African and African American Studies Minor

Sociology/Anthropology

College of Liberal Arts

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 20

The African American and African studies minor is an interdisciplinary program designed to promote a vigorous understanding of the worldwide historical and current experience of African Americans and people of African descent. Through its pedagogical offerings, research activities, advocacy, and community and civic engagements, the program aims to promote awareness and the advancement of the cultures and institutions of African American and African cultural communities at the local, state, national, and international levels. The courses are structured to provide a vast array of interdisciplinary, intellectual, and academic approaches to research, interpretation, and the dissemination of the multifaceted experiences and realities of the total Black global experience. The program leads initiatives to develop a seamless and tightly woven cross-disciplinary pedagogical and scholastic structure focusing on the study of African American, African, and Caribbean community life and development in the United States and the world at-large. The program, through courses, advising, seminars, lectures, and presentations, supports the academic and intellectual growth of students in an ever increasing multicultural and diverse world.

American Indian Studies B.A.

American Indian Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 43
- Degree: Bachelor of Arts

American Indian Studies (AIS) is an interdisciplinary academic department offering coursework committed to broadening knowledge of the worldview, histories, languages, literatures, cultures, arts, and contemporary experiences of American Indian nations and peoples. As American Indian nations maintain a distinct political relationship with the federal government rooted in historical treaties, congressional laws, and executive orders, AIS promotes an awareness for and understanding of tribal sovereignty and self-determination. AIS strives to protect the integrity and identity of the indigenous population of North America and to create an intellectual learning environment conducive to critical and creative thought.

A bachelors of arts degree in American Indian studies is designed to give students a broad background while allowing concentrated study in an area(s) of interest. The core of the program includes study in Ojibwe language, historical and contemporary foundations, politics and law, art and literature, and societies and cultures. Majors and minors develop skills in analytical and critical thinking, as well as verbal and written communication. They acquire knowledge of historical and contemporary American Indian experiences, cultures, and (inter)governmental affairs. Additionally, students may focus their area of study in Ojibwe language.

Graduates are prepared for careers in a variety of professional fields, including social services, for-profit and not-for profit organizations, tribal, local, state or federal government, criminal and social justice fields, tribal economic development, as well as business and management. In addition, some graduates pursue advanced degrees in law, health, business, social work, education, museum studies, and fine arts.

Honors Requirements: Students must have a 3.75 GPA in the major.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.

7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Anthropology is concerned with the holistic study of diverse peoples and cultures with a central focus on what it means to be human. This understanding is developed using an integrative and comparative approach that examines the role of culture in human society. Areas of knowledge include:

* specific ethnographic areas such as Middle, Central and South America, the Middle East, Europe, and Africa, along with specific sub-fields of anthropology: cultural anthropology, archaeology, linguistics, and physical anthropology

* political, social, and environmental issues within the context of international and intranational diversity, framed within the Department's overall unifying socially-relevant themes of inequality, identity, power, social change and development, and global multiculturalism.

* major historical and contemporary theoretical perspectives

To illustrate how anthropological knowledge is obtained, qualitative methodology is emphasized, including knowledge of the uses and limitations of standard methods, a strong ethical component concerning the study of humans, and the relationship between theory and method in qualitative fieldwork.

A Final Project, ANTH 4653 - Senior Seminar, a capstone course, provides anthropology majors with an overview of current anthropological knowledge and develops their research skills.

Honors Requirements: Honors students participate in independent research, working closely with a faculty member. Qualified majors apply to the honors program before the end of the second week of their senior year after they have completed or are enrolled in ANTH 4651 - Development of Anthropological Theory.

- Required credits to graduate with this degree: 120
- Required credits within the major: 33 to 49
- This program requires summer terms.
- Study abroad is required.
- Degree: Bachelor of Arts

This program prepares students to thrive as globally aware and cross-culturally competent citizens through a critical understanding of Chinese cultures. Students develop functional Mandarin language communication skills. Topics studied pertain to Chinese literature, history, politics, and art. This major addresses the role of China within larger global contexts. A major in Chinese Area Studies prepares graduates to apply their language skills, cultural knowledge, and global awareness to a wide variety of career choices (government, international relations, foreign service, immigration services, tourism, and entrepreneurship).

Study abroad (3 cr minimum) is required for this major.

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).

2. Study abroad is required for this major.

Required Language Core (0-16 cr)

Students with previous language study may be exempt from some core requirements and should consult the department about placement. Students who fulfill the study abroad requirement with FST/CHIN 1399 will be exempt from CHIN 1104 by request.

CHIN 1101 - Beginning Chinese I: A Practical Introduction to Everyday Mandarin Chinese [LE CAT3, LEIP CAT03, COMM & LAN] (4.0 cr)

CHIN 1102 - Beginning Chinese II: A Practical Introduction to Everyday Mandarin Chinese [LE CAT3, LEIP CAT03, COMM & LAN] (4.0 cr)

Chinese Area Studies Minor

Foreign Languages & Literatures

College of Liberal Arts

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 17 to 33

This program prepares students to thrive as globally aware and cross-culturally competent citizens through a critical understanding of Chinese cultures. Students develop functional Mandarin language communication skills. Topics studied pertain to Chinese literature, history, politics, and art. This program addresses the role of China within larger global contexts. Chinese Area Studies prepares graduates to apply their language skills, cultural knowledge, and global awareness to a wide variety of career choices (government, international relations, foreign service, immigration services, tourism and entrepreneurship).

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Cognitive Science Minor

Philosophy

College of Liberal Arts

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 18

Cognitive Science is the interdisciplinary attempt to understand the mind, especially the human mind (with the prospect of creating artificial minds coming in a close second).

Understanding the mind and intelligence has long been a goal that seemed out of reach. The mind, consciousness, intelligence, and the related phenomena have been addressed by researchers in many areas including philosophy, psychology, linguistics, medicine, neuroscience, and artificial intelligence. These disciplines have very different histories and at universities are often separated by distance and academic culture. However, in the past 30 years, there has been a convergence of these disciplines on a few research paradigms: computational models of perception and reasoning, connectionism, and embodied cognition. It is now possible to form a more complete understanding of minds by drawing on contributions from all these disciplines, and a great deal of progress has been made. This has led to the rise at many universities of interdisciplinary programs in Cognitive Science. The programs exploit the insights that come from a variety of disciplinary approaches to understanding a single phenomenon: cognition.

More specifically, Cognitive Science aims to understand the nature and development of such intelligent capacities as consciousness, perception, information processing, language acquisition and processing, planning, reasoning, learning, representation and use of knowledge, and problem-solving, whether these capacities are realized in biological or artificial systems. The Cognitive Science Minor looks to the theoretical foundations, the substantive empirical results, and the methodological tools of the contributing disciplines of Linguistics, Computer Science, Philosophy and Psychology. The hope of Cognitive Science is that by combining the methods and results of all these branches, we will be able to provide a global understanding of the mind, how it works, and why it works that way.

Graduates of the minor program will be prepared for study in one of the many recently developed graduate Cognitive Science programs (including the Ph.D. offered at the Center for Cognitive Science at the University of Minnesota, Twin Cities) as well as graduate study in related programs such as cognition, brain, and behavior, cognitive neuroscience, artificial intelligence, and human-computer interaction. Those who choose to study the law, a path frequently chosen by philosophy majors, will be well suited for legal practice concerned with the variety of legal complexities associated with the development of these new technologies.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

Communication B.A.

Communication

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

At the core of the communication discipline is a concern for the relationship between symbolic action (speaking, writing, etc.) and social change. The B.A. in communication emphasizes the breadth and diversity of the communication field, with an integrated focus that spans social scientific and cultural/historical methodologies. Students develop conceptual and research competence in the areas of interpersonal communication, mass media, and rhetorical theory and practice.

Honors Requirements: Candidates must be communication majors with a 3.30 GPA in all communication courses and 3.00 overall. Students write an honors-quality paper sponsored by a communication faculty member and approved by two additional communication faculty. Candidates apply before the end of the first four weeks of their senior year. Contact the department head or academic adviser for more information.

Criminology B.A.

Sociology/Anthropology

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 42
- Degree: Bachelor of Arts

Criminology is the study of crime and criminal behavior. The criminology program focuses on crime as a social phenomenon and the causes of criminal behavior. The major provides an overview of institutions, issues and causes of crime, and social control; it also offers a strong foundation in liberal arts, a basic knowledge of behavioral sciences, and a strong professional growth potential for those pursuing a career in criminology or the criminal justice system. Many criminology majors enter law, law enforcement, corrections, and other social service careers or graduate school.

Honors Requirements: The department honors program recognizes majors who demonstrate outstanding academic performance, provides special educational opportunities for such students, and encourages the development of specialty areas within the major. Honors students participate in independent research, working closely with a faculty member. Qualified majors apply to the honors program before the end of the second week of the first semester of their senior year.

Program Delivery

This program is available:

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).
2. Completion of the lower division core requirements before beginning the upper division core.
3. Students electing to major in criminology and sociology must follow the fall 2014 requirements or later for both programs.

Cultural Entrepreneurship B.A.

Foreign Languages & Literatures

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 70 to 71
- This program requires summer terms.
- Degree: Bachelor of Arts

Cultural entrepreneurship is an emerging academic discipline that examines how cultural products traditionally associated with the fine and liberal arts, such as art, theater, poetry, and literature, but also cultural activities such as sports, music, food, and film events are having an increasingly important impact on the growth of local, national, and global economies. Cultural entrepreneurship scholars thus study the impact of culture on economies, and develop new strategies for enhancing local livelihoods by creative, new, sustainable, socially responsible ways of producing income through cultural activity.

The B.A. program in cultural entrepreneurship stresses the centrality of culture in the success of entrepreneurial endeavors. Building on the concept of cognitive ambidexterity, it combines training in quantitative skills and predictive logic that is common in business schools, with extensive work in creative logic and thinking, as it is most often cultivated in the liberal arts. Predictive logic refers to the ability to generate models, forecasts and estimates, while creative logic addresses the ability to self-examine, understand social contexts, and to shape the future by identifying courses of action and negotiating complexities of human decision-making.

Students in this program will complete an extensive core of business and entrepreneurship courses, including economics, finance, accounting, operations management, organizational management, financial management, marketing, human resources, statistics, and entrepreneurship. Students will also receive a Certificate in Business Administration from the Labovitz School of Business and Economics (LSBE). They will receive instruction in at least two languages, and choose classes from six skill areas intended to foster their creative thinking skills and intercultural competency: Creativity and Design; Empathy, Ethics and Respect; Meaning; Picture and Story; Play and Discipline; Symphony and Synthesis.

The program includes courses from all five collegiate units. Majors are encouraged to incorporate a study abroad experience into their programs. The UMD Study in England program at the University of Worcester is particularly well-suited to accommodate the need of transferable courses for students in the cultural entrepreneurship program.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this

requirement.

6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Written application to the CUE program director, explaining why the student wants to be admitted to the program and their career goals.
2. The CUE program will also support and strengthen optional study abroad sites currently available such as: Montpellier, Salamanca, St. Petersburg, Worcester, Potsdam and various sites in China. Students are advised to visit with the CUE program director about how courses abroad may be incorporated into this program.
3. Students must complete through the advanced level course of a foreign or indigenous language offered at UMD or equivalent (LANG designator for alternative). In addition, students complete a different second language through the beginning sequence. Students take an Oral Proficiency Interview (OPI) to determine placement. This exam is administered through the UMD Foreign Languages and Literatures Department. The OPI determines the amount of courses required to complete the language requirement or waiver.

Certificate Core (16 credits)

After the successful completion of this required core, students will receive a Certificate of Business Administration from LSBE. These courses are provided in an on-line format in any order.

Cultural Studies Minor

Sociology/Anthropology

College of Liberal Arts

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 29

The cultural studies minor is an interdisciplinary program that focuses on how culture and power intersect everyday life. Cultural studies work specializes in creating and practicing methods of critical thinking that can be applied to the study of popular culture. The program makes "theory" and scholarly research a participatory project. Students develop expertise in critical cultural analysis, especially in the workings of gender, race, social class, different abilities, and sexual orientation in everyday life.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Core (8 cr)

[CST 4653](#) - Cultural Studies Senior Seminar/Capstone (4.0 cr)

Electives (21 cr)

Students propose 7 courses (21 credits). Following the completion of CST 1101, students propose 7 courses within the areas of identity politics; cultures of space and place; media cultures; and cultures of science, technology and medicine. Electives must be approved by the coordinator prior to the completion of the courses. Courses already completed may not be accepted. A sample listing of UMD courses is available through the coordinator, but the student is encouraged to find suitable courses.

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 41 to 62
- Degree: Bachelor of Arts

The English major develops student knowledge and appreciation of the literary arts within the English, Irish, and American traditions. Depending on career goals, majors should choose one of two tracks: literary studies or literature, language, and culture. Students may major or minor in programs leading to the B.A. or the B.A.A. teaching degree.

The English major is a liberal arts rather than a professional degree. That is, the course of studies does not prepare students for one specific vocation but instead provides them with the basic knowledge and skills that they can use in any number of professional fields. English majors and minors develop the skills in analysis and communication (oral and written) that make them very attractive to employers today.

While a few UMD English graduates each year go on to teach English at various levels or attend graduate school in English, the great majority find employment in other fields. Recent graduates of UMD's English program have been accepted in various courses of graduate study including law, medicine, business, theology, and interdisciplinary studies. Other graduates have accepted positions as health claims representative, editor, sales consultant, office manager, journalist, administrative assistant, writer, Air National Guard, property manager, bookkeeper, and assistant account executive.

Honors Requirements: Candidates must have a 3.20 overall GPA and 3.40 in the major. An honors paper or creative writing project must be completed in a 5xxx course or through independent study. Completed projects and papers must be approved by a sponsoring faculty member and the department honors committee. Students who wish to qualify for honors must contact the department at least one semester before graduation.

Environment and Sustainability B.A.

Geography, Urban, Environmental & Sustain Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 86
- This program requires summer terms.
- Degree: Bachelor of Arts

The environment and sustainability program provides a sound interdisciplinary grounding in the natural sciences, social sciences, and the humanities, producing graduates who understand and think creatively about complex global environmental and social problems. The curriculum encourages multidisciplinary thinking and problem-solving skills at the nexus of the natural sciences and social sciences. Coursework develops skills in research, writing, creative thinking, and sound policy making, as students draw upon a range of disciplines to understand and solve specific issues and problems.

Honors Requirements: Candidates must be majors with a 3.00 overall GPA and 3.30 in the major. Students must complete an honors project supervised by a faculty member and approved by the program director. In some cases, the project may develop out of the environment and sustainability internship. Students must notify the director of their intent to participate in the honors program by the end of the first week of the semester of graduation and the completed project must be approved by the faculty adviser and the director at least 30 days before the end of the term. The project is presented orally or by exhibition.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

French Studies B.A.

Foreign Languages & Literatures

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 27 to 47
- Study abroad will be strongly encouraged for French Studies majors in a variety of sites, to be determined by student interest and focus, throughout the French-speaking world. Our program will work to facilitate the achievement of University of Minnesota system-wide goals, which call for 50 percent of students to participate in a study abroad experience.
- Degree: Bachelor of Arts

This program prepares students to thrive as globally competent citizens through an in-depth encounter with French and Francophone cultures and literatures. Majors develop language proficiency and communication skills as they study literatures, films, and cultures of the French-speaking world. Such studies have long been a core discipline in the liberal arts due to the rich intellectual, political, artistic, technological, and scientific achievements of a culture whose language is spoken in many parts of the world. In view of northeastern Minnesota's extensive French heritage and proximity to bilingual Canada, the field of French studies offers local as well as global perspectives that can be applied in a wide variety of career choices.

Geographic Information Science B.A.

Geography, Urban, Environmental & Sustain Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 55
- Degree: Bachelor of Arts

The core of the Geographic Information Science major is the study and use of geographic information systems (GIS). Central to this program are the theoretical and applied fundamentals of the collection, management, analysis, and representation of spatial data. The program builds on this core by exploring both traditional and novel methods for geo-visualization and by exploring applications of GIS to environmental, resource, and policy/management issues. Methods include teaching various remote sensing technologies used to collect and classify remotely sensed data, critically discussing the implications of geo-spatial technologies on individuals and society, and demonstrating how geo-spatial technologies are used effectively in urban and regional planning processes. Students also learn about GIS project management and research process, professional ethics, and presentation. The major blends well with other majors such as anthropology, biology, chemistry, computer science, criminology, engineering, environment and sustainability, geography, geology, history, mathematics, political science, sociology, statistics, and urban and regional studies. Students are encouraged to double major.

Honors Requirements: Candidates must have a 3.00 overall GPA and a 3.30 in the major. An honors project and paper must be completed in GEOG 4999. Students who wish to have such work considered for honors must complete a departmental form prior to the second semester of their senior year. Completed projects and papers must be approved by the sponsoring faculty member and other members of the department.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).
2. If students choose to double major in any of the following combinations GIS, GEOG, ES, or URS, they must follow the fall 2012 or later degree requirements for all programs. Following these requirements addresses the overlapping of courses across programs.
3. Students with the GIS major cannot pursue the GIS certificate.

Required Core (37 cr)

- GEOG 1414** - Physical Geography [LE CAT4, NAT SCI, SUSTAIN] (4.0 cr)
or **GEOL 1110** - Geology and Earth Systems [LE CAT4, NAT SCI, SUSTAIN] (4.0 cr)
- GEOG 1304** - Human Geography [LE CAT6, LECD CAT06, SOC SCI] (3.0 cr)
or **GEOG 2305** - Geography of Cultural Diversity [CDIVERSITY] (3.0 cr)

And all of the following:

- GEOG 2552** - Introduction to Maps and Geospatial Information [LE CAT2, LOGIC & QR] (3.0 cr)
- GEOG 3532** - Map Design and Geographic Visualization (4.0 cr)

Geographic Information Science Certificate

Geography, Urban, Environmental & Sustain Studies

College of Liberal Arts

- Program Type: Undergraduate credit certificate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 19
- Degree: Geographic Information Science Certificate

The certificate in Geographic Information Science has as its core the study and use of geographic information systems (GIS). Central to this program are the theoretical and applied fundamentals of the collection, management, analysis and representation of spatial data. The program builds on this core by exploring both traditional and novel methods for geo-visualization. Methods include teaching about various GIS and remote sensing technologies used to collect and analyze spatial data and how to use these technologies, critically discussing the implications of geo-spatial technologies on individuals and society, demonstrating how geo-spatial technologies are used effectively in urban and regional planning processes; and by exploration of applications of GIS to environmental, resource and policy/management issues.

The five-course series offers students the opportunity to expand their knowledge and expertise in the area of Geographic Information Science (GISci). Participants in the certificate will receive the theoretical and technical education needed to acquire, manage and critically analyze and represent geo-referenced data. The program offers basic and advanced courses in map design and geo-visualization, geographic information systems, remote sensing and geo-spatial technologies in general.

This certificate is not eligible for financial aid.

Students pursuing the GISci major or minor are not eligible for the GISci certificate program.

Program Delivery

This program is available:

Geographic Information Science Minor

Geography, Urban, Environmental & Sustain Studies

College of Liberal Arts

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 26

The minor in geographic information science has as its core the study and use of geographic information systems (GIS). Central to this program are the theoretical and applied fundamentals of the collection, management, analysis, and representation of spatial data. The program builds on this core by exploring both traditional and novel methods for geo-visualization. Methods include teaching about various remote sensing technologies used to collect and classify remotely sensed data and how to use these technologies, critically discussing the implications of geo-spatial technologies on individuals and society, demonstrating how geo-spatial technologies are used effectively in urban and regional planning processes, and by exploring applications of GIS to environmental, resource and policy/management issues. The minor interweaves well with majors in anthropology, biology, chemistry, computer science, criminology, engineering, environmental sciences, geology, history, mathematics, political science, sociology, and statistics.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 3 credits before admission to the program.

