EE 4305 Lab Policies

Lab location: MWAH 41

Lab check-off deadline: Thursdays 5:00pm
Check-off: Students require a demo of his or her work and the instructor will ask few questions to test how well the student understands his or her work.

Lab helps: Thursdays: 1:00 – 5:00pm

Grading:

Check off = 80% of score
Report = 20% of score

Labs are worth 20 – 40 points each depending on the length/complexity.

Labs must be demoed and checked off by the instructor by the due date 5:00PM to avoid late penalties.

A hard-copy lab report should be submitted in class on the following class day of the lab check-off due date. Email report submission is not accepted.

Loss of 1 point on the lab score is applied for each day late from the check-off date. No labs will be accepted after one week late from the lab check-off date.

Lab reports should follow the instructions given at the end of each lab assignment sheet.

Plagiarism refers to stealing and copying codes written by someone else in the past (it could be your class mate, past students, or Internet search), and then you are presenting it to the instructor as if it is your original work. UMD does not tolerate any form of plagiarism, and if plagiarism is discovered, the instructor holds all of the rights to give zero points for the plagiarized labs as well as the rest of labs leading to that lab. In addition, you may be sanctioned from the lab.

Simply speaking, failure of a lab project is OK but not cheating. If you worked hard on the lab but if you were unable to finish the given task, you are OK and will still receive up to 80% of the total grade based on quality of your work, but if you cheat, you will receive zero scores for all of your labs and may be sanctioned from the lab.
