Kate’s Homework Guidelines

- Write neatly in pencil...completely erase all mistakes...do not scribble things out!
- Only write on ONE side of the paper (yes it’s a waste...get over it)
- Do the problems in order with the answer circled and enough space between problems so that they are distinguishable from each other.
- Include all work (i.e. show all steps)...answers without justification will be assigned little (if any points)...read the question carefully and answer all parts.
- NO fringes (they are annoying!)
- Write your name on the BACK of the LAST page
- Staple your pages in order!
- You will need a coversheet that will have all the pertinent information...I will have these on my webpage...you can either print them off or make your own. Here is an example of what they look like:

Math 1160: Finite Calculus
Inst: Kate Niedzielski

Assignment #4

Due 10/11/12

Section 4.1: 8, 10, 14, 16, 18
Section 4.2: 4a, 8, 12, 26, 20

Name ______________________________

Discussion Section ________

Score ___/20