To be accepted into the GIS minor program, students must first complete GEOG 2552 and have an overall GPA of at least 2.00. A full understanding of basic computer use is expected.

Students following the fall 2011 or earlier degree requirements for majors or minors in: geography, environmental studies, and urban and regional studies are not eligible for the GIS minor, but they can enroll in the GIS Certificate Program.

Students following the fall 2012 or later degree requirements for majors or minors in: geography, environment and sustainability, and urban and regional studies may minor in GIS.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Minor Requirements

Core (14 cr)

To be accepted into the GIS minor, students must complete GEOG 2552 and have an overall GPA of at least 2.00.

Choose one:

- [GEOG 1304](#) - Human Geography [LE CAT6, LECD CAT06, SOC SCI] (3.0 cr)
- or [GEOG 1414](#) - Physical Geography [LE CAT4, NAT SCI, SUSTAIN] (4.0 cr)

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 49
- Degree: Bachelor of Arts

This program provides students with a strong interdisciplinary degree that combines human, physical, and technical aspects of the discipline. It trains students for employment in careers requiring knowledge of geography or the use of geographic techniques, and it prepares them for graduate studies. Career opportunities for students with a degree in geography include environmental assessment, public and private sector planning, geographic education, travel and tourism, cartography and geo-visualization, business and industrial research, location analysis, community activism, geographic information sciences, and a variety of other activities requiring geographic expertise.

Honors Requirements: Candidates must have a 3.00 overall GPA and a 3.30 in the major. An honors project and paper must be completed in GEOG 4999. Students who wish to have such work considered for honors must complete a departmental form prior to the second semester of their senior year. Completed projects and papers must be approved by the sponsoring faculty member and other members of the department.

Program Requirements

1. A second field of study (either a minor or another major).
2. Foreign language study is recommended, but not required, for all geography students, especially those interested in cultural geography or considering graduate study.

Students interested in the technical/techniques aspects of geography should consult with their adviser about elective courses that would support their focus in geography.

Lower Division Core (13 cr)

If a student is a double major in geography and geological sciences, the student may take either GEOG 1414 or GEOL 1110. If the student takes GEOL 1110 (and not GEOG 1414), the student must take GEOG 4451 in place of GEOG 1414. If the student takes GEOG 1414 (and not GEOL 1110), the student must take another GEOL elective in place of GEOL 1110.

- Required credits within the major: 28 to 48
- Degree: Bachelor of Arts

This program introduces and explores the culture of German-speaking countries, with an emphasis on contemporary issues. The political and social backgrounds that produced these cultures are seen through literature, the arts, history, and media. German, long the language of science and philosophy, also provides a window to Europe and its emerging institutions and relationships. Taught in German, this program also offers a solid foundation in the language. German majors are encouraged to declare a second major in a complementary field.

Honors Requirements: Departmental honors will be granted to students according to the following process: Students who achieve a 3.30 GPA in upper division language courses at UMD will be invited by program faculty to submit a portfolio of excellent work done in the language for consideration by faculty in the program. The faculty then will decide if honors are to be awarded based on that portfolio.

1. A second field of study (either a minor or another major).
2. Three elective courses (12 credits) applicable to the major must be taken through UMD.
3. Study abroad is encouraged for all students and the department makes every effort to facilitate such experiences.
4. Oral proficiency exam.

Note: Students pursuing both the B.A. and the B.A.A. degrees in German must satisfactorily complete 12 non-overlapping upper division credits of German electives over and above the requirements for the B.A.A. to receive both degrees.

Core (0-20 cr)

Students may be exempted from part of the core requirements if they have previously completed studies in German. As a rule, students with 3 years of high school German enter the sequence at the intermediate German level and are exempt from GER 1101-1102. Students may potentially receive credit for GER 1201-1202 after a successful test-out procedure.

- GER 1101 - Beginning German I [LE CAT3, COMM & LAN] (4.0 cr)
- GER 1102 - Beginning German II [LE CAT3, COMM & LAN] (4.0 cr)

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 28 to 48
- Degree: Bachelor of Arts

The B.A. in Hispanic Studies provides cultural manifestations and a broader world perspective; studying Spanish is also important as it becomes the second language of the United States. This major emphasizes communication skills, language proficiency, and the study of language, literature, and culture as they pertain to Spain, Spanish America, and the U.S. Latino population. It prepares students for graduate or professional school programs such as law, or for work in government or with agencies and businesses having international ties. It provides students with a traditional liberal education.

Honors Requirements: Departmental honors will be awarded to students according to the following process. Students who achieve a 3.30 GPA in upper division language courses at UMD will be invited by program faculty to submit a portfolio of excellent work done in the language for consideration by faculty in the program. The faculty then will decide if honors will be awarded, based on that portfolio.

5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major). Students majoring in Hispanic Studies cannot minor in Latin American Area Studies, but they may double major. Students double majoring in Hispanic Studies and Latin American Area Studies must have a third field of study (another major or minor).

Note: Students pursuing both Hispanic Studies B.A. and the Teaching Spanish B.A.A. must satisfactorily complete 12 non-overlapping upper division credits of Spanish electives over and above the requirements for the B.A.A. to receive both degrees.

2. Two elective courses applicable to the major must be taken through UMD.

3. Study abroad is encouraged for all students and the department makes every effort to facilitate such experiences.

4. Oral proficiency exam.

Core (0-20 cr)

The core program in language skills (listening, speaking, reading, writing) is common to all majors and minors. Students with previous language study may be exempt from some core requirements and should consult the department about placement. Students need to complete the advanced Spanish language course before other upper division courses that emphasize literature and culture.

Hispanic Studies Minor

Foreign Languages & Literatures

College of Liberal Arts

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 12 to 32

The Hispanic Studies minor complements any liberal arts degree and many professional degrees, especially those in business, social services, and politics.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Core (0-20 cr)

Students may be exempt from part or all of the core requirements if they have previously completed studies in Spanish at the high school or college level.

History

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 45 to 54
- Degree: Bachelor of Arts

The study of history is vital to a liberal arts education, because it provides a holistic approach to knowledge; it broadens students' understanding of commonality and diversity, development of cultures, and drama of human experience.

History touches on the whole range of the human heritage. While focusing on the past, it also helps students understand the present and provides a strong foundation for the future. It prepares students for careers that demand analytical and communication skills, critical thinking, and cultural breadth. These careers include law, business, journalism, teaching, government, and the ministry.

This program introduces students to major world cultures and provides experience in the critical use of historical literature and other source materials. It offers concentrations in five geographical areas (Africa, East Asia, Europe, the Middle East, and the United States) and three chronological periodizations (Ancient, Pre-Modern, and Modern).

Honors Requirements: Candidates must have a 3.00 overall GPA and a 3.30 in the major. An honors paper or project must be completed in a 5xxx course. Students who wish to have such work considered for honors must complete a departmental form the first semester of their senior year. Completed projects and papers must be approved by the sponsoring faculty member and one other member of the faculty.

Language Requirement: Students must complete the sequence in the intermediate-level courses of one second or foreign language. Students may be exempt from this requirement if they have previously completed an equivalent language at this level. The History Department Head reviews exemptions. Students should consult the Departments of American Indian Studies, Education, or Foreign Languages and Literatures about placement.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.

6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).
2. Students must complete the sequence in the intermediate-level courses of one second or foreign language.

* Internship option: In consultation with the department's internship adviser, students may participate in HIST 3097, a learning experience either on or off campus that introduces them to practical applications or other methodological issues of history as a discipline.

Program Core (15 cr)

Take one 1xxx or 2xxx course from each of the five geographical areas. Students are advised to take two 1xxx and three 2xxx courses to satisfy this requirement. Two special topics (HIST 2xxx) courses are applicable to this area and degree.

Interdisciplinary Studies B.A.

College of Liberal Arts - Adm

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 48
- Degree: Bachelor of Arts

The B.A. in interdisciplinary studies is for students whose educational objectives can best be met by integrating courses from three or more departments. The program provides the framework for study in selected interdisciplinary areas.

Unlike many UMD majors, interdisciplinary studies is available only by formal application and committee approval. Students cannot apply for a change of major until their program has been approved.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

This major is unique because it is individually designed; students work with faculty advisers to create a field of study involving courses from several departments. It may encompass the natural sciences, social sciences, cultural studies, fine arts, technical and professional fields, or a combination of these.

The program admission application should be thought through carefully. Students who select this major must submit a statement of their educational objectives and a list of proposed courses to the committee for approval before they complete 70 credits with a cumulative GPA of 2.50. The list of courses for the major and a statement of purpose explains the student's rationale for the proposed program. Upon approval by the Interdisciplinary Studies Committee, it becomes an individualized program. A current transcript must be submitted with the application.

3. Students must complete a minimum of 120 semester credits.

4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Before completing 70 credits, applicants submit a statement of their educational objectives and a list of proposed courses to the Interdisciplinary Studies Committee for approval. Proposals are reviewed once a term at the end of the eighth week.
2. A cumulative U of M GPA of at least 2.50 is required with the application.
3. Within the proposal, at least 12 credits must be from CLA course offerings.

Methods Course (3 cr)

All students are required to complete one research methods course appropriate to their final project before they register for senior project.

Take no more than 1 course(s) from the following:

Linguistics B.S.

Writing Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 48 to 53
- Degree: Bachelor of Science

The B.S. in linguistics prepares students to undertake the study of language in a rigorous, scientific manner. The major offers basic and advanced courses in the sound, structure, and meaning of language, and it teaches students the fundamental methods of scientific inquiry. The curriculum focuses on both the internal place of language in the human mind and brain, as well as the external role of language in communication and culture. Along the way, students will consider many topics in linguistics, such as syntactic structure of languages, semantic and pragmatic meaning, language acquisition, language disorders, language evolution, dialects and sociolinguistic variation, language and gender, computational linguistics, and many others. With topics such as these in mind, students will be trained to form research questions, gather data, and make arguments based upon their observations. They will also gain experience working with a wide range of languages and diverse cultures. The program will also require a background in science and mathematics consistent with a bachelor of science degree, which will allow students a straightforward double major in many of the established science majors at the University.

There is a diversity of employment opportunities for linguistics majors. The analytical skills and experience with language makes linguistic majors particularly appealing to computer and software companies, as writers and analysts of all types, in education, in projects such as speech recognition and machine translation, and as preparation for advanced study in all of the liberal arts, social sciences, and computer sciences disciplines. Finally, the United States Department of Homeland Security and federal law enforcement agencies routinely hire employees trained in linguistics.

WRIT 31xx - Advanced Writing

Duluth Campus Linguistics Minor

Writing Studies

College of Liberal Arts

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 20

This minor emphasizes two important facets of human language--the mathematical and social aspects of language. To understand the formal mathematical nature of human language, courses are offered in the areas of phonology, morphology, and syntax. The issues of language as social phenomena are dealt with in diverse, socio-cultural linguistics courses. After minoring in linguistics, students will achieve a high level of analytical ability, which is necessary not only in linguistics, but also in many other related fields, including computer science, mathematics, philosophy, and psychology.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Core Requirements (6 cr)

- LING 1811 - Introduction to Linguistics [LE CAT2, LOGIC & QR] (3.0 cr)
- LING 3102 - Introduction to Syntax (3.0 cr)

Electives (14 cr)

LING 3102 does not apply. No more than one course from a single second language may apply: American Sign Language, Chinese, French, German, Ojibwe, Russian, Spanish.

Take 14 or more credit(s) from the following:

- LING 1xxx - 5xxx
- ANTH 4628 *(Inactive)* (3.0 cr)
- ENGL 5821 - History of the English Language (4.0 cr)
- PHIL 2011 - Philosophy of Language [LE CAT3, SOC SCI] (3.0 cr)
- PSY 3661 - Psychology of Language (3.0 cr)

Language (optional)

Take 0 - 1 course(s) from the following:

- AMIN 1103 - Introduction to the Ojibwe Language [LE CAT3, LECD CAT03, COMM & LAN] (3.0 cr)
- AMIN 1104 - Beginning Ojibwe II [LE CAT3, LECD CAT03, COMM & LAN] (3.0 cr)

Philosophy B.A.

Philosophy

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 32 to 38
- Degree: Bachelor of Arts

This program familiarizes students with the broad range of foundational theories that arose in the history of philosophy and helps students develop problem-solving skills using critical thinking. Beginning courses provide a comprehensive introduction to the methods and procedures of analytical reasoning by examining issues concerning logic, the nature of knowledge and reality, the existence of freedom, and the character of right and wrong. Advanced courses focus on special historical periods (e.g., Greek philosophy, early modern philosophy) and specific problem areas (e.g., philosophy of psychology, medical ethics, philosophy of language).

Principles that emerge from the study of philosophy concern basic theories and concepts, and the nature of reasoning as it applies to all areas of investigation within the humanities, natural sciences, and social sciences. As a result, studying philosophy enhances all majors and minors.

Honors Requirements: Candidates must be philosophy majors with a 3.30 GPA in the major. Students complete PHIL 5991 and write a substantial paper or significantly rewrite a paper submitted for another philosophy course. Students must notify the department head of their intent to participate in the honors program by the end of the first week of the semester of graduation and the paper must be approved by a faculty member at least 30 days before the end of the term. The paper is presented orally in a department colloquium with the approved manuscript submitted to the department head at least one week before presentation. Contact the department head for more information.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current UMD students who change colleges to CLA are exempt from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.

8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).
2. Majors with sub-plans must be declared through the CLA Advising & Academic Services office.
3. PHIL 3900 - Colloquium for Majors. Students attend 12 department approved philosophy lectures/discussions over a 4-year period and register for PHIL 3900 only during the semester they attend their 12th lecture; contact the department for details.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

General

The General sub-plan emphasizes the history of philosophical thought and metaphysics and theory of knowledge.

Core (12 cr)

- PHIL 1001 - Introduction to Philosophy [LE CAT7, HUMANITIES] (3.0 cr)
- PHIL 1018 - Logic [LE CAT2, LOGIC & QR] (4.0 cr)
- PHIL 3900 - Colloquium for Majors (1.0 cr)
- PHIL 4900 - Seminar in Philosophy (4.0 cr)

History of Philosophy Electives (8 cr)

Students are required to take 3301 OR 3303, and at least one additional course from the list below. It is recommended that students take both 3301 and 3303, and either 3319 or 3320.

Take one of the following courses:

- PHIL 3301 - Greek Philosophy (4.0 cr)
- or PHIL 3303 - The Birth of Modern Philosophy (4.0 cr)

Take one additional Hist of Phil course:

- PHIL 3301 - Greek Philosophy (4.0 cr)
- or PHIL 3303 - The Birth of Modern Philosophy (4.0 cr)
- or PHIL 3319 - 19th Century Philosophy (4.0 cr)
- or PHIL 3320 - 20th Century Philosophy (4.0 cr)

Electives (8 cr)

Alternative courses taken within the History of Philosophy Electives may apply here. (Three different philosophy elective courses may satisfy this requirement, but at least two of the courses must be at the PHIL 2xxx level or above.)

Take 3 or more course(s) from the following:

- PHIL 1xxx
- PHIL 2xxx
- PHIL 3xxx
- PHIL 4xxx
- PHIL 5997 - Intern Teaching Assistantship (2.0 cr)
- FORS 2025 - HIST 2025 History in Greece (3.0 cr)

Advanced Writing Requirement (3 cr)

Take one course: WRIT 31xx or PHIL 3xxx-4xxx

The advanced writing requirement may be satisfied with one additional PHIL 3xxx-4xxx course.

Applied Ethics

This emphasis familiarizes students with major ethical theories and their applications in a number of fields and work situations. Beginning courses provide a framework for ethical thinking and decision making from a variety of theoretical orientations, along with introductory applications to social problems. Advanced courses apply this thinking to complex issues generated within specific fields such as medicine, technology, and the environment.

Principles that emerge from the study of applied ethics can complement a variety of majors and minors, as well as enhance students' moral education and theoretical literacy for handling ethical problems that may emerge in a variety of careers and leadership roles in law, politics, and service organizations.

Students choose upper division electives from other disciplines to shape the major to their specific interests and postbaccalaureate plans.

Lower Division Core (10 cr)

- PHIL 1001 - Introduction to Philosophy [LE CAT7, HUMANITIES] (3.0 cr)
- PHIL 1003 - Ethics and Society [LE CAT8, LEIP CAT08, HUMANITIES, CDIVERSITY] (3.0 cr)
- PHIL 1008 - Critical Thinking [LE CAT2, LOGIC & QR] (4.0 cr)
or PHIL 1018 - Logic [LE CAT2, LOGIC & QR] (4.0 cr)

Upper Division Core (13 cr)

- PHIL 3281 - Ethical Theory (4.0 cr)
- PHIL 3900 - Colloquium for Majors (1.0 cr)
- PHIL 4900 - Seminar in Philosophy (4.0 cr)
- PHIL 3291 - Current Social Political Philosophy (4.0 cr)
or POL 3600 - Political Concepts (4.0 cr)

History of Philosophy Elective (4 cr)

- PHIL 3301 - Greek Philosophy (4.0 cr)
- or PHIL 3303 - The Birth of Modern Philosophy (4.0 cr)

Upper Division Application Areas (7 cr)

Take 2 or more course(s) from the following:

- PHIL 3025 - Philosophy of Race and Racism (4.0 cr)
- PHIL 3222 - Medical Ethics (4.0 cr)
- PHIL 3231 - Law and Punishment (4.0 cr)
- PHIL 3242 - Values and Technology [LE CAT8, HUMANITIES] (3.0 cr)
- PHIL 3325 - Environmental Ethics [HUMANITIES, SUSTAIN] (4.0 cr)
- FORS 2025 - HIST 2025 History in Greece (3.0 cr)

Advanced Writing Requirement (3 cr)

Take one course: WRIT 31xx or PHIL 3xxx-4xxx

The advanced writing requirement may be satisfied with one additional PHIL 3xxx-4xxx course.

Political Science B.A.

Political Science

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 43
- Degree: Bachelor of Arts

This program prepares students for careers in government and business, the study of law, and graduate study in political science, domestic and international public policy, and related fields. It offers general liberal education coursework, specialized coursework for students majoring in other disciplines, and a related field for graduate students.

Students have considerable flexibility in designing their major to ensure it meets personal and professional interests. Up to two courses can be taken from the list of approved courses outside the department. Students should consult their department adviser to define the focus and coverage of their program and select courses in other disciplines, including second majors and minors. Students are encouraged to acquire collateral skills in areas such as statistics, computer applications, and foreign languages. At least 8 political science credits must be taken at UMD. Students interested in graduate study should begin planning in their junior year. Many programs expect proficiency in statistical analysis and/or a foreign language.

Honors Requirements: Departmental honors in political science will be automatically granted to any student who is a political science major graduating with a grade point average of 3.80 or higher in political science courses taken at UMD or accepted for transfer to UMD. The average will be calculated using only political science courses.

