Summer 2014)  
 Math 1250 - Precalculus Analysis (Summer 2015, Summer 2016)

### **STUDENT ADVISING**

#### *Master of Science in Applied and Computational Mathematics, UMD*

Levi D. Pederson	(Graduated May 2015)
Xinyue Chang	(Graduated May 2016)
Melissa Sandahl (co-advise with K. L. James)	(Graduated July 2016)
Mudit Jain (co-advise with V. Vanchurin)	(Graduated June 2017)
Yang Wang	(Graduated June 2017)
Lei Ding (co-advise with H. Wang)	(Graduated August 2017)
Hadi Papei	(Graduated August 2017)
Zhenduo Wang (co-advise with T. Pedersen)	(2017 – present)
McCoy Becker	(2017 – present)
Jingxia Liu	(2017 – present)

#### *Undergraduate Research Opportunities Program (UROP), UMD*

Lusha Li	(Spring 2016)
