UMD 303 – Illicit Discharge Detection and Elimination BMP

Title: Non-Storm Water Discharge Prohibition

Addresses Minimum Measures: III Illicit Discharge Detection and Elimination

Target Audience: University Employees
University Students
Architects and Engineers
Contractors

Description: Develop a BMP as required in Part V.G.3.b of the General Permit. As a land grant institution with its own building code official, the University has legal authority to regulate and enforce contractors and operations on its properties. The Office of General Counsel (OGC) is confirming this legal authority. The UMTC task force will review existing Regent’s Policies to determine if there is an implicit non-storm discharge policy.

Measurable Goals:

1. Determine legal authority to regulate contractors and operations
2. Review existing Regent’s Policies
3. If applicable, draft new Regent’s Policy
4. Approve Regent’s Policy

Timeline:

- Summer 2003
- Fall 2003
- Winter 2003-2004
- 2004-2005

Specific Components:
- This is a University wide BMP - Reference UMTC 305.
- The prohibition policy will allow enforcement and sanctions for compliance with SWPPP and associated BMPs.

Educational Components:
- Training mechanics on correct implementation of procedure.

Responsible Party: UMTC Storm Water Task Force