Program Delivery

The political science minor can be designed specifically to supplement major programs in related disciplines or more broadly develop the political awareness, background, and critical faculties requisite to responsible citizenship.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Requirements (20 credits)

Across the lower division and elective areas a total of 20 credits is required. Within the total credits, no more than one course may be from the 'Electives From Outside the Department' area. A minimum of 8 credits must be taken at UMD.

Lower Division (0-6 cr)

If students elect to take a methodology course, POL 2700 is preferred.

Take at most 6 credit(s) from the following:

- POL 1xxx
- POL 2xxx

Electives (14 cr)

Students are required to take a minimum of 14 credits of POL 3xxx-5xxx. One course from the 'Electives From Outside the Department' area will apply.

Take 14 or more credit(s) from the following:

- POL 3xxx
- POL 4xxx
- POL 5xxx

Electives From Outside the Department (one course)

Take no more than 1 course(s) from the following:

Russian Area Studies Minor

Foreign Languages & Literatures

College of Liberal Arts

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 15 to 31
- This program requires summer terms.
- All courses in this program are offered through UMD. The program includes an optional UMD study abroad component offered in St. Petersburg, Russia. Courses may be taken at the College of St. Scholastica through inter-institutional cross-registration.

The Russian Area Studies Minor program prepares students for life-long engagement with the cultures of Russian-speaking countries by providing in-depth cultural training. This program complements Liberal Arts, Fine Arts, Business, Science, and Human Services degrees by offering students the linguistic skills and cultural awareness required for a wide variety of careers that deal with Russian society. Career paths that would benefit from this minor include law, public service, journalism, business, health and human services, diplomacy and academic careers in history, linguistics, cultural studies and comparative literature. This program also provides students with intercultural awareness and an in-depth understanding of the role played by Russian-speaking countries in international relations.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

1. To fulfill this minor students must complete coursework in beginning and intermediate level Russian language, as well as 15 elective credits from the list below. (Students with previous language study may be exempt from some core requirements and should consult the department about placement.)

2. Two elective courses must be taken at UMD.

Beginning Russian (0-8 cr)

The core program develops students' language skills (listening, speaking, reading, writing).

Sociology B.A.

Sociology/Anthropology

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 45
- Degree: Bachelor of Arts

Sociology focuses on the relationships between social structure and the dynamics of establishing, maintaining, and changing patterns of human social behavior. The program is built around a theoretical-methodological core with courses integrated to develop students' conceptual and research competence. These courses focus on social psychology, social organization, social change, and criminology. The major provides a background for careers in human services and business and preparation for related graduate and professional school study.

Honors Requirements: The department honors program recognizes majors who demonstrate outstanding academic performance, provides special educational opportunities for such students, and encourages the development of specialty areas within the major. Honors students participate in independent research, working closely with a faculty member. Qualified majors apply to the honors program before the end of the second week of the first semester of their senior year. See department or department website for further information.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 51
- Degree: Bachelor of Arts

The urban and regional studies program is an interdisciplinary major, which prepares students for careers in planning, public administration policy analysis, community activism, and other fields related to urban development and urban change. The program incorporates resources from many departments and stresses the inherent interdependence in urban life, such as the connection between urban and rural development, cultural change and economic change, and uneven development. Students gain insight into the complexities of life in urban areas and are encouraged to understand the global context of current urban problems. The program also prepares students for graduate study in planning, public administration, law, and the social sciences.

Honors Requirements: Candidates must have a 3.00 overall GPA and a 3.30 in the major. An honors project and paper must be completed in GEOG 4999. Students who wish to have such work considered for honors must complete a departmental form prior to the second semester of their senior year. Completed project and papers must be approved by the sponsoring faculty member and other members of the faculty in the department.

Women, Gender and Sexuality Studies B.A.

Women, Gender & Sexuality Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 42
- Degree: Bachelor of Arts

Women, Gender and Sexuality Studies (formerly Women's Studies) is an interdisciplinary field that includes the study of: 1) the experiences, conditions and social realities of women of different races, ethnicities, nationalities, religions, classes, abilities, and sexual orientations in a global context; 2) the ways in which gender distinctions and the construction and intersection of gender, sexuality, race, and class have affected human lives, and 3) feminist scholarship.

Academically, the department seeks to provide students with a solid background in knowledge about gender, sexuality, race, class, and international issues; feminist analysis; critical thinking; and oral and written communication; and actively engage students in the generation of new knowledge and areas of inquiry. The department aims to prepare students for meaningful participation and contribution in an inclusive and diverse society, to be local, national, and global citizens, and to participate effectively and contribute meaningfully in a diverse workplace. Finally, the department intends to provide a nurturing environment for the whole person - to help each student find her or his own strengths, gifts, and path, as well as to raise awareness about the way that path concerns and connects with others in local and global contexts.

Women, Gender and Sexuality Studies majors find meaningful work in a variety of fields, including work with non-profits, international agencies, peace and justice organizations, LGBTQ rights organizations, medicine and midwifery, public health, social work, education, law, business, and the arts.

Writing Studies B.A.

Writing Studies

College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 41
- Degree: Bachelor of Arts

The major in writing studies, which offers emphases in journalism or professional writing, explores writing as a field of inquiry: its production, its circulation, its uses, and its role in the development of individuals, professional communities, and societies. The major begins with the history of writing practices, genres, systems of production and distribution, and related institutions. A major in writing studies draws from the resources of linguistics to understand the relationships between writing, cognition, and communication. It uses the tools of qualitative, quantitative, and humanistic research to advance those explorations. It culminates in a practical examination of writing in traditional and emerging technologies. In core and elective courses, students develop skills in the analysis of rhetorical situations, the selection of media, and the production of texts appropriate for a variety of discourse communities. They also think reflectively and critically about their role as writers for professional and civic life. Students select a journalism or professional writing sub-plan to complete their study.

Program Delivery

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Students majoring in Writing Studies in either emphasis (Professional Writing or Journalism) must complete a minor or second major in a field other than Journalism, Professional Writing, or Information Design.
2. The journalism or professional writing emphasis must be declared through the CLA Advising and Academic Services office.

WRIT 4506 - Capstone Course: Senior Portfolio Preparation (1.0 cr)

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Journalism

The journalism curriculum engages the study and practice of mass communication in a converged, multimedia environment. It prepares students for careers as reporters, editors, producers, and photographers in print, broadcast, and multimedia news. The program is built on a liberal arts foundation, including the history, traditions, routines, and practices of journalism. Students learn the skills they need to succeed in the profession, study its legal and ethical dimensions, and examine the sociology of news and the context in which journalism is practiced.

Students are encouraged to participate in UMD-sponsored internships at news, publishing, and broadcast organizations, both locally and across the country. Additionally, students have the opportunity to do extracurricular work at the student newspaper and the public radio and television stations on campus.

Required Courses (15 cr)

Journalism Electives (9 cr)

To fulfill this requirement students must take at least three 3 credit courses with the WRIT or JOUR subject/designator (except WRIT 1120). Students must take at least one WRIT and one JOUR course. JOUR 4197-Internship may be repeated for a total of 6 credits. Selected COMM, ENGL, FMIS, LING, TH or relevant course work, as appropriate to the plan of study for the student, may be substituted with departmental approval.

Journalism (3 cr)

Take at least one course from the following.

JOUR 2xxx - 4xxx

Writing (3 cr)

Take at least one course from the following. (This excludes WRIT 1120.)

WRIT 1xxx - 4xxx

Professional Writing

The professional writing curriculum synthesizes 1) knowledge and experience with writing technologies from a liberal arts, as well as a technical, perspective; 2) practice in applying principles of rhetoric, design, cultural theory, and creative thinking to the production of professional writing projects; and 3) experience in developing successful relationships with writing/design communities and other audiences. Students develop writing skills relevant to professional situations (document design and delivery, the development of varied writing techniques, and persuasive argument) with an understanding of writing's ethical and social implications.

Students are encouraged to participate in UMD-sponsored internships in professional writing, corporate communication, editing, and publishing.

Communication Sciences and Disorders B.A.Sc.

Communication Sciences & Disorders

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 69 to 72
- Degree: Bachelor of Applied Science

The B.A.Sc. in communication sciences and disorders prepares students for admission to professional graduate degree or licensure programs in speech-language pathology, audiology, or education of the hearing impaired. This pre-professional undergraduate program also prepares students to work as clinical aides to communication disorders specialists working in a variety of human service and health care settings.

The program includes the study of phonetics, the anatomy and physiology of the speech and hearing mechanisms, the normal development of speech and language, and the nature and treatment of disorders of speech, language, and hearing disorders.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 12 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 3.00 already admitted to the degree-granting college
- 3.00 transferring from another University of Minnesota college
- 3.00 transferring from outside the University

Upon completion of at least 12 credits at UMD and an overall GPA of 3.0, including transfer courses, a student is admitted to the program; freshman and transfer students are usually admitted to pre-major status before admission to this major. Pre-CSD majors or students with other declared majors who have an overall University of Minnesota cumulative GPA of 3.00, including transfer courses and have completed a minimum of 12 credits, may declare a CSD major. When a student is ready to declare a CSD major, his/her CSD academic adviser notifies the CEHSP Academic Services Office to institute the change in status from pre-major to major; students must be admitted majors in order to enroll in any upper division core courses. Mandatory advising is in effect for all students with fewer than 60 credits and for students whose cumulative GPAs fall below 3.00 (including transfer work). Deaf Studies Minor

Education

College of Education and Human Service Professions

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 22

Deaf studies minor offers American Sign Language (ASL) competency and cultural knowledge for individuals who need or wish to communicate with employees, co-workers, family members, and friends. ASL is present in every realm of modern life, as deaf, hard of hearing, and deaf-blind people seek education and equitable employment. The minor also meets the needs of students interested in pursuing further study in sign language interpreting or deaf education.

While the deaf studies minor complements degrees in virtually any field of study, it is particularly advantageous to pair with majors in education, human services, liberal arts, theatre, and business.

Educational Computing and Technology Certificate

Education

College of Education and Human Service Professions

- Program Type: Undergraduate credit certificate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 15 to 16
- Degree: Certificate in Educational Computing/Technology

This certificate is designed for students interested in expanding their knowledge and skills in educational computing and technology. The certificate provides basic-through-advanced training in computer and related technologies. This hands-on program builds upon basic computer literacy skills such as micro computing, word processing, spreadsheets, databases, graphics, desktop publishing, and the use of peripherals such as CD-ROM, scanners, digital cameras, digital video cameras, and Web cams. It expands knowledge and skills in additional technologies including Power Point, Hyper Studio, the Internet/World Wide Web, electronic mail, Web quests, video conferencing, digital video editing, and a variety of teacher administrative software focusing on the further development of technology skills and their infusion into the P-12 classrooms.

The program is designed for professionals, paraprofessionals, and others who wish to concentrate in educational computing and technology. Student projects are tailored to your personal interests and emphasize practical application for use in school classroom settings.

This certificate is at one of three levels: undergraduate, graduate, or noncredit; students must decide what level of the certificate they want to pursue BEFORE enrolling in the first course.

This certificate is not eligible for financial aid.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 60 credits before admission to the program.

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Completed 60 semester credits, have an overall GPA of 2.5, and have satisfactorily completed at least two-thirds of the most recent 30 semester credits attempted.

If you have completed a bachelor's degree, you may choose to earn the certificate at the undergraduate level. Once admitted to the undergraduate certificate, you will not be allowed to change your undergraduate certificate credits to graduate certificate credits at a later time.

- Required credits to graduate with this degree: 124
- Required credits within the major: 98 to 99
- This program requires summer terms.
- Degree: Bachelor of Applied Science

The Bachelor of Applied Science (B.A.Sc.) in Environmental and Outdoor Education prepares students for professional careers in outdoor education allowing them to work in non-formal outdoor education settings such as nature centers, city, state, or national parks, college outdoor programs, or for commercial agencies. Core components include program planning and delivery, education methods, physical skills development, management, facilities coordination, evaluation, and principles of recreation. The recreation major is a four-year curriculum including one full semester of field placement in an outdoor educational setting.

This major provides professional training for nontraditional education settings that may not require a teaching license as a prerequisite credential. Refer to the environmental education emphasis under the teaching life science and/or teaching earth and space science majors for training that includes a teaching licensure.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Completion of all courses specified for the major with a minimum cumulative 2.00 GPA (including transfer work). No grades lower than C- in courses required for the major.
2. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
3. Skill Competency: Students who enroll in Physical Education Teaching Education (PETE) teaching skill courses must demonstrate advanced skills competencies for the course. Descriptions of skills required should be reviewed with the course instructor before enrollment.

Upper Division Core (50 cr)

Exit Standards: students must complete a full semester (12 credits) of field placement at a pre-approved site. A minimum of 600 contact hours must be completed. Students may complete their internship at a site located locally, nationally, or internationally. An overall GPA of 2.50 is required for enrollment

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 93 to 94
- Degree: Bachelor of Applied Science

The B.A.S offers preparation for graduate school and a sound basis for professional training in the exercise and health sciences. The faculty in exercise science encourages students to develop as active scholars and to participate in undergraduate research. The B.A.Sc. degree is detailed and specific with a required concentration in either Health Fitness or Exercise and Sport Science. Abilities in math, science, and critical thinking are required for matriculation and graduation.

Most upper level ESAT courses have a graded laboratory component. Students work under supervision in the Exercise Physiology Laboratory, Biomechanics Laboratory, and Motor Learning and Vision Laboratory. Students combine theoretical knowledge with practical experience in electrocardiography, exercise testing, exercise supervision, applied nutrition, and strength and conditioning procedures in a managed learning environment. They monitor and mentor students involved in exercise programs. Labs and other physical facilities allow learning via student research and activity. Substantial opportunities exist for interested students to conduct independent research under the guidance of faculty mentors. Such projects have potential to be presented at the local, state, and national professional meetings. This provides students with unparalleled opportunity for professional development and personal growth.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Exercise and Sport Science

The bachelor of applied science (B.A.S.) in exercise science with a concentration in exercise and sport science prepares students for admission to graduate programs in exercise science (biomechanics, exercise physiology, sports psychology), the health professions (including medicine, physician assistant, occupational and physical therapy), and clinically applied professions such as clinical exercise physiologist and cardiac rehabilitation. This area of study is primarily for students who intend to pursue advanced degrees in an exercise science specialization or to seek admission to a professional program in the health sciences.

The required curriculum includes a liberal education background, a core of basic and applied sciences, and courses in the exercise science sub-disciplines, and either a senior project or an internship in a sport, exercise, educational, or public service/workplace setting. This area of study is primarily for students who intend to pursue advanced degrees in an exercise science specialization or to seek admission to a professional program in the health sciences.

Exercise and Sport Science Core Courses (4 cr)

- ESAT 4710 - Applied and Experimental Exercise Science (4.0 cr)

Health and Fitness

The bachelor of applied science (B.A.S.) in exercise science, with a concentration in health fitness, prepares students for professional involvement with clients in clinical, commercial, corporate, and service agency fitness and health programs. The curriculum prepares students to demonstrate the knowledge, skills, and abilities outlined by the American College of Sports Medicine (ACSM) for professionals in clinical and health-related programs. Completion of the degree program does not ensure ACSM certification.

Health and Fitness Core Courses (18 cr)

Students take ESAT 4996 for 6 credits.

[ESAT 4996](#) - Internship (3.0 - 12.0 cr)

Electives (12 credits) any UMD 3xxx or higher course

Special Interest

The bachelor of applied science (B.A.S.) in exercise science Special Area of Interest concentration prepares students for admission to unique graduate programs in exercise or related sciences that fall outside those prepared for with Health and Fitness and Exercise Sport Science concentration curricula. Working in consultation with an Exercise Science faculty sponsor, the student submits a course plan and request to enroll in this concentration. The plan must include 19 or more credits of 3xxx or 4xxx courses and explain how each fits in the unique curricular goal. After departmental approval, the planned courses will comprise the student's concentration.

Special Area Courses (19 credits)

19 credits 3xxx or above, department approval required.

Education

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 136
- Required credits within the major: 127
- This program is 9 terms (4½ years) long.
- This program requires summer terms.
- Degree: Bachelor of Applied Science

Successful completion of the B.A.Sc from the Integrated Elementary and Special Education (IESE) program qualifies students to apply for state licensure to teach K-6 elementary education and K-12 special education in the areas of learning disabilities, emotional behavior disorders, autism spectrum, developmental cognitive delay, and other health impairments within the mild to moderate range. This multi-categorical special education license is called Academic and Behavioral Strategist (ABS). The major also provides a good foundation for programs leading to licensure as an elementary principal or school counselor, employment in public and private schools, as well as correctional settings, human service agencies, hospital-based settings, and private practice.

An effective teacher should possess a broad background in liberal and professional education. This professional program focuses on the structure of the various disciplines: the child as learner, the learning environment, diverse learners, teaching strategies in practicum settings, and student teaching experience in both elementary and special education settings. All students complete a common core of courses in elementary and special education with emphasis in theory and teaching strategies in literacy and language arts, math, social studies, science, classroom and behavior management, assessment, and academic intervention.

Elementary and special education licensure requirements are established by the state of Minnesota and guided by national standards. Those requirements are changed periodically. For this reason, all IESE majors should maintain contact with their adviser as they advance through the program.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 48 credits before admission to the program.

A GPA above 2.0 is preferred for the following:

- 2.70 already admitted to the degree-granting college
- 2.70 transferring from another University of Minnesota college
- 2.70 transferring from outside the University

Application for admission to the program may be filed during the second semester of the sophomore year or first semester of the junior year, depending on the completion of admission requirements. Requirements include:

1. Declaration of major has been filed and accepted.
2. Successful completion of 60 hours documented work with children in a professional setting.
3. A GPA of at least 2.70 or cumulative (including transfer work) and in major courses completed at the time of application.
4. Letter of application.
5. Three recommendations from professionals who have observed the applicant working with children. See Department of Education for form to be completed.
6. Evidence the applicant has taken the three sections of the Minnesota Board Teaching required MTLE Basic Skills Test.
7. Receive a C- or better in all required courses for the major.

Physical Education B.A.Sc.

Health, Physical Education & Recreation

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 123 to 134
- Required credits within the major: 105 to 117
- Degree: Bachelor of Applied Science

The bachelor of applied science (B.A.Sc.) in physical education is for students preparing for teacher licensure in physical education (K-12). The major meets Minnesota Board of Teaching licensure requirements and standards of the National Council for the Accreditation of Teacher Education (NCATE) for teaching physical education in grades K-12 in Minnesota. The program is taught using the Learner-Sensitive Educator Model, supporting preferences of reflection, social justice, collaboration, empowerment, and technology.

Students are required to obtain personal liability insurance to protect them while they are working in public school situations. Proof of insurance also is required when enrolled in Physical Education Teacher Education (PETE) 4100, 4125, 4200, 4225, 4250, and student teaching. This usually is obtained most economically by student membership in the Minnesota Education Association. Applications are available in the department office.

The physical education program develops subject matter expertise of prospective teachers through a sequential set of courses. PETE courses are open only to majors, allowing faculty to focus on the specific needs and learning objectives of the physical education major.

The physical education program also instills an appropriate set of professional dispositions (attitudes and behaviors) that are predictors of success in educational settings. Students who fail to exhibit appropriate dispositions may be removed from the program.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 44 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students entering the secondary and K-12 licensure programs are bound by policies in effect at the time of application. Admission is based on criteria established by the Department of Education that is consistent with MN policies and standards established by the National Council for Accreditation in Teacher Education. A student must have:

1. Completed EDUC 1101
2. A GPA of at least 2.50 cumulative (including transfer work) and in major courses completed at the time of application
3. Taken the required MTLE Basic Skills Test for licensure

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
2. For degree candidates at least 20 of the last 30 degree credits immediately before graduation must be taken at UMD.

Block Requirements:

Students must have completed (or be currently enrolled) in all lower division 1xxx PETE courses before applying to the Secondary Teacher Education Program (STEP). Application to the STEP program (due the 6th Friday of the semester) typically occurs in the fall semester of the junior year. Students need to have completed or be currently enrolled in PETE 3100, 3400, and 3500. Applications are available from the Department of Education website.

Psychology B.A.Sc.

Psychology

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 52
- The online major is designed to extend UMD's outreach by targeting students who would have a difficult time re-locating in order to earn a bachelor's degree. Likewise, there is a potential collaboration with the UM Crookston campus to provide an opportunity for students currently enrolled at that campus to earn a psychology degree.
- Degree: Bachelor of Applied Science

The bachelor of applied science (B.A.Sc.) in psychology provides students with a firm grounding in the methods, history, and content areas of the discipline. Students are prepared for graduate study leading to advanced degrees in psychology or for paraprofessional positions requiring some application of research or human service delivery skills. The core curriculum covers the research methods used in the scientific study of behavior, and surveys theories, findings, and historical applications in a variety of psychology subfields. Students apply their methodology training to a topic of their choice in a faculty-supervised independent research project during the design and methodology courses of the core curriculum. In addition, the core curriculum requires some exposure to the main areas of the discipline. Students also have the opportunity to focus their study toward either graduate training or paraprofessional employment through their selection of elective courses (recommended as "tracks"), independent studies, or internships. Students should consult with faculty advisers to select appropriate elective courses to meet their career goals.

Students may qualify for department, college or University awards and scholarships. Please visit www.d.umn.edu/cehsp/scholarships/index.html. Students are encouraged to present their research findings at the Twin Ports Undergraduate Psychology Conference or the National Council for Undergraduate Research.

Distance Education - Many psychology courses are available online. An online major is available to students who have completed an associate degree or Minnesota Transfer Curriculum (MTC) or have verification of registration from transfer institution where completing remaining credits for AA degree or MTC. The requirements for the online major are identical to those of the existing major but are structured to facilitate the delivery in the online medium. The online psychology major admits students every fall semester. Please call the Department of Psychology or visit the website at www.d.umn.edu/psy/ for more information.

Honors Requirements: Senior students who have a minimum GPA of 3.80 in all psychology courses graduate with department honors in psychology. Senior students who have a GPA between 3.25 and 3.79 in all psychology courses and also have an overall GPA minimum of 3.00 may earn department psychology honors by doing one of the following: 1) complete an honors research project (PSY 3986) or an application project (PSY 3997) under the supervision of a psychology faculty member; 2) take an honors seminar (PSY 3985); or 3) apply for and conduct a UROP (Undergraduate Research Opportunity Project). Students eligible for honors are urged to consult with their advisers or a psychology department faculty member on how they wish to pursue departmental honors before the end of their junior year.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)

Admission Requirements

Students must complete 24 credits before admission to the program.

Freshmen students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students are admitted to UMD as pre-psychology majors. Pre-psychology majors, or students with other declared majors, who have an overall GPA of 2.50, a minimum of 24 completed credits, and have taken PSY 1003 - General Psychology or equivalent may declare psychology as a major by contacting the CEHSP Advising and Academic Services Office. Progress toward completion of degree requirements is continuously tracked by the UMD Registrar's APAS system.

To apply for admission to the online major, graduates from partner community colleges must have a 2.50 GPA. It is best if students have already completed a course in general psychology. Admissions are for fall only.

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 98 to 115
- Degree: Bachelor of Applied Science

The bachelor of applied science (B.A.Sc.) in public health education and promotion prepares graduates to practice in sites such as schools, voluntary health agencies, public health departments, hospitals, corporate work sites, and businesses. Upper division students select an area of concentration in either community health education or school health education. All health educators, regardless of work site, must possess a number of general competencies. The curriculum prepares students to assess, plan, implement, deliver, administer, and evaluate health education programs that promote health and prevent disease.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 30 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students are admitted to the program as pre-majors and must select a concentration. Community concentration students are admitted to upper division after completion of 30 credits, including HLTH 1100. School health concentration students must apply to the Secondary Teacher Education Program (STEP) after completing 45 credits. Health education advisers assist students in course selection and application completion.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.

6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Selection of either Community Health or School Health concentration/subplan.
2. Completion of all courses specific for the major, including the emphasis, with a minimum 2.00 GPA (including transfer work). Students with school health education concentration must make no grade lower than C- in all courses required in the major.
3. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
4. Students majoring in public health education and promotion are expected to maintain a 2.00 GPA overall and in the major. They must demonstrate acceptable professional performance in their courses and field experience.
5. Students are expected to: a) make satisfactory academic progress each semester; b) demonstrate acceptable professional performance in applied learning settings (e.g. laboratory, field experience, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experience.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Community Health

This concentration addresses the 7 responsibilities for health education specialist (NCHEC 2010): assess needs, assets/capacity for health education; plan health education; implement health education; conduct evaluation and research related to health education; administer and manage health education; serve as a health education resource person; communicate and advocate for health and health education; students completing this concentration are prepared to take the national Certified Health Education Specialist exam. Exit Standards: Community Health concentration students must maintain 2.0 or better GPA and pass all required courses for the major. The internship experience introduces undergraduate students to the people and situations they may encounter as a beginning health education professional; students apply classroom theories and techniques and are given responsibilities that help them assess their individual strengths and weaknesses in order to ascertain the most appropriate and desirable entry-level position(s) and permits the prospective health education specialist the opportunity to associate with experienced professionals. The resulting dialogue should enable the future health education specialists to study firsthand the needs and trends of the field. The internship generally is completed during the senior year after completion of most if not all, required classwork. The internship may be taken full or part-time over 1 or more semesters for 9 credits or more.

Students who declare this concentration will be considered pre-majors until they have completed 30 credits, including HLTH 1100 with a 2.5 or better cumulative GPA (including transfer work). When students have met this requirement, they must request admission to upper division/degree candidacy.

School Health Education

This concentration/subplan prepares graduates for teaching at the middle and secondary level (grades 5-12). Because this concentration is offered in conjunction with the Department of Education, students must meet requirements from that department. Students entering the secondary and K-12 licensure programs are bound by the policies in effect at the time of application to the licensure program. Admission is based on criteria established by the Department of Education that are consistent with Minnesota policies, as well as standards established by the National Council for Accreditation in Teacher Education. A student must have 1) completed EDUC 1101; 2) GPA of at least 2.50 cumulative (including transfer work) and in major courses completed at the time of application; 3) taken the required Minnesota basic skills exam for licensure; 4) passing scores on a nationally recognized standard test such as MTLE, ACT, or SAT; 5) a minimum of 30 documented hours working with students in grades K-12.

1. Personal Liability Insurance: All student teachers are required to have professional liability insurance. Application forms are available in the Office of Field Experiences, Department of Education, 150 EduE.

2. Exit Standards: Candidate proficiency is assessed throughout the teacher preparation courses by UMD faculty, university supervisors, and the cooperating teachers in all field experiences. The field experience assessment forms include knowledge, skills, and dispositions that are aligned to institutional, state, and national standards for all field experiences.

3. Candidates must complete a semester of full-time student teaching in a public school setting at the middle or secondary level. Double majors (such as physical education and health education) are required to student teach in both content areas. The final standards-based portfolio is due at the end of student teaching. Candidates must pass all required licensure tests before they can be recommended for teacher licensure in Minnesota.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two

degrees cannot be awarded for the same major.

2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
2. Students are expected to: a) make satisfactory progress each semester, including grades of C- or better in all courses required in the major; b) demonstrate acceptable professional performance in applied learning settings (e.g., laboratory, field experiences, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experiences. Students who do not meet program expectations can be dismissed from the major. Details on these requirements are available from the department office.

Upper Division Requirements (41 cr)

Students must make satisfactory academic progress and demonstrate acceptable professional performance in field experiences. Students must have personal liability insurance while they are working in field placement settings.

Lower Division Requirements (3-23 cr)

Students may be exempted from part of the lower division requirements if they have previously completed German language coursework. Dept of Foreign Languages and Literatures determines exemptions based on acceptance of transfer credits and work done in secondary school. Students with 3 years of high school German enter sequence at the intermediate German level and are exempted from GER 1101-1102. Exemption does not necessarily carry credits toward the 120 credits needed for graduation.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. It is recommended students take LING 1811 for Lib Ed Logic and Quantitative Reasoning, ENGL 1907 for Humanities.
2. Students must successfully complete an oral proficiency exam administered by the Department of Foreign Languages and Literatures before student teaching.
3. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
4. Program completers must pass all tests required by the Minnesota Board of Teaching to be recommended for licensure.
5. Students are expected to: a) make satisfactory progress each semester, including grades of C- or better in all courses required in the major; b) demonstrate acceptable professional performance in applied learning settings (e.g., laboratory, field experiences, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experiences. Students who do not meet program expectations can be dismissed from the major. Details on these requirements are available from the department office.

Upper Division Requirements (29 cr)

Some of the upper division German courses may be transferred from another college or earned abroad, but at least two courses must be taken at UMD. By the second semester, sophomore year, students start upper division major courses and plan for application to the secondary teacher education program (STEP). Students must register for 4 credits in EDUC 3412. GER 4044 will satisfy LEP Global Perspective requirement.

Teaching Life Science B.A.Sc.

Biology, Education

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 141 to 167
- Required credits within the major: 120 to 156
- This program is 9 terms (4½ years) long.
- This program requires summer terms.
- Degree: Bachelor of Applied Science

The B.A.Sc. degree in Teaching Life Science is offered by the Department of Education in conjunction with the Department of Biology. This major prepares students to teach all science areas in grades 5-8 and to teach life science in grades 9 through 12.

Students have the option of also completing the environment education emphasis with this major.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 45 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students entering the secondary and K-12 licensure programs are bound by the policies in effect at the time of application to the licensure program; admission is based on criteria established by the Dept of Education, consistent with MN policies, as well as standards established by the National Council for Accreditation in Teacher Education. Students must 1) complete EDUC 1101; 2) GPA of at least 2.50 cumulative, including transfer work and in major courses completed at time of application; 3) take the MTLE Basic Skills Test for licensure; 4) passing scores on a nationally recognized standardized test such as MTLE Basic Skills Test, ACT, SAT; 5) minimum 30 documented hours working with students in grades 5-12; 6) receive a C- or better in all required courses for the major. There are alternatives to the admission procedures to encourage the participation of individuals from underrepresented groups and other students as determined by the dept.

7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
2. Students must make satisfactory academic progress and demonstrate acceptable professional performance in field experiences.
3. Program completers must pass all tests required by the Minnesota Board of Teaching to be recommended for licensure.
4. Students are expected to: a) make satisfactory progress each semester, including grades of C- or better in all courses required in the major; b) demonstrate acceptable professional performance in applied learning settings (e.g., laboratory, field experiences, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experiences. Students who do not meet program expectations can be dismissed from the major. Details on these requirements are available from the department office.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Chemistry

The B.A.Sc. degree in teaching physical science - chemistry emphasis is offered by the Department of Education in conjunction with the Department of Chemistry and Biochemistry. This major (116 - 117 cr) prepares students to teach all science areas in grades 5 through 8 and to teach chemistry in grades 9 through 12.

Duluth Campus

Teaching Social Studies B.A.A.

Education

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 123
- Required credits within the major: 105 to 108
- Degree: Bachelor of Applied Arts

The B.A.A. in teaching social studies prepares students to teach grades 5 through 12. Social studies is an interdisciplinary major that requires lower division coursework in each of eight areas: anthropology, economics, geography, history, political science, psychology, sociology, and women's studies. Students then select one of these areas in which to complete an upper division emphasis. Students complete additional coursework in education.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 45 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students entering the secondary and K-12 licensure programs are bound by the policies in effect at the time of application; admission is based on criteria established by the Dept of Education, consistent with MN policies, as established by the National Council for Accreditation in Teacher Education. Students must 1)complete EDUC 1101; 2)GPA of at least 2.50 cumulative including transfer work & in major courses completed at time of application; 3)take the MTLE Basic Skills Test for licensure; 4)passing scores on a nationally recognized standardized test (MTLE Basic Skills Test, ACT, SAT); 5)minimum 30 documented hours working with students in grades 5-12; 6)receive a C- or better in all required courses for the major. Students must submit a letter of application, resume, letters of recommendation, and their APAS report. There are alternatives to the admission procedures to encourage the participation of individuals from underrepresented groups and students as determined by the dept.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Course (1 cr)

This course will be waived for transfer students or students who change colleges from a college where it is not required.

Register course for one credit.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.

5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
2. Degree candidates must complete at least 20 of the last 30 degree credits immediately before graduation at UMD.
3. Make satisfactory academic progress and demonstrate acceptable professional performance in field experiences.
4. Students are expected to: a) make satisfactory progress each semester, including grades of C- or better in all courses required in the major; b) demonstrate acceptable professional performance in applied learning settings (e.g., laboratory, field experiences, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experiences. Students who do not meet program expectations can be dismissed from the major. Details on these requirements are available from the department office.

Teaching Spanish B.A.A.

Education, Foreign Languages & Literatures

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 121
- Required credits within the major: 71 to 91
- Degree: Bachelor of Applied Arts

The B.A.A. in teaching Spanish is offered through the Department of Education, in conjunction with the Department of Foreign Languages and Literatures.

This major prepares students to teach Spanish from kindergarten through grade 12.

Students pursuing both the B.A. and B.A.A. degrees in Spanish must satisfactorily complete 12 non-overlapping upper division credits of Spanish electives beyond the requirements for both degrees.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 45 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Students entering the secondary and K-12 licensure programs are bound by the policies in effect at the time of application; admission is based on criteria established by the Dept of Education, consistent with MN policies as established by the National Council for Accreditation in Teacher Education. Students must 1)complete EDUC 1101; 2)GPA of at least 2.50 cumulative including transfer work & in major courses completed at time of application; 3)take the MTLE Basic Skills Test for licensure; 4)passing scores on a nationally recognized standardized test (MTLE Basic Skills Test, ACT, SAT); 5)minimum 30 documented hours working with students in grades 5-12; 6)receive a C- or better in all required courses for the major. Students must submit a letter of application, resume, letters of recommendation and their APAS report. There are alternatives to the admission procedures to encourage the participation of individuals from underrepresented groups and students as determined by the dept.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Course (1 cr)

This course will be waived for transfer students or students who change colleges from a college where it is not required.

Register course for one credit.

[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

Lower Division Requirements (3 - 23 cr)

Students may be exempted from part of the core requirements if they have previously completed Spanish language coursework. The Dept of Foreign Languages and Literatures determines exemptions based on acceptance of transfer credits and work done in secondary school. Students with 3 years of high school Spanish enter the sequence at the intermediate Spanish level and are exempted from SPAN 1101-1102. Exemption does not necessarily carry credits toward the 120 credits needed for graduation.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. It is recommended students take LING 1811 for lib ed Logic and Quantitative Reasoning, ENGL 1907 for Humanities.
2. Compliance with general regulations governing granting of degrees. Students are required to review their degree status in the CEHSP Advising & Academic Services Office early in their senior year.
3. Study abroad is essential for success in learning Spanish.
4. Program completers must pass all tests required by the MN Board of Teaching to be recommended for licensure.
5. Students are expected to: a) make satisfactory progress each semester, including grades of C- or better in all courses required in the major; b) demonstrate acceptable professional performance in applied learning settings (e.g., laboratory, field experiences, clinical experiences); and c) obtain an approved background check before being placed in clinical, field, intern, or student teaching experiences. Students who do not meet program expectations can be dismissed from the major. Details on these requirements are available from the department office.

Upper Division Requirements (29 cr)

Some of the upper division Spanish courses may be transferred from another college or earned abroad, but at least two courses must be taken at UMD. By the second semester of the sophomore year, students start upper division major courses and plan for application to the secondary teacher education program (STEP). EDUC 3412 register for 4 credits.

Unified Early Childhood Studies B.A.Sc.

Education

College of Education and Human Service Professions

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 134
- Required credits within the major: 112 to 113
- This program requires summer terms.
- Mesabi Range Community and Technical College, Virginia, MN. A collaboration between MRCTC and UMD resulted in the creation of several lower division courses at Mesabi designed to meet identified licensure standards and to transfer to UMD. Students interested in early childhood licensure were advised to take these courses as electives in the MRCTC's Associate of Arts curriculum. These students are now eligible to apply for admission to the UMD licensure program. The intent of the plan for off-site delivery was to provide a program in the communities in which the students lived, where they wanted to eventually work, and where the early childhood teachers are needed. The courses would be partially internet delivered to provide flexibility in the delivery of the program, and to ease access constraints for students who would commute from Iron Range communities other than Virginia. The combined face-to-face and online model limits enrollment to UMD's traditional service region.
- Degree: Bachelor of Applied Science

The unified early childhood studies program and licensures include interdisciplinary curricula that prepare students for work in a variety of settings with children of diverse ability levels, from birth through age eight.

Graduates find employment in public schools, community and private preschool programs, early primary grades in elementary schools, programs for children ages birth through six with identified disabilities or delays, home and center-based child care, Head Start programs, and hospital-based settings.

All students complete a common core of courses in child development, parent-child relations, early childhood curriculum and programming, early childhood special education, community resources, and educational leadership and program administration.

The unified early childhood studies major leads to Minnesota licensure in early childhood education (birth through grade three) and early childhood special education. International student teaching placements are available.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 54 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.70 already admitted to the degree-granting college
- 2.70 transferring from another University of Minnesota college
- 2.70 transferring from outside the University

Students admitted to UMD as pre-early childhood majors must apply for candidacy after completion of required lower division coursework. The number of students admitted to candidacy in the program each year is based on availability of suitable programs for practicum experience. Candidates are selected on GPA of at least 2.70 (cumulative & transfer, major courses at time of application, personal written statement, completed MTLE Basic Skills test, demonstrated commitment to working children, 3 recommendation letters from professional who have observed the applicant working with children, minimum 60 hour working with young children (60 hrs supervised past 2 yrs), C- or better in all required courses for major, completed or in progress of ECH 2010, EDUC 1000, 1100, 1101 & SPED 4433. Students should apply fall of their sophomore year; transfer students may be admitted with advanced standing.

- Required credits within the major: 59
- Degree: Bachelor of Arts

The B.A. in art program provides study in art with an emphasis on liberal education. Along with the courses required within the major, students must select a minor or second major appropriate for their academic goals.

Honor Requirements: Candidates, nominated by art and design department faculty, receive honors for distinguished achievement demonstrated in part by the senior student exhibition or a senior presentation or project.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are admitted to pre-major status before admission to this major. To qualify for this program, pre-art students must pass a portfolio review (ART 0902) after completing a minimum of 15 art studio credits selected from the required pre-art core requirements and studio electives. Additionally, students must have a minimum 2.00 GPA overall in art and design courses. The review is scheduled for fall and spring semesters and occurs approximately midway through the semester. Students must submit a portfolio of selected work derived from their art core courses. Portfolios are reviewed by studio art faculty. Specific guidelines for preparation of the portfolio contents and dates for review are distributed at the beginning of each semester.

- Required credits within the major: 114 to 115
- Degree: Bachelor of Fine Arts

The B.F.A. program in art education K-12 is for students who wish to receive licensure to teach art in Minnesota; it is offered in cooperation with the College of Education and Human Service Professions (CEHSP). The program prepares art teachers for kindergarten through the twelfth grade and provides a foundation in a variety of studio areas, art history, and art education methods. To qualify for this program, pre-art education students must pass a portfolio review (ART 0903). In addition to completing liberal education and art courses, each student must gain admission to the Secondary Teacher Education Program (STEP) licensure program during the junior year to complete the education courses required by the State Department of Education and Board of Teaching.

Students entering the secondary and K-12 licensure programs are bound by the policies in effect at the time of application to the licensure program. Admission is based on criteria established by the Department of Education that are consistent with Minnesota policies, as well as standards established by the National Council for Accreditation in Teacher Education.

A student must have: 1) completed EDUC 1101; 2) a GPA of at least 2.50 overall and in major courses completed at the time of application; 3) taken the Minnesota Teacher Licensure Exam (MTLE); and 4) passing scores on a nationally recognized standardized test such as the MTLE, ACT, or SAT.

Students must submit a letter of application, resume, letters of recommendations, and a copy of their Academic Progress Audit System (APAS) report.

There are alternatives to these established admission procedures to encourage the participation of individuals from underrepresented groups and other students as determined by the department.

Field experiences are an important part of the art education program and includes observations and participation in community, museum and elementary school programs; two apprenticeships in area public and/or private middle schools and high schools concluding with a full semester of supervised student teaching (8 weeks at the elementary and 8 weeks at the middle or high school level).

Students produce a body of work for the Senior Exhibition under the mentorship of faculty in their area.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

Students must have completed at least 9 credits of art core pre-art education requirement courses during the first semester at UMD. The portfolio reviews occur twice a year during the 5th week of the semester. A mandatory information meeting takes place two weeks prior to the review. After successful completion of the art education portfolio review, students become art education majors.

The teacher licensure requirements are determined by the MN Board of Teaching. These requirements are subject to change without notice and may lead to course modifications in UMD's teaching programs. Changes in program requirements may be applied to current students. Department advisers work closely with students to assist them in meeting the state's standards in a timely manner.

Evidence of having taken the state-mandated tests of basic skills.

Evidence of passing scores on a nationally recognized standardized test such as MTLE, ACT, or SAT.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Make satisfactory academic progress and demonstrate acceptable professional performance in field experiences.
2. Registration for student teaching requires: a) completion of at least 85 percent of teaching major courses; b) completion (graded) of all education methods courses; c) satisfactory academic progress, including grades of C- or better in all courses in the teaching major(s); d) acceptable professional performance in field experiences; and e) an approved background check.
3. Students must have personal liability insurance while they are working in field placement settings.
4. Program completers must pass all tests required by the Minnesota Board of Teaching to be recommended for licensure.
5. Attendance at two Visual Lectures per semester (fall and spring).
6. Passing scores on basic skills test, subject matter content tests, and pedagogy tests required by the Minnesota Board of Teaching before CEHSP can recommend a graduate to the state for a teaching license.

- Required credits in this minor: 26 to 28

Technique courses are offered in ballet, modern, jazz, and tap dance and are complemented with courses in dance appreciation, dance history, and dance composition. Annual dance concerts give students opportunities for choreography and performance. This minor provides technical training in and an in-depth appreciation of dance as a performance and social art form.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Dance minors should confer with a minor adviser from the Department of Theatre to develop a sound schedule for taking courses to complete the minor in less than four years. Students who require a greater proficiency before enrolling in DN 3211 or DN 3231, as determined by instructor, may be required to take DN 1111 or DN 1131. Students are advised to note prerequisites and to take courses in proper sequence. Dance minors may repeat desired dance technique courses for a maximum of 4 credits each, as space permits.

Graphic Design and Marketing B.F.A.

UMD Art and Design, Dept of

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 122
- Required credits within the major: 109
- Degree: Bachelor of Fine Arts

The BFA in Graphic Design/Marketing is a collaborative professional degree between the School of Fine Arts and the Labovitz School of Business and Economics that combines graphic design coursework with an array of marketing courses to provide a strong, integrated and broad-range professional skill-set.

Current industry practice involves collaboration between designers, marketing specialists, and various members of creative teams who develop promotional strategies based on solid market research, designing materials for an increasing array of venues, including social media. Designers with backgrounds in both marketing and business are simply better equipped for positions in the contemporary marketplace.

The degree enables graduates to work effectively in industry-standard creative teams, moving from empirically identifying and measuring consumer needs and desires to the design of effective promotional graphic systems and materials.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 10 credits before admission to the program.

Students are admitted as "Pre-GD/Marketing" then take Portfolio Review second semester after completing 9 credits of Art Foundation. Admission is dependent on passing (S/N grading) Art 901.

Graphic Design B.F.A.

UMD Art and Design, Dept of

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 91
- Degree: Bachelor of Fine Arts

The graphic design profession uses the creative process and technology to communicate ideas and messages. Delivery of the message can be multidimensional, print and screen based, interactive, involve sound and motion, and be real or virtual. Graphic design involves type and language, abstract and figurative imagery, concept, technology, and craft.

The discipline takes place within commercial, academic, and institutional contexts in the private and public realms and allows individuals to enter a rewarding profession that demands creativity and vision.

Acknowledging the interdisciplinary nature of the profession, the Department of Art and Design takes advantage of its position as a department in the School of Fine Arts to provide students with the opportunity to gain firsthand experience of all the arts in a manner that is possible in only a small percentage of universities nationwide. To qualify for this program, pre-graphic design students must pass a portfolio review (ART 0901) during the second semester of their freshman year.

Department Honors Requirements: Candidates, nominated by art and design department faculty, receive honors for distinguished achievement demonstrated in part by projects and portfolios completed in Senior Design Studio I and II (ART 4922 and 4933).

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

Students must pass portfolio review. The review occurs approximately the seventh week of spring semester each year by the graphic design faculty. Advanced placement students may be eligible for a portfolio review during the week before the start of fall semester. After completion of at least 9 credits of pre-graphic design requirement ART core courses, students must submit a portfolio of work selected from the courses, and a specified writing sample for the review.

After admission to the graphic design major (passing the portfolio review), the coursework required for the program is sequential and takes a minimum of three years or six semesters (see sample plan). Transfer students and students who change their major to graphic design need to be aware of this time requirement to complete the program.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

- Required credits within the major: 93
- Degree: Bachelor of Music

The B.Mus. in jazz studies is for students pursuing programs of intensive study to prepare for professional careers in jazz studies and/or for acceptance into a graduate degree program, to assist students to acquire high quality jazz performance artistry, and to provide students advanced historical, and theoretical knowledge of jazz music(s).

Department Honors Requirements: Candidates, nominated by music department faculty, receive honors for distinguished achievement in musical performance, composition, or exceptional ability and accomplishment as a music educator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.50 transferring from outside the University

Students must pass a performance audition to be accepted into any music degree program. At the time of the audition, students must also complete diagnostic examinations in theory/aural/keyboards skills and an interview with the department head or an appointed designee. Any student who receives provisional acceptance into a degree program must pass a review (usually at the end of the first semester) to receive full acceptance. That review includes recommendations of major instructors and successful completion of an applied jury. Transfer students must have a 2.50 GPA.

Music B.A.

Music

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 61
- Degree: Bachelor of Arts

The B.A. in music offers students a general course of music study in a liberal arts setting, providing students an overview of music theory, history, and performance practice. The program helps students acquire a broad and general understanding of music as a cultural/social phenomenon. Along with the courses required within the major, students must select a minor or second major appropriate to their academic goals.

Department Honors Requirements: Candidates, nominated by music department faculty, receive honors for distinguished achievement in musical performance, composition, or exceptional ability and accomplishment as a music educator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.50 transferring from outside the University

Students must pass a performance audition to be accepted into any music degree program. At the time of the audition, students must also complete diagnostic examinations in theory/aural/keyboards skills and an interview with the department head or an appointed designee. Any student who receives provisional acceptance into a degree program must pass a review (usually at the end of the first semester) to receive full acceptance. That review includes recommendations of major instructors and successful completion of an applied jury. Transfer students must have a 2.50 GPA.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Minor or second major in another field outside of music.
2. Courses with grades less than C- will not count toward the major.

Performance B.Mus.

Music

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120 to 124
- Required credits within the major: 86 to 98
- Degree: Bachelor of Music

The B.Mus. in performance is for students pursuing programs of intensive study to prepare for professional careers in music and/or acceptance into a graduate degree program. Students are assisted in acquiring high quality performance artistry and comprehensive and advanced historical and theoretical knowledge of musical styles, genres, and pedagogy.

Department Honors Requirements: Candidates, nominated by music department faculty, receive honors for distinguished achievement in musical performance, composition, or exceptional ability and accomplishment as a music educator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 transferring from outside the University

Students must pass a performance audition to be accepted into any music degree program. At the time of the audition, students must also complete diagnostic examinations in theory/aural/keyboards skills and an interview with the department head or an appointed designee. Any student who receives provisional acceptance into a degree program must pass a review (usually at the end of the first semester) to receive full acceptance. That review includes recommendations of major instructors and successful completion of an applied jury.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Elective credits, other than those required in the major, may be taken from any UMD unit.
2. Courses with grades less than C- will not count toward the major.

Studio Art B.F.A.

UMD Art and Design, Dept of
School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 74 to 83
- Degree: Bachelor of Fine Arts

Studio art majors are encouraged to develop a strong personal creative direction in one or more of the studio areas housed within the department. Exploration and experimentation across a range of mediums is possible in an environment that fosters a cross-disciplined approach to form and image making. Traditional studio practices share equal footing with new and emerging technologies in an effort to best prepare the studio major for the field. Theoretical, historical, and conceptual foundations are provided through offerings in art history and seminars.

Students must select an emphasis in general studio, digital art and photography, painting, drawing and printmaking, or sculpture and ceramics.

Department Honors Requirements: Candidates, nominated by art and design department faculty, receive honors for distinguished achievement demonstrated in part by the senior student exhibition or a senior presentation or project. Students produce a body of work for the Senior Exhibition under the mentorship of faculty in their emphasis area. Work proposed for the solo or group senior exhibition will be reviewed and approved by studio faculty in their area during a Senior Portfolio Review.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are admitted to pre-major status before admission to this major. To qualify for this program, pre-studio art students must pass a portfolio review (ART 0902) after completing a minimum of 15 art studio credits selected from the pre-studio core and sub-plan required studio required courses. Additionally, students must have a minimum 2.00 GPA overall and in art and design courses. The review is scheduled for both fall and spring semester and occurs approximately midway through the semester. Students must submit a portfolio of selected work derived from their art core courses. Portfolios are reviewed by the studio art faculty. Specific guidelines for preparation of the portfolio contents and dates for review will be distributed at the beginning of each semester.

Duluth Campus

Theatre B.A.

Theatre

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 54
- Degree: Bachelor of Arts

The B.A. in Theatre offers broad, liberal arts study in theatre arts complemented by courses from across the University curriculum. Required courses in the major give students a strong core of theatre knowledge and experience. Students are urged to broaden their study by selecting a minor or second major in literature, culture, language, the social sciences, or the arts as appropriate to their career goals and in consultation with their academic adviser.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

Minor or a second major in another field of study.

The Department of Theatre, housed in the Marshall Performing Arts Center, has three objectives: to teach, produce, and sponsor theatre. The department provides academic and professional training in the arts of the theatre: acting, singing, directing, playwriting, critical evaluation, dance, scenic design, lighting design, sound, costume design, properties, stage management, theatre history and theory, and theatre management, as well as a broad liberal arts study.

The co-curricular producing arm of the department, UMD Theatre, provides practical experience for University students while enhancing the cultural life of the University and the communities it serves. Auditions for all theatre productions are open to any student currently enrolled at UMD. Productions range from classical to contemporary, comedy to tragedy, musical theatre to experimental. Modern, jazz, tap, and classical dance are offered in academics, as well as in the production season.

The department sponsors performances and residencies by a variety of theatre artists. Recent visitors have included world-class performing artists, directors, choreographers, designers, and dance companies.

Department Honors Requirements: Honors are awarded to graduating theatre majors for exceptional achievement. Candidates, nominated by theatre department faculty, receive honors for distinguished contribution in acting, musical theatre, design and technology, stage management, general theatre involvement and leadership.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students majoring in Theatre for the B.F.A. are admitted as provisional candidates for the degree when they enter UMD. At the end of the first year in residence, students are required to interview/audition for admission to full candidacy. The presentation should reflect the student's area of emphasis: acting, musical theatre, design and production, scene design, costume design, lighting design, technical theatre, stage management, or composite. Majors are also expected to participate in some aspect of UMD Theatre production during each semester of their residence at UMD.

Theatre Minor

Theatre

School of Fine Arts

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 26

The theatre minor is for students who want to pursue an interest in theatre that will complement their major program.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Theatre minors should confer with a minor adviser from the Department of Theatre to develop a sound schedule for taking courses to complete the minor in less than four years. Students are advised to note prerequisites and to take courses in proper sequence.

Theory and Composition B.Mus.

Music

School of Fine Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 93
- Degree: Bachelor of Music

The B.Mus. in theory and composition is for students pursuing programs of intensive study to prepare for professional careers in music. The program assists students to acquire compositional and analytical skills to best express their musical ideas and provides students with advanced knowledge of the materials of contemporary and historical music and a theoretical understanding of their construction.

Department Honors Requirements: Candidates, nominated by music department faculty, receive honors for distinguished achievement in musical performance, composition, or exceptional ability and accomplishment as a music educator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must pass a performance audition to be accepted into any music degree program. At the time of the audition, students must also complete diagnostic examinations in theory/aural/keyboards skills and an interview with the department head or an appointed designee. Any student who receives provisional acceptance into a degree program must pass a review (usually at the end of the first semester) to receive full acceptance. That review includes recommendations of major instructors and successful completion of an applied jury.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

Courses with grades less than C- will not count toward the major.

Accounting B.Acc.

Accounting

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- Degree: Bachelor of Accounting

The B.Acc. in accounting provides the core competencies in accounting and general business that are necessary for a successful accounting career. The program includes study in the following areas: financial accounting, management accounting, accounting information systems, financial, operational, and information systems auditing, and taxation. This accounting curriculum is combined with a foundation in the functional areas of business law, finance, information systems, marketing, operations, and management, as well as a broad general education, including the areas of the behavioral sciences, the humanities, English, communication, the arts, mathematics, and statistics.

The primary professional certification in public accounting is the Certified Public Accountant (CPA). Most states, including Minnesota and Wisconsin, require students to complete 150 semester hours of education to become a licensed CPA. All 150 hours may be taken at the undergraduate level or a combination of undergraduate and graduate level courses may be used to satisfy this requirement. At UMD, students can choose to combine their B.Acc. degree with an M.B.A.; another major within LSBE such as the MIS, financial markets, or healthcare management; or a minor from LSBE, such as financial planning or MIS; or a minor from another collegiate unit, such as computer science, communications, or criminal justice; or additional undergraduate coursework in accounting, business, or other discipline such that the total equals or exceeds 150 hours. (Contact the Dept of Accounting for additional information.)

Other types of professional certifications for accountants in private industry do not require 150 hours of education. The Certified Management Accountant (CMA) certificate is issued by the Institute of Management Accounting. The Certified Internal Auditor (CIA) certificate is issued by the Institute of Internal Auditors. The B.Acc. degree program also serves as basic preparation for both the CMA and CIA examinations.

A number of active learning opportunities are available to students in UMD's accounting program. ACCT 3196 - Internship in Accounting allows students to apply knowledge and skills gained in the classroom to real world accounting problems through work experience in sponsoring businesses. Most internships offer a salary, as well as the opportunity to earn credits through a supervised work experience. Another opportunity, ACCT 3096 - Volunteer Income Tax Assistance, gives students a general understanding of the U.S. individual income tax system, while providing a valuable service learning experience by assisting low-income clientele with tax planning and compliance. Finally, in ACCT 3701 - Student to Business Initiative in Accounting, students working in teams are matched with local small business that need accounting assistance. Students define the specific scope of work with the business owner and then serve as a "consultant" to the business. At the end of the semester, students present the results of their work at the UMD Center for Economic Development offices.

Program Honors: Degree candidates must earn a 3.30 GPA in all LSBE upper division courses.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-accounting students for the B.Acc. degree. Admission to candidacy status, which allows access to upper division LSBE courses, typically occurs at the junior level when students have successfully completed all pre-major (pre-candidacy) course requirements and met all of the GPA standards. Students with a 2.60 UM and overall, 2.00 internal and pre-major GPAs are admitted upon completion of pre-major courses; students with a 2.00-2.59 UM and overall, 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics

courses) without permission of the director of student affairs.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Accounting Minor

Accounting

Labovitz School of Business and Economics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 12 to 31

The minor in accounting is valuable to students who want to understand the accounting process and its applications in modern society. The minor offers training for entry into positions in government, industry, and social service organizations that require an understanding of accounting but not the depth provided by the B.Acc. degree program.

For students outside of LSBE, no more than 25 percent (30 credits) of total credits required for a degree may be drawn from the courses offered by LSBE or recognized by the school as equivalent transfer courses while completing this minor. Economics courses are excluded from these calculations.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Minor Requirements

The accounting minor is available to both LSBE students and non-LSBE students. Requirements are described below.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Labovitz School of Business and Economics

LSBE students must be a B.B.A. degree candidate.

Students must apply for admission to the minor and are admitted if eligible for LSBE candidacy status.

Admission to the minor is based on the same GPA requirements as admission to candidacy for LSBE baccalaureate degrees. Applications are available in 111A Labovitz School of Business and Economics Building.

Accounting Core Courses (6 cr)

[ACCT 3101](#) - Intermediate Accounting I (3.0 cr)

Business Administration Certificate

Labovitz School of Business & Economics - Adm

Labovitz School of Business and Economics

- Program Type: Undergraduate credit certificate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 16
- Degree: Business Administration Certificate

The Certificate in Business Administration is intended to provide a basic introduction to the fundamentals of business to students who may not have had any prior exposure to business. A student must successfully complete all eight modules included in the program in order to earn the Certificate. The eight modules provide coverage in the areas of accounting, economics, finance, human resource management, marketing, operations, organizational management, and statistics. Students who have successfully completed all eight modules would be deemed to have met all the prerequisite foundational requirements for LSBE's MBA program. All eight courses included in the program are two-credits each and are offered fully online. These courses cannot be used to substitute for any existing LSBE courses.

Program Delivery

This program is available:

- completely online (all program coursework can be completed online)

Admission Requirements

College consent will be required for students to enroll in any of the modules.

Economics B.A.

Economics

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 45
- Degree: Bachelor of Arts

Economics is the study of social, business, and individual decision making and the goals, incentives, institutions, and constraints affecting those decisions. The B.A. Economics curriculum combines the classical liberal arts and modern quantitative approaches and is designed for students pursuing a second major or minor in traditional liberal arts disciplines or in mathematics and statistics.

The B.A. prepares students for careers in business and government, the study of law, and graduate work in economics, management, public policy, and related fields. Business careers that require the analytical training of an economist include banking, management, insurance, marketing research, and securities trading. Economists who work for government agencies assess economic conditions in the United States and abroad and predict the economic impact of specific changes in legislation or public policy. Government careers include those in foreign and intelligence service, regulatory agencies, and international trade.

Majors are encouraged to select a discipline that complements their chosen career path or builds on their analytical training. Students have considerable flexibility in designing their major to ensure it meets personal and professional interests and needs. Students should consult their department adviser to define the focus and coverage of their program and select courses in other disciplines. Students interested in graduate study should plan on taking both ECON 3030 and ECON 4213. The department faculty welcomes and encourages student interaction with other students and the faculty through activities such as UROP projects, Omicron Delta Epsilon (honorary society for economics), Economics Club, and other activities and events.

Honors Requirements: The department honors program recognizes majors who demonstrate outstanding academic performance. Department honors are noted in the commencement bulletin and by the following notation on the student's transcript: Graduated With Distinction in Economics.

To be eligible, degree candidates must earn a 3.20 GPA overall. In addition, candidates must earn a 3.20 GPA in economics courses and satisfactorily complete a research project under the guidance of a faculty member or complete an approved internship.

Economics B.B.A.

Economics

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- Degree: Bachelor of Business Administration

Economics is the study of how societies, businesses, and individuals allocate limited resources to achieve competing ends. The B.B.A. in economics is designed for students who wish to integrate business and economics courses in a way that allows them to analyze business problems with the insight garnered from the economics discipline. In addition to theoretical and applied courses in economics, students pursuing a B.B.A. with a major in economics will take core courses in business, such as accounting, finance, business law, information systems, marketing, human resources, and management.

This degree provides skills and training for careers in business and industry, law, government, politics, teaching, research, and a variety of other areas. The degree also provides a strong foundation for future graduate studies in business, economics, law, and public administration.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 60 credits before admission to the program.

Entrepreneurship B.B.A

Management Studies

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- none
- Degree: Bachelor of Business Administration

Entrepreneurship focuses on the creation of social and economic value by developing core capabilities of idea generation, opportunity recognition, resource acquisition, and entrepreneurial management. These capabilities draw on multi-disciplinary experiences including; forming teams, constructing business models, talking with partners and customers, assessing feasibility, while launching a new venture or initiative. The skills and competencies gained by studying entrepreneurship are vital for the success of any business or organization including nascent startup, corporation, family, nonprofit, global, franchise, or any other setting.

Labovitz School of Business and Economic's (LSBE) Entrepreneurship Program integrates the knowledge and experiences gained in other disciplines, as well as from the field of entrepreneurship, into an understanding of the process of new venture creation and the management of entrepreneurial businesses. The program provides students with both the breadth and depth of skills necessary to understand the strategic challenges facing a firm; to identify, analyze and pursue new growth opportunities; and to communicate effectively with critical stakeholders, in order to mobilize the support necessary for the creation of new products and services and/or the creation of one's own company.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 60 credits before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-business students for all B.B.A. majors. Admission to candidacy status, which allows access to upper division LSBE classes, typically occurs at the junior level when students have successfully completed all pre-major (pre-candidacy) course requirements and met all of the GPA standards. Students with 2.60 UM and overall and 2.00 internal and pre-major GPAs are admitted upon completion of pre-major courses; students with 2.00-2.59 UM and overall and 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics courses) without permission of the director of student affairs.

Finance B.B.A.

Finance & Management Information Sciences

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- Degree: Bachelor of Business Administration

This professionally oriented program emphasizes the competencies required for management careers in business, government, public, or social service organizations. The program prepares students for entering careers with management responsibility by providing a breadth and depth of knowledge about organizations, management fundamentals, techniques, processes, and skills, combined with a foundation in the functional areas of accounting, business law, finance, information systems, marketing, operations, and human resource management.

The B.B.A. offers a broad educational experience while preparing students for a variety of technical and management careers. With about one-half of the required coursework from non-business disciplines, emphasis is on the development of a strong liberal arts education that provides a foundation for the required and elective professional courses. The program's core curriculum focuses on the fundamental administrative and functional skills demanded of leaders in today's public and private organizations. Students are permitted sufficient latitude in choosing electives appropriate to their particular professional objectives in finance, health care management, human resource management, organizational management, management information systems, or marketing.

In addition to classroom-based courses, students may participate in internship programs where classroom learning may be applied during professional experience as an employee of a public agency or private business. Students also may participate in the Student to Business Initiative (SBI) which offers the opportunity to use knowledge and skills to identify, analyze, and solve problems confronting small businesses. Both programs provide practical tests of vocational interests and valuable work experience.

The finance major is designed for students pursuing careers in corporate financial management, investment and portfolio management, and management of financial institutions.

Honors Program: Degree candidates must earn a 3.30 GPA in all LSBE upper division courses.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-business students for all B.B.A. majors. Admission to candidacy status, which allows access to upper division LSBE classes, typically occurs at the junior level when students have successfully completed all pre-major (pre-candidacy) course requirements and met all of the GPA standards. Students with a 2.60 UM and overall and a 2.00 internal and pre-major are admitted upon completion of pre-major courses; students with a 2.00-2.59 UM and overall and a 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics courses) without permission of the director of student affairs.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. LSBE students are encouraged to take at least one year of college-level foreign language.
2. 50% of all required business credits, including the upper-division economics elective, must be taken from LSBE faculty.
3. Students must complete a minimum of 30 credits while enrolled in LSBE.
4. No more than 9 credits (3 courses) pertaining to a specific major may be taken abroad, unless an exception is approved by petition.

Finance Minor

Finance & Management Information Sciences

Labovitz School of Business and Economics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 12 to 30

The minor in finance can be used as a complement to a related discipline. It provides a comprehensive overview of the theories and common practices in corporate finance, investment and portfolio management, and the management of financial institutions.

The finance minor is available to LSBE and Non-LSBE students.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Minor Requirements

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 123
- Required credits within the major: 87
- Degree: Bachelor of Business Administration

LSBE students may wish to apply for the financial markets finance major program, an intensive academic and experiential preparation for careers in the financial services industry. Classroom instruction is combined with independent laboratory activities, and the program is centered upon four foundational elements: academic studies, the January term practicum in Duluth and the Twin Cities, financial markets laboratory work, and management of the "Bulldog" Investment Fund. Students interested in the program are strongly encouraged to meet with the Financial Markets Program Director.

Juniors who have a strong interest in the financial industry, and who have completed or are currently registered for FMIS 3601 - Corporation Finance, are encouraged to speak with the program director prior to registration for spring semester. An initial informational meeting or review of program opportunities helps interested students determine whether or not to pursue formal application and the appropriate prerequisite courses.

During spring semester, the application and selection process involves a thorough review of each candidate's application and academic performance, as well as a formal interview. Applicants are reviewed and selected according to their skills, academic qualifications and "fit" with the program in terms of career goals and interests. Candidates are expected to maintain high ethical standards.

Admission Requirements

Students must complete 3 courses before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Students must complete FMIS 3601, FMIS 3619, and FMIS 3644 before admission to the program.

Students must first meet admission to candidacy requirements and be admitted to the finance major, which is necessary to be eligible for the prerequisite courses. Students are then admitted into the financial markets finance major after successful completion of the prerequisites and selection from the individual interview process.

Financial Markets Minor

Finance & Management Information Sciences

Labovitz School of Business and Economics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 18

LSBE candidates or economics majors may wish to apply for the financial markets minor program, an intensive academic and experiential preparation for careers in the financial services industry. Students interested in this program are strongly encouraged to meet with the Financial Markets Program Director.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 3 courses before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Admission to the minor is based on the same GPA requirements as admission to candidacy for LSBE baccalaureate degrees.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Financial Planning Minor

Finance & Management Information Sciences

Labovitz School of Business and Economics

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 24 to 36

The financial planning minor is designed to be a Certified Financial Planner (CFP) board-registered program so it can be used to fulfill the education requirements for the CFP certification. Upon completion of this program, students are eligible to sit for the CFP Board of Standard certification examination, leading to the professional CFP designation.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Admission to the minor is competitive and a planned admission process will be established to manage the cohort through the two-year time frame.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Minor Requirements

The Financial Planning minor is available to both LSBE students and non-LSBE students. Requirements are described below.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Health Care Management B.B.A.

Economics

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- Degree: Bachelor of Business Administration

The health care management major focuses on the administration, financing, and economics of the health services sector. The program prepares students for careers in health care administration and policy in hospitals, clinics, government agencies, insurance and managed care organizations, pharmaceutical and biotechnology firms, medical device companies, and consulting agencies.

Students gain an understanding of the many critical issues in health care delivery, such as health care quality assessment and improvement, health information technology applications, health care ethics, compliance with health care regulations, physician contracting and reimbursement, and billing and claims processing. Students learn about health policy and health care reform, such as proposals for universal health insurance coverage and the structure of health care systems outside of the United States.

This professionally oriented program also emphasizes the competencies required for management careers in business, government, public, or social service organizations. The program prepares students for entering careers with management responsibility by providing breadth and depth of knowledge about organizations, management fundamentals, techniques, processes, and skills, combined with a foundation in the functional areas of accounting, business law, finance, health care management, information systems, marketing, operations, and human resource management.

The B.B.A. offers a broad educational experience while preparing students for a variety of technical and management careers. With about one-half of the required coursework from non-business disciplines, emphasis is on the development of a strong liberal arts education that provides a foundation for the required and elective professional courses. The program's core curriculum focuses on the fundamental administrative and functional skills demanded of leaders in today's public and private organizations. Students are permitted sufficient latitude in choosing electives appropriate for their particular professional objectives in finance, health care management, human resource management, organizational management, management information systems, or marketing.

In addition to classroom-based courses, students may participate in internship programs where classroom learning may be applied during professional experience as an employee of a public agency or private business.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-business students for all B.B.A. majors. Admission to candidacy status, which allows access to upper division LSBE classes, typically occurs at the junior level when students have successfully completed all pre-major (pre-candidacy) course requirements and met all of the GPA standards. Students with a 2.60 UM and overall, 2.00 internal and pre-major are admitted upon completion of pre-major courses; students with a 2.00 - 2.59 UM and overall, 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics courses) without permission of the director of student affairs.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. LSBE students are encouraged to take at least one year of college-level foreign language.
2. 50% of all required business credits, including the upper-division economics elective, must be taken from LSBE faculty.
3. Students must complete a minimum of 30 credits while enrolled in LSBE.
4. No more than 9 credits (3 courses) pertaining to a specific major may be taken abroad, unless an exception is approved by petition.

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. LSBE students are encouraged to take at least one year of college-level foreign language.

Organizational Management

Managers facilitate the work of others to accomplish goals that might not be achieved by a single individual and need to know about the environment surrounding the organization, the roles that managers can take, and the techniques that effectively guide employees. The curriculum allows students to become familiar with different types of organizations and their members. Among the many topics covered are organizational environments, groups and teams at work, leadership, and employee empowerment. Students are given the opportunities to learn more about organizations' complex systems.

MGTS 3401 - Organizational Behavior and Management, a part of the LSBE core, is a prerequisite for all of the courses that appear in the track. Organizational management track students are encouraged to take MGTS 3401 as soon as they are eligible for the course.

Organizational Management Group A (18 cr)

Students must take at least one macro, at least one micro, and at least two management and management process courses.

MGTS 4495 - Special Topics in Management, may fulfill one of the following areas - macro-organization, or management and management process (by petition only).

Management Information Systems B.B.A.

Finance & Management Information Sciences

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 91
- Degree: Bachelor of Business Administration

The management information systems (MIS) program prepares students for entry into careers in business computing. The major gives students both in-depth technical skills needed to design, implement, support, and manage information systems, as well as the breadth of knowledge in all business functional areas needed to produce and manage integrative, technology-based solutions to business/organizational problems.

This professionally oriented program emphasizes the competencies required for management careers in business, government, public, or social service organizations. The program prepares students for entering careers with management responsibility by providing a breadth and depth of knowledge about organizations, management fundamentals, techniques, processes, and skills, combined with a foundation in the functional areas of accounting, business law, finance, information systems, marketing, operations, and human resource management.

The B.B.A. offers a broad educational experience while preparing students for a variety of technical and management careers. With about one-half of the required coursework from non-business disciplines, emphasis is on the development of a strong liberal arts education that provides a foundation for the required and elective professional courses. The program's core curriculum focuses on the fundamental administrative and functional skills demanded of leaders in today's public and private organizations. Students are permitted sufficient latitude in choosing electives appropriate to their particular professional objectives in finance, human resource management, organizational management, management information systems, or marketing.

In addition to classroom-based courses, students may participate in internship programs where classroom learning may be applied during professional experience as an employee of a public agency or private business. Students also may participate in the Student to Business Initiative, which offers the opportunity to use knowledge and skills to identify, analyze, and solve problems confronting small businesses. Both programs provide practical tests of vocational interests and valuable work experience.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-business students for all B.B.A. majors. Admission to candidacy status typically occurs at the junior level when students have successfully completed all pre-major course requirements and met GPA standards. Students with 2.60 UM and overall and 2.00 internal and pre-major GPAs are admitted upon completion of pre-major courses; students with 2.00-2.59 UM and overall and 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics courses) without permission of the director of student affairs.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Marketing Analytics B.B.A.

Marketing

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- This program requires summer terms.
- none
- Degree: Bachelor of Business Administration

Marketing analytics is the study of people's shopping and consumption behavior to uncover their tastes and preferences and to identify any behavioral patterns. Students learn about the application of statistical techniques to large databases to convert data into information and actionable knowledge. Analytics can also be used to study organizational purchase and sales data and can provide critical and timely input to managerial decision making.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 60 credits before admission to the program.

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Students will need to apply for admission into the major. Admissions will be based on an interview and review of previous academic record.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Marketing Analytics Minor

Marketing

Labovitz School of Business and Economics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 41 to 45
- This program requires summer terms.

Marketing analytics is the systematic study of customer data to optimize customer utility, while simultaneously improving the return on marketing and business investments. The term analytics refers to the application of statistical techniques to large databases to convert data into information and actionable recommendations. Analytics can also be used to study an organization's purchase and sale data to understand the value of different customer segments and create more accurate customer response and demand forecasting models. Analytics can provide critical and timely input to managerial decision making to make it more data drive and, ultimately, more effective. LSBE's minor in marketing analytics for non-LSBE students is designed for students with strong mathematics and statistics backgrounds. The marketing analytics minor builds upon these quantitative skills and develops data analysis skills and business knowledge.

Program Delivery

Marketing and Graphic Design B.B.A.

Marketing

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 107
- Required credits within the major: 120
- Degree: Bachelor of Business Administration

Marketing & Graphic Design (MGD) combines knowledge and skills from two complementary domains: marketing and graphic design. Students enrolled in this major will get a broad exposure to the fundamentals of business and economics. In addition, they will receive specialized training in marketing and creative design. The degree enables graduates to work effectively in industry-standard creative teams, moving from empirically identifying and measuring consumer needs and desires to the design of effective promotional graphic systems and materials. Students enrolled in BBA-MGD will not be eligible to minor in Marketing because of the curriculum overlap.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 11 courses before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

Marketing B.B.A.

Marketing

Labovitz School of Business and Economics

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 97
- Degree: Bachelor of Business Administration

This professionally oriented program emphasizes the competencies required for management careers in business, government, public, or social service organizations. The program prepares students for entering careers with management responsibility by providing breadth and depth of knowledge about organizations, management fundamentals, techniques, processes, and skills, combined with a foundation in the functional areas of accounting, business law, finance, information systems, operations, and human resource management.

The B.B.A. offers a broad educational experience while preparing students for a variety of technical and management careers. With about one-half of the required coursework from non-business disciplines, emphasis is on the development of a strong liberal arts education that provides a foundation for the required and elective professional courses. The program's core curriculum focuses on the fundamental administrative and functional skills demanded of leaders in today's public and private organizations. Students are permitted sufficient latitude in choosing electives appropriate for their particular professional objectives in finance, human resource management, organizational management, management information systems, or marketing.

Marketing is about facilitating exchanges. For an organization to be successful, it must understand the customer and the customer's needs. An organization seeks to meet these needs in a competitive environment by developing a marketing mix of product/service, price, promotion, and distribution that will satisfy the customer's and organization's objectives. Marketing occurs between organizations (business-to-business marketing) between organizations and consumers (consumer marketing), globally (international marketing), between profit and not-for-profit organizations, and even between individuals. Many careers are available in marketing, including those in marketing research, selling and sales management, advertising, promotion and public relations, and international marketing.

In addition to classroom-based courses, students may participate in Student to Business Initiative (SBI) projects, or internship programs where classroom learning may be applied during professional experience as an employee of a public agency or private business.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.60 already admitted to the degree-granting college
- 2.60 transferring from another University of Minnesota college
- 2.60 transferring from outside the University

Freshmen and transfer students are typically admitted as pre-business students for all B.B.A. majors. Admission to candidacy status, which allows access to upper division LSBE classes, typically occurs at the junior level when students have successfully completed all pre-major (pre-candidacy) course requirements and met all of the GPA standards. Students with 2.60 UM and overall and 2.00 internal and pre-major GPAs are admitted upon completion of pre-major courses; students with 2.00-2.59 UM and overall and 2.00 internal and pre-major GPAs are pooled and reviewed for evidence of academic success in LSBE majors.

Students who do not qualify for admission to candidacy may not take upper division LSBE courses (excluding some economics courses) without permission of the director of student affairs.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. LSBE students are encouraged to take at least one year of college-level foreign language.
2. 50% of all required business credits, including the upper-division economics elective, must be taken from LSBE faculty.
3. Students must complete a minimum of 30 credits while enrolled in LSBE.
4. No more than 9 credits (3 courses) pertaining to a specific major may be taken abroad, unless an exception is approved by petition.

Aerospace Studies Minor

Aerospace Studies

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 40 to 41

The Air Force Reserve Officer Training Corps (AFROTC) is a college-level educational program that gives students the opportunity to become Air Force officers while completing their degrees. Any student may enroll in aerospace studies courses. AFROTC offers post-collegiate opportunities in more than 100 career specialties. Air Force officers are challenged with organizational responsibilities and experiences not often available to new college graduates. This program is for students who want to challenge themselves as Air Force leaders and managers while serving their country in a professional, high-tech environment.

Active-duty Air Force officers provide a curriculum that gives students insight into the mission, organization, and operation of the U.S. Air Force. Students study Air Force history, leadership, management, professionalism, and U.S. foreign policy and its relationship to defense policy. Scholarships are available on a competitive basis. High school seniors and college students can compete for four-, three-, two-year scholarships that cover tuition, fees, and book expenses. Participants may qualify to receive a tax-free allowance for each month in school.

The aerospace studies minor provides preparation in areas studied by most officers early in their service careers. The minor increases future officers' performance potential in two areas in which all officers must eventually develop competence: communication skills and international affairs.

Applied Physics B.S.

Physics

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 78 to 79
- Degree: Bachelor of Science

The B.S. in applied physics is primarily for students planning to work in industry and offers flexibility in selection of technical electives. The physics courses emphasize conceptual foundations, problem-solving skills, and experimental and computational techniques.

Students are encouraged to participate in research, with emphasis in experimental high-energy physics and particle astrophysics, limnological research, including observational studies and modeling of lakes, and computational physics. Additional faculty interests include optics and condensed matter physics. The department also offers courses required for other science and engineering programs.

Honors Requirements: To graduate with honors, students must participate in the department honors program, complete and present a research project, and maintain a GPA above 3.00 overall and in the major. They are also expected to attend department colloquia. Interested students should contact the physics honors program coordinator.

Biochemical Engineering Minor

Chemical Engineering

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 46 to 47

Significant advances in the biological sciences and engineering have had a dramatic effect on the environmental, chemical, and health care industries. Chemical engineering programs have become more diversified to include curriculum in biochemical engineering. The biochemical engineering minor provides students with additional training in this growing field beyond their traditional coursework. Students will gain the basic knowledge of the biological sciences and design as applied to bioreactor engineering and downstream processing.

The influence of the biological sciences in all academic disciplines within the sciences and engineering continues to expand. Any student may pursue a minor in biochemical engineering.

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 86 to 91
- Degree: Bachelor of Science

Biochemistry and molecular biology is the study of life at the molecular level. This field is both a life science and a chemical science, exploring the chemistry of living organisms and the molecular basis for the processes that occur in living cells. The Department of Chemistry and Biochemistry provides classroom and laboratory learning opportunities and research experiences across the discipline to meet the needs of students in engineering, liberal arts, and pre-professional programs, as well as those of students who wish to pursue careers or graduate studies in chemistry or related disciplines.

Honors Requirements: The Department of Chemistry and Biochemistry honors program helps outstanding biochemistry and molecular biology majors become competent, independent research workers, encourages student interest in the discipline, and aids in the transition from student to working scientist. Qualified majors may apply after the first semester of their sophomore year. Participants choose a research adviser and complete two semesters on a jointly developed project. Written reports and an oral presentation of the research are also required.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A minor or second major in a different subject is required.

* A minor in chemistry or B.A. biochemistry major cannot be declared with the B.S. biochemistry/molecular biology (BMB).

* The B.A. chemistry may be declared as an additional degree with the B.S. BMB. However, this combination does not satisfy the requirement for a minor or a second major in a different subject.

* The B.S. BMB and B.S. chemistry may be declared. This combination satisfies the requirement of a minor or second major in a different subject.

2. Students earning a B.S. degree who wish to have their degree certified by the American Chemical Society must complete at least 130 hours of additional laboratory work through participation in undergraduate research with a comprehensive written report and/or through additional chemistry laboratory courses.

Students who complete the B.A. in biochemistry do so because it is a field that complements areas such as law, library science, journalism, public relations, sale, or education. The major also provides a strong foundation for students planning on attending professional schools, such as medical, dental or pharmacy school, while providing curricular flexibility to complete professional school prerequisites requirements. B.A. students are encouraged to participate in undergraduate research.

Biology has long been recognized as basic to environment, agriculture, and medicine. Because the topics studied by biologists range from subcellular particles to global environmental concerns, and because of the variety of living organisms and the various ways of studying them, many specialties have developed. The B.A. program is committed to the advancement of knowledge through scholarly research and other creative activities.

The B.S. in biology offers preparation for graduate school and a sound basis for professional training in biological and health sciences. Biology is a broad field, and students can tailor their programs to fit their own needs and interests. To provide flexibility in pursuing personal interests or career preparation, the student chooses 18 credits of upper division biology electives.

The Department of Biology encourages students to develop as active scholars and to participate in undergraduate research. The B.S. degree is detailed and specific with a concentration in science related coursework.

Refer to the Swenson College of Science and Engineering Student Affairs Office and the University of Minnesota Medical School Duluth Student Affairs Office, or the University of Minnesota Duluth College of Pharmacy Student Services Office.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 90 credits before admission to the program.

Three years of an undergraduate major in SCSE, including the advanced writing requirement, the UMD Liberal Education Program, all pre-med or pre-pharm courses, and the first year of medical or pharmacy school.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

See the Swenson College of Science and Engineering Student Affairs Office, the University of Minnesota Medical School Duluth Student Affairs Office, or the University of Minnesota Duluth College of Pharmacy Student Services Office.

Advanced writing requirement will be met by meeting requirements for admission to the UMD School of Medicine or UM College of Pharmacy.

- Required credits within the major: 83 to 90
- Degree: Bachelor of Science

Cell and molecular biology are two of the most rapidly growing areas of modern biology. This major prepares students for graduate school and careers in cell biology, genetics, developmental biology, physiology, immunology, biotechnology, molecular biology and microbiology. The major is also appropriate for students considering professional schools of medicine, dentistry, pharmacy, and veterinary medicine.

The program is administered by the Department of Biology and involves faculty in both the Swenson College of Science and Engineering and the Medical School Duluth.

Chemical Engineering

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 130
- Required credits within the major: 112 to 113
- Degree: Bachelor of Science in Chemical Engineering

The Department of Chemical Engineering strives for nationally recognized excellence in engineering education and research by using modern, hands-on, and active learning experiences to prepare undergraduate students for professional success, and to hold paramount the safety, health, and welfare of the public and protect the environment in performance of their professional duties.

The Department of Chemical Engineering produces engineers with a strong foundation of technical, communication, teamwork, and problem-solving skills required for professional success, consistent with the following objectives:

1. Pursue careers where they apply their engineering and problem-solving skills.
2. Pursue advanced studies or other forms of continuing education.
3. Value their UMD chemical engineering education and endorse the program and its students.

This four-year baccalaureate (B.S.Ch.E.) degree program emphasizes the development of the student's ability to analyze and design chemical processing systems. By the end of the program, the student must demonstrate the ability to solve engineering problems, a sensitivity to the social and environmental impacts of the engineering profession, and the ability to maintain a high level of competency.

Chemical engineering graduates are qualified for employment in diverse industries, ranging from those that manufacture inorganic chemicals, petrochemicals, plastics, synthetic fibers, paper and pulp, and pharmaceuticals to those that process minerals, materials, and hazardous wastes.

Graduates are qualified for assignments that include plant operations, process development, process control, project engineering, or technical sales, and frequently pursue engineering management later in their careers. They are also well qualified to continue with professional or graduate education.

The chemical engineering curriculum is based on fundamental sciences including physics, chemistry, and mathematics; traditional chemical engineering sciences such as material and energy balance, transport phenomena, and thermodynamics; and chemical engineering design courses such as reaction engineering, separations, and unit operations, with a capstone design course during the senior year. Students have an opportunity to become involved in research, through either the Undergraduate Research Opportunities Program or the department honors program.

Honors Requirement: To graduate with department honors, students must have a minimum 3.50 GPA and be nominated by the chemical engineering faculty.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students may declare a chemical engineering major as freshmen or sophomores.

Students must complete the majority of the program's lower division requirements (freshman and sophomore years), including CHE 2111, CHEM 2541, MATH 3280, and PHYS 2015 and 2016, before applying for admission to upper division (junior and senior years). Successful completion of CHE 2111 (with a grade of C+ or better) is required for admission to upper division. Admission is competitive and applicants are admitted on a space-available basis, with priority determined by the cumulative GPA in engineering, physics, mathematics, and chemistry through CHEM 2541.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

A 2.00 minimum GPA in all courses taken in the chemical engineering major, including required courses in related fields. GPA requirements apply to all courses in the major taken at UMD calculated separately and to all courses in the major when transfer credits are included.

Chemistry and Biochemistry, Swenson College of Science & Engineering

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 57 to 65
- Degree: Bachelor of Arts

Chemistry is the study of matter and the physical changes that matter undergoes. Chemical reactions occur every day and in every aspect of life: respiration, metabolism and growth in living systems, combustion in cars and heating plants, pharmaceutical and polymer production, and the conversion of raw materials to usable products.

Chemistry is an important and central subject. Students who are interested in health sciences such as medicine, pharmacy, dentistry, and related fields need to take several semesters of chemistry. Students who like scientific and technical subjects, and who have a solid math and science background from high school, are best prepared to major in chemistry.

Students completing the B.A. in chemistry generally plan to use chemistry as a study field that complements other areas such as law, library science, technical writing, public relations, or sales. B.A. students are encouraged to participate in undergraduate research. The major also provides a strong foundation for students planning to go to professional schools, such as medical or pharmacy school.

Honors Requirement: Qualified majors may apply after the first semester of their sophomore year. Participants choose a research adviser and complete two semesters of effort on a jointly developed project. Written reports and an oral presentation of the research are also required.

Program Delivery

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).

5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A minor or second major in a different subject is required.

* The BMB major may be declared with the B.A. chemistry major. However, this combination does not satisfy the requirement for a minor or a second major in a different subject.

* The B.A. biochemistry major may be declared.

First Year (20 cr)

High school algebra and high school chemistry are required for CHEM 1153, 1154, and 1161. This schedule presupposes placement in MATH 1296 as the first course.

Chemistry and Biochemistry

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 76 to 80
- Degree: Bachelor of Science

Chemistry is a body of knowledge that helps explain the physical world and its processes. Chemists study substances--their composition, structures, properties, and reactions. The Department of Chemistry and Biochemistry provides classroom and laboratory learning opportunities and research experiences across the discipline designed to meet the needs of students in engineering, liberal arts, and pre-professional programs, as well as those who wish to pursue careers or graduate studies in chemistry or related disciplines.

Honors Requirement: The Department of Chemistry and Biochemistry honors program helps outstanding chemistry majors develop into competent, independent research workers, encourages student interest in the discipline, and aids in the transition from student to working scientist. Qualified majors may apply after the first semester of their sophomore year. Participants choose a research adviser and complete two semesters on a jointly developed project. Written reports and an oral presentation of the research are also required.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A minor or second major in a different subject is required.
 - * The B.S. BMB and B.S. chemistry may be declared. This combination satisfies the requirement of a minor or second major in a different subject.
 - * The B.A. biochemistry major may be declared.
2. Students earning a B.S. degree meet the requirements for degree certification by the American Chemical Society.

Year One (20 cr)

High school algebra and high school chemistry are required for CHEM 1153, CHEM 1154, and CHEM 1161. This schedule presupposes placement into MATH 1296.

- MATH 1296 - Calculus I [LE CAT2, LOGIC & QR] (5.0 cr)
or MATH 1596 - Honors: Calculus I [LE CAT2, LOGIC & QR] (5.0 cr)
- MATH 1297 - Calculus II [LOGIC & QR] (5.0 cr)
or MATH 1597 - Honors: Calculus II [LOGIC & QR] (5.0 cr)
- CHEM 1162 - Honors: General Chemistry II (5.0 cr)
or CHEM 1155 - General Chemistry II (4.0 cr)
 - CHEM 1156 - General Chemistry Lab II (1.0 cr)

 - CHEM 1154 - General Chemistry Lab I [LE CAT4, NAT SCI] (1.0 cr)

Year Two (27 cr)

- CHEM 2541 - Organic Chemistry I (3.0 cr)
 - CHEM 2542 - Organic Chemistry II (3.0 cr)
 - CHEM 2543 - Organic Chemistry I Laboratory (1.0 cr)
 - CHEM 2545 - Organic Chemistry II Laboratory for B.S. Chemistry Majors (2.0 cr)
 - MATH 3280 - Differential Equations with Linear Algebra (4.0 cr)
- Take the following course pair or CHEM 2242 maybe substituted.
- CHEM 2222 - Quantitative Analysis (3.0 cr)
 - CHEM 2223 - Quantitative Analysis Laboratory (1.0 cr)
 - PHYS 2013 - General Physics I [LE CAT5, NAT SCI] (4.0 cr)

 - PHYS 2014 - General Physics Lab I [NAT SCI] (1.0 cr)
 - PHYS 2015 - General Physics II (4.0 cr)
 - PHYS 2016 - General Physics Lab II (1.0 cr)

Year Three (15 - 19 cr)

- CHEM 3432 - Descriptive Inorganic Chemistry (3.0 cr)
- CHEM 4641 - Physical Chemistry I (3.0 cr)
- CHEM 4642 - Physical Chemistry II (3.0 cr)
- CHEM 4643 - Physical Chemistry Laboratory I (1.0 cr)
- CHEM 4644 - Physical Chemistry Laboratory II (1.0 cr)

Biochemistry

Choose one of the following Biochemistry course sets.

- CHEM 3322 - Biochemistry (3.0 cr)
 - CHEM 3324 - Biochemistry Laboratory (1.0 cr)
- or CHEM 4351 - Biochemistry I (3.0 cr)
 - CHEM 4352 - Biochemistry II (3.0 cr)
 - CHEM 4363 - Biochemistry Laboratory (2.0 cr)

Year Four (11 cr)

- CHEM 4184 - Undergraduate Seminar I (1.0 cr)
- CHEM 4185 - Undergraduate Seminar II (1.0 cr)
- CHEM 4242 - Instrumental Analysis (3.0 cr)
- CHEM 4243 - Instrumental Chemistry Laboratory (2.0 cr)

Civil Engineering B.S.C.E.

UMD-Civil Engineering, Dept of

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 137
- Required credits within the major: 125
- This program requires summer terms.
- Degree: Bachelor of Science in Civil Engineering

The B.S.C.E. program integrates topics from chemistry, physics, advanced mathematics, and statistics, geology, and core engineering science to prepare graduates to work professionally in both public and private organizations that design, develop, and construct structures; design, build, and maintain transportation systems and infrastructure; and design, operate, and control water resource systems. Graduates are rooted in safe and efficient design skills and show respect for and strive to improve the environment wherever they work.

The program includes four areas in civil engineering: transportation engineering, environmental and water resource engineering, structural engineering, and geotechnical engineering. Upper division students are exposed to each of these areas and obtain an in-depth knowledge in at least one area by taking additional elective courses.

Civil engineering graduates are qualified for employment in a wide variety of organizations, both public and private, including design, material testing and manufacture, construction, transportation, natural resources development, and energy. Graduates are prepared to begin their first step toward professional registration by taking the FE exam before completing their collegiate degree. They are also well qualified to continue with graduate education in civil engineering or engineering management.

Students in the B.S.C.E. program have the opportunity to put their design and entrepreneurial skills to use in ASCE design competitions, projects sponsored by regional companies, and research projects in the Undergraduate Research Opportunities Program.

Honors Requirement: To graduate with department honors, a student must have a 3.40 GPA, be an active member of Tau Beta Pi or a professional engineering society (e.g. ASCE, ACL, SWE, & SME), and be nominated by a department faculty member.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students must complete 11 courses before admission to the program.

Freshman and transfer students are usually admitted to pre-major status before admission to this major

A GPA above 2.0 is preferred for the following:

- 2.50 already admitted to the degree-granting college
- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

Freshman, sophomores, and transfer students may declare a CE major and be admitted to lower division status. Admission to the upper division B.S.C.E. program is competitive and based on performance in lower division courses and space availability. To be considered, students must complete the CE Application to upper division. The following requirements must be met:

1. Completion of the following 11 classes with a C- or better in each class (total 36 credits).
2. A cumulative GPA of 2.5 or better in the 11 required classes.

- Degree: Bachelor of Science

Professionals in the field of information systems work with information technology and must have sound technical knowledge of computers, software, and communications. Since they operate within an organizational framework, they must also understand business and business functions. The B.S. in computer information systems is a four-year program that includes formal courses in information technology (including system architecture, operating systems, interactive multimedia computing, and networking), management information systems, project organization and management, and business organizational functions. The program also includes supporting courses in communications, mathematics and statistics, and the economic, social, and ethical implications of computing. Goals of the learning process include the development of good software, communication skills, and the ability to work effectively in team environments. This program provides both the necessary foundational studies for students seeking entry-level positions in information systems and a strong basis for continued career growth.

This program is appropriate for students seeking a professional career in the computer information systems field. It is a multidisciplinary program that emphasizes the study of systems development methodology and technology for our rapidly changing information society.

Graduates are prepared for positions in the design and development of information systems as project managers, information systems center specialists, network administrators, and database administrators. This major is also appropriate preparation for information systems graduate programs or MBA professional programs.

The computer science minor and computer science applied minor are not available to computer information systems technology majors.

Computer Information Systems Minor

Computer Science

Swenson College of Science and Engineering

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 29

Computer information systems professionals work with information technology and must have sound technical knowledge of computers, software, and communications. Students who major in computer science may not minor in computer information systems.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Core Courses (21 cr)

- CS 1511 - Computer Science I [LE CAT3, LOGIC & QR] (5.0 cr)
- CS 1521 - Computer Science II (5.0 cr)
- CS 2511 - Software Analysis and Design (4.0 cr)
- CS 3011 - Information Technology Hardware and Software (4.0 cr)
- FMS 2201 - Information Technology in Business (3.0 cr)

Electives (8 cr)

Take 2 or more course(s) totaling at most 8 credit(s) from the following:

- CS 3121 - Interactive Multimedia Technology (4.0 cr)
- CS 3211 - Database System Concepts (4.0 cr)
- CS 3221 - Operating Systems Practicum (4.0 cr)
- CS 4411 - Data Communications and Network Technology (4.0 cr)
- CS 4531 - Software Engineering (4.0 cr)

Computer Science Applied Minor

Computer Science

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 27

The computer science applied minor provides a thorough introduction to the use of computers as tools and complements studies in other disciplines.

The computer science minor and computer science applied minor are not available to computer information systems technology majors.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Minor Courses (14 cr)

- CS 1521 - Computer Science II (5.0 cr)
- CS 2511 - Software Analysis and Design (4.0 cr)

Computer Science B.A.

Computer Science

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 54
- Degree: Bachelor of Science

Computers are ubiquitous in today's society and have application in nearly every aspect of our working and personal lives. The field of computer science has evolved to the point where advanced computer science techniques are now an integral component in nearly every discipline. Computing professionals who have a sufficient exposure to a second discipline in their undergraduate studies are desperately needed in order to interact in a knowledgeable manner with experts in other areas in order to solve a broad range of problems. The Computer Science B.A. degree program prepares students to become such computing professionals and also allows for the pursuit of graduate and professional degrees in a wide range of disciplines.

The Computer Science B.A. is an interdisciplinary program that will produce computing professionals who have the necessary depth of expertise in computer science to have lifelong professional careers in the field. The program requires each student to gain knowledge and experience in the fundamentals of computer science, including computer organization and architecture, data structures and related algorithms, and programming languages. In addition, it allows for significant course work in a second complementary discipline. Students who complete this degree will have enormous flexibility and opportunity in their future careers and education since there is no discipline that is not touched in significant ways by computer science.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Required prerequisites

Introductory Course (1 cr)

Transfer students with 24 or more credits and current students who change from a B.S. degree or change colleges may request to be waived from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement. [UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A minor or a second major from another department; the Computer Engineering minor may not be used to satisfy this requirement.
2. This schedule presupposes placement into MATH 1296.

Computer Science B.S.

Computer Science

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 87 to 90
- Degree: Bachelor of Science

Computer science is a discipline that requires understanding the design of computers and computational processes. The B.S. in computer science is an accredited, four-year program that provides a solid foundation in mathematics and statistics, computational problem solving, software design and analysis, programming languages, algorithms, data structures, and computer organization and architecture. The program also requires that students acquire significant knowledge in several subdisciplines of computer science, thus enabling them to apply and situate their knowledge of computer science fundamentals. Goals of the learning process include highly developed programming skills, an understanding of the context in which computing activities occur, and an ability to communicate effectively. The program provides the necessary foundational studies for students preparing for graduate school, as well as those seeking careers in industry.

The program is accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, 410-347-7700.

Honors Requirement: Program candidates submit an application to the department honors committee. Participants must maintain a 3.00 cumulative GPA and a 3.30 GPA in the major and complete an honors research project supervised by a faculty member; credit for the project can be earned in CS 4994 - Honors Project.

Program Delivery

Energy Engineering Minor

Electrical Engineering

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 39

The energy engineering minor provides students with basic knowledge and skills needed to understand, address, and make effective decisions about the generation, production, utilization, and application of energy. It provides high quality education in energy related topics that will prepare students for employment opportunities in the private and public sectors, graduate studies, and research.

This interdisciplinary minor, administered by the Department of Electrical and Computer Engineering, is designed for students with majors in engineering. However, students with majors in other disciplines may also apply should they meet the course prerequisites. The coursework provides broad-based science and engineering knowledge suited to energy generation, production, utilization, and application. The minor enhances degrees in engineering.

Environmental Engineering Minor

Chemical Engineering

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 54 to 57

The environmental engineering minor develops a student's ability to understand and address environmental concerns. Coursework provides broad-based science and engineering knowledge suited to pollution prevention and waste management. The minor enhances degrees in science or other engineering fields.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Lower Division (38-39 cr)

- [CHE 2111](#) - Material and Energy Balances (3.0 cr)
- [MATH 1297](#) - Calculus II [LOGIC & QR] (5.0 cr)
- [PHYS 2013](#) - General Physics I [LE CAT5, NAT SCI] (4.0 cr)
- [PHYS 2014](#) - General Physics Lab I [NAT SCI] (1.0 cr)

Chemical Engineering

- [CHE 1011](#) - Introduction to Chemical Engineering. [LE CAT5] (3.0 cr)
- or [CHE 2001](#) - Introduction to Environmental Engineering (3.0 cr)

Chemistry I

- [CHEM 1161](#) - Honors: General Chemistry I [LE CAT4, NAT SCI] (5.0 cr)
- or [CHEM 1153](#) - General Chemistry I [LE CAT5, NAT SCI] (4.0 cr)
- [CHEM 1154](#) - General Chemistry Lab I [LE CAT4, NAT SCI] (1.0 cr)

Chemistry II

- [CHEM 1162](#) - Honors: General Chemistry II (5.0 cr)
- or [CHEM 1155](#) - General Chemistry II (4.0 cr)
- [CHEM 1156](#) - General Chemistry Lab II (1.0 cr)

Analytical Chemistry

- [CHEM 2212](#) - Environmental Chemistry [NAT SCI, SUSTAIN] (4.0 cr)
- or [CHEM 2222](#) - Quantitative Analysis (3.0 cr)
- [CHEM 2223](#) - Quantitative Analysis Laboratory (1.0 cr)

Math

- [MATH 1290](#) - Calculus for the Natural Sciences [LE CAT2, LOGIC & QR] (5.0 cr)
- or [MATH 1296](#) - Calculus I [LE CAT2, LOGIC & QR] (5.0 cr)

Electives

- Take 1 or more course(s) from the following:
- [CHE 2011](#) - Design of Engineering Experiments (3.0 cr)
 - [STAT 2411](#) - Statistical Methods [LE CAT2, LOGIC & QR] (3.0 cr)
 - [STAT 3411](#) - Engineering Statistics (3.0 cr)
 - [STAT 3611](#) - Introduction to Probability and Statistics (4.0 cr)

Upper Division Requirements (10 cr)

Students taking CE 3025 should replace CHE 1011 or CHE 2001 with CE 2435 or an additional upper division elective.

- [MATH 3280](#) - Differential Equations with Linear Algebra (4.0 cr)
- [CE 3221](#) - Fluid Mechanics (3.0 cr)
- or [CHE 3111](#) - Fluid Mechanics (3.0 cr)
- or [ME 3111](#) - Fluid Mechanics (3.0 cr)
- [CE 3025](#) - Environmental Engineering (3.0 cr)
- or [CHE 3112](#) - Heat and Mass Transfer (3.0 cr)
- or [ME 4112](#) - Heat and Mass Transfer (3.0 cr)

Upper Division Electives (6-8 cr)

Other upper division electives may be substituted subject to department approval.

Take 2 or more course(s) from the following:

- BIOL 5807 - Mathematical Ecology (3.0 cr)
- CE 3225 - Hydraulics and Hydrology (4.0 cr)
- CE 4215 - Hydraulic Design (3.0 cr)
- CE 4226 - Water Resources Engineering (3.0 cr)
- CE 4237 - Water Quality Engineering (3.0 cr)
- CE 4421 - Applied Geostatistics (3.0 cr)
- CE 4515 - Sustainable Design and Construction [SUSTAIN] (3.0 cr)
- CE 5216 - Applications in Environmental Modeling (3.0 cr)
- CE 5226 - Water Resources Engineering (3.0 cr)
- CE 5237 - Water Quality Engineering (3.0 cr)
- CE 5410 - Finite Element Methods for Civil Engineering Applications (3.0 cr)
- CE 5421 - Applied Geostatistics (3.0 cr)
- CE 5515 - Sustainable Design and Construction (SUSTAIN) (3.0 cr)
- CHE 4601 - Biochemical Engineering I (3.0 cr)
- CHE 4603 - Biorenewable Resources [SUSTAIN] (3.0 cr)
- CHE 4612 - Hazardous Waste Processing Engineering (3.0 cr)
- CHE 4613 - Air Pollution Control (3.0 cr)
- CHE 5601 - Biochemical Engineering I (3.0 cr)
- CHE 5612 - Hazardous Waste Process Engineering (3.0 cr)
- ES 3500 - Ecological Economics (3.0 cr)
- ESCI 3101 - Nonrenewable Resources (3.0 cr)
- ESCI 3102 - Renewable Resources (3.0 cr)
- GEOL 5240 - Physical Hydrogeology (4.0 cr)
- GEOL 5250 - Environmental Hydrogeology (4.0 cr)
- ME 4365 - Global Sustainability Experience in Design/Manufacturing in Africa (3.0 cr)
- ME 5305 - Computational Fluid Dynamics (3.0 cr)
- ME 5325 - Sustainable Energy System (3.0 cr)

Environmental Science B.S.

Swenson College of Science & Engineering

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 95 to 100
- Degree: Bachelor of Science

The B.S. in environmental science is designed for students who want a multidisciplinary science education focusing on aspects of the environment. This environmental science program requires a broad base of knowledge in the basic sciences and mathematics, physics, chemistry, biology, Earth sciences, and statistics. In addition, prudent study of environmental science requires understanding of economic, political, and ethical considerations. Environmental science features an intense grounding in resource issues (including courses in renewable and non-renewable resources) and builds on the strength of UMD in freshwater issues. In addition, the capstone course deals with sources, distribution, and ultimate fate of air, water, and solid waste pollution. Elective courses from areas such as habitats, climate processes, environmental chemistry, quantitative methods, and global resources are also required.

The program is predicated on the belief that a student graduating with a B.S. in environmental science should have a firm background in physical and life sciences and a basic understanding of 1) existing environmental policies and regulations and the legislative process of their formation; 2) the major environmental issues including water, global climate, energy, pollution, and population; 3) techniques of environmental monitoring and prediction; and 4) economics and business organization.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For entering freshmen, the only admission requirement is acceptance into the College of Science and Engineering. Transfer students must meet campus and college requirements and are accepted into the program at the level corresponding to credits completed, based on existing transfer manuals and on faculty judgment when courses are not in existing manuals.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

Required Environmental Science Core (16 cr)

- CHE 4613 - Air Pollution Control (3.0 cr)
- ESCI 2210 - Science and Management of Environmental Systems (4.0 cr)
- ESCI 3201 - Mineral Resources (3.0 cr)
- ESCI 3202 - Energy Resources (3.0 cr)
- ESCI 4102 - Environmental Assessment (3.0 cr)

Required Courses From Other Programs (61 - 63 cr)**Biology**

- BIOL 1011 - General Biology I [LE CAT4, NAT SCI] (5.0 cr)
- BIOL 1012 - General Biology II [SUSTAIN] (5.0 cr)

Physics II

- PHYS 2015 - General Physics II (4.0 cr)
- PHYS 2016 - General Physics Lab II (1.0 cr)

Statistics

- STAT 2411 - Statistical Methods [LE CAT2, LOGIC & QR] (3.0 cr)
- or STAT 3411 - Engineering Statistics (3.0 cr)
- or STAT 3611 - Introduction to Probability and Statistics (4.0 cr)

Writing

- WRIT 3150 - Advanced Writing: Science (3.0 cr)

Water Science Electives (8-11 cr)

Must include three courses, at least one course each from Group A and B. Courses used to satisfy a water science elective may not be used to satisfy a concentration elective. At least one course used to fill the water science electives or the concentration electives must have a laboratory or field component.

Take 3 or more course(s) totaling 8 - 11 credit(s) from the following:

Group A Groundwater

Take 1 - 2 course(s) from the following:

- GEOL 5240 - Physical Hydrogeology (4.0 cr)
- GEOL 5250 - Environmental Hydrogeology (4.0 cr)
- GEOL 4710 - Aqueous Geochemistry (4.0 cr)
- GEOL 5251 - Well Hydraulics (3.0 cr)

Group B Surface Water

Take 1 - 2 course(s) from the following:

- BIOL 3760 - Marine Biology (3.0 cr)
- BIOL 3761 - Field Studies in Marine Biology (4.0 cr)
- BIOL 3830 - Aquatic Food Webs (3.0 cr)
- BIOL 3835 - Freshwater Ecology (3.0 cr)
- BIOL 5777 - Plankton Biology (2.0 cr)
- BIOL 5805 - Fisheries Ecology (3.0 cr)
- BIOL 5833 - Stream Ecology (3.0 cr)
- BIOL 5861 - Lake Ecology (3.0 cr)
- BIOL 5869 - Great Lakes Ecology and Management (3.0 cr)
- BIOL 5870 - Wetland Ecology (3.0 cr)
- GEOG 4446 - Water Processes and Management (3.0 cr)
- LIM 5004 - Field Limnology (2.0 cr)
- LIM 5101 - Physical Limnology (3.0 cr)

- LIM 5103 - Geological Limnology (3.0 cr)
- BIOL 5839 - Coral Reef Field Studies (3.0 cr)
or GEOL 5839 - Coral Reef Geology (3.0 cr)

Concentration Electives (10 cr)

Courses can be distributed among the groups in any combination. Discuss with adviser the benefits of breadth (credits in several concentrations) versus depth (credits in a particular concentration).

Take 10 or more credit(s) from the following:

Climate Processes

Take 0 - 10 credit(s) from the following:

- GEOG 3422 - Natural Hazards (3.0 cr)
- GEOG 4446 - Water Processes and Management (3.0 cr)
- GEOL 3210 - Geomorphology (4.0 cr)
- GEOL 5210 - Glacial and Quaternary Geology (4.0 cr)

Geological Sciences B.A.

D Earth & Environmental Sci

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 61 to 64
- This program requires summer terms.
- Degree: Bachelor of Arts

Geological sciences is the scientific study of the origin, history, and structure of the Earth. The study of geology requires a broad base of knowledge in related sciences and mathematics.

The B.A. in geological sciences provides an appropriate educational background for work in areas related to environmental studies, land use planning, and other fields requiring sensitivity to Earth systems.

Honors Requirements: To attain departmental honors, students must undertake an independent research project (typically two semesters) and maintain a cumulative overall GPA of 3.00.

The research can be part of a UROP, directed research, independent study, or an internship with a faculty member. Students must either make a brief oral presentation to the department summarizing their results and produce a research paper (minimum 10 pages) OR give an oral or poster presentation of their research results at a regional or national meeting (e.g., GSA, AGU, ILSG, or similar campus event).

8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Second field of study (either a minor or another major).
2. Math courses determined by Math ACT score.

Geology Core Courses (38-39 cr)

- GEOL 2110 - Earth History (4.0 cr)
- GEOL 2120 - The Earth's Dynamic Interior (3.0 cr)
- GEOL 2311 - Mineralogy (4.0 cr)
- GEOL 2312 - Petrology (5.0 cr)

Geological Sciences B.S.

D Earth & Environmental Sci

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 79 to 102
- This program requires summer terms.
- Degree: Bachelor of Science

The study of geology provides ways of understanding and appreciating dynamic earth processes, our physical environment, and our place in the long and complex history of the planet and solar system. It is by nature interdisciplinary and attracts students with broad interest in earth science, archaeology, astronomy, biology, chemistry, engineering, environmental science, applied mathematics, oceanography, limnology and/or physics. The B.S. degree in geological sciences can lead to rewarding careers in industry, government, conservation, law, business, and academia.

Geology requires a solid base of knowledge in related sciences (chemistry and physics) and mathematics, as well as a solid core of geology courses. A summer course in field mapping is also required.

The B.S. degree with the exploration and mining track is designed for students interested in a career in the exploration and mining industries. The track includes a solid core of geoscience courses with a focus on courses related to exploration and mining geology. A summer course in field mapping is also required.

Honors Requirements: To attain department honors, students must undertake an independent research project and maintain a cumulative overall GPA of 3.00. The research can be part of a UROP, directed research, independent study, or an internship with a faculty member. Students must either make a brief oral presentation to the department summarizing their results and produce a research paper (minimum 10 pages) OR give an oral or poster presentation of their research results at a regional or national meeting (e.g., GSA, AGU, ILSG, or similar campus event).

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Minor or double major.

Geology Core Courses (42-43 cr)

- GEOL 2110 - Earth History (4.0 cr)
- GEOL 2120 - The Earth's Dynamic Interior (3.0 cr)
- GEOL 2311 - Mineralogy (4.0 cr)
- GEOL 2312 - Petrology (5.0 cr)
- GEOL 3210 - Geomorphology (4.0 cr)
- GEOL 3420 - Sedimentology and Stratigraphy (4.0 cr)
- GEOL 3800 - Principles of Geophysics (4.0 cr)

or GEOL 1610 - Oceanography [LE CAT5, NAT SCI, SUSTAIN] (3.0 cr)
or GEOG 1414 - Physical Geography [LE CAT4, NAT SCI, SUSTAIN] (4.0 cr)

Advanced Electives (4-9 cr)

Take 4-9 credits of electives as listed below. GIS 3563 and 3564 (6 credit total) can be substituted for 4 credits of advanced electives. Six credits of limnology courses can be substituted for advanced electives. Students pursuing the exploration and mining track are required to take 4 credits, all other students are required to take 9 credits. GEOL 4110 and 4180 cannot be used.

Take 4 or more credit(s) from the following:

- AST 4110 - Observational Astronomy (3.0 cr)
- GEOL 3xxx
- GEOL 4xxx
- GEOL 5xxx
- GIS 3563 - Geographic Information Science I: Theory and Analysis (4.0 cr)
- GIS 3564 - Geographic Information Science II: Applied GIS (4.0 cr)
- Take at most 6 credit(s) from the following:
 - LIM 5004 - Field Limnology (2.0 cr)
 - LIM 5101 - Physical Limnology (3.0 cr)
 - LIM 5102 - Chemical Limnology (3.0 cr)
 - LIM 5103 - Geological Limnology (3.0 cr)

Industrial Engineering B.S.I.E.

UMD Mechanical/Industrial Engineering

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 129 to 132
- Required credits within the major: 117 to 120
- Degree: Bachelor of Science in Industrial Engineering

The mission of the bachelor of science in industrial engineering program is to deliver a hands-on, laboratory-intensive undergraduate education that provides students with the tools and skills to excel in the profession as they pursue lifelong learning and make positive contributions to society. With an emphasis on integrated systems and a strategic partnership with Lulea University of Technology in Sweden, the B.S.I.E. program offers unique opportunities for study abroad, undergraduate research, and technical electives to develop an enhanced global perspective.

The educational objectives of the industrial engineering program are to produce graduates who are able to:

1. Solve industrial engineering problems by applying contemporary engineering tools to propose and implement effective solutions.
2. Design, develop, implement, and improve integrated systems that include people, materials, information, equipment, and energy.
3. Contribute as informed, ethical, and responsible members of the engineering profession and society as a whole.
4. Continue lifelong professional development throughout their career.
5. Collaborate and communicate effectively with others as a member or leader of an engineering or multidisciplinary team in an international setting.

Industrial engineering integrates topics from manufacturing, management, service, and traditional design. Industrial engineers are proficient in the design, improvement, and management of complex systems of people, materials, equipment, and energy. They study and adapt product designs and the associated plant facilities to optimize production, while considering economic, technical, and human factors.

The curriculum rounds out the learning experience by providing skills in the mathematical and physical sciences, economics, composition, and humanities and social sciences.

The industrial engineering program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

The industrial and systems engineering concentration emphasizes the overall perspective of people and productivity, in any type of system, including manufacturing, service, health care, transportation, communication, and agriculture. The international engineering concentration offers a unique opportunity to study engineering in another culture; space is limited. Courses are taught in English and opportunities for travel and externally-focused projects abound. This concentration requires a senior year exchange with the Department of Materials and Manufacturing Engineering at Lulea University of Technology in Sweden and provides students with the opportunity to experience engineering in the global community.

Honors Requirements: To graduate with department honors, a student must graduate with a 3.40 GPA, be an active member of Tau Beta Pi or a professional engineering society (ASME, ASSE, IIE, MSPE, SME or SWE), and be nominated by a department faculty member.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

Freshman, sophomores, and transfer students may declare an IE major and admitted to lower division status. Admission to upper division B.S.I.E. program is competitive and based on performance in lower division courses and space availability. To be considered, students must complete the MIE Application to Upper Division. The following requirements must be met:

1. Completion of the following courses or their transfer equivalents:

- WRIT 1120
- CS 1121 or 1411 or 1511 or 2121
- ENGR 1222
- CE 2017
- ME 2105
- MATH 3280

2. A minimum cumulative UMD GPA of 2.50

Applicants not meeting these requirements may be admitted to the upper division B.S.I.E. program on a space-available basis with priority determined by cumulative UMD GPA.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.

5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Students must be accepted to the upper division BSIE program and either the Industrial and System Engineering or International Engineering sub-plan and must be in good academic standing.

BSIE upper division students placed on academic probation will also be removed from upper division BSIE status and will not be readmitted to BSIE upper division until they achieve good academic standing with the University.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note for the Twin Cities and Morris campuses: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Industrial and Systems Engineering Program

The industrial and systems engineering concentration emphasizes the overall perspective of people and productivity in any type of system, including manufacturing, service, health care, transportation, communication, and agriculture. Concentration electives allow students to study systems of interest to them.

Industrial and Systems Engineering Core Courses (49 cr)

Required courses include fundamental material in engineering science, engineering management, industrial engineering, and mechanical engineering. Concepts are delivered in lecture and reinforced in lab experiences.

Mathematics B.S.

Mathematics & Statistics

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 57
- Degree: Bachelor of Science

The program in mathematics develops competence in mathematical techniques and sharpens mathematical insight. Mathematics is fundamental to solving problems in physics, chemistry, biology, medicine, business, engineering, and technology. The mathematics major prepares students for careers in business, industry, and government and for further graduate studies.

Note: the B.S. in statistics and actuarial science is listed separately.

Honors Requirements: To graduate with department honors, a student must complete the program with an overall and department GPA of 3.50, satisfactorily complete a research project under the guidance of a department faculty member, and convey research results in a public presentation.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Minor or second major from another area of study.

Double Majors ONLY:

A student pursuing a second major in Statistics and Actuarial Science can count STAT 3612 as a major elective, but no other STAT course required for the Statistics and Actuarial Science major can be counted as a major elective.

Introduction to Calculus Courses (10 cr)**Calculus I**

Take one of the following three Calculus I courses:

[MATH 1290](#) - Calculus for the Natural Sciences [LE CAT2, LOGIC & QR] (5.0 cr)

or [MATH 1296](#) - Calculus I [LE CAT2, LOGIC & QR] (5.0 cr)

or [MATH 1596](#) - Honors: Calculus I [LE CAT2, LOGIC & QR] (5.0 cr)

Take one of the following two Calculus II courses:

[MATH 1297](#) - Calculus II [LOGIC & QR] (5.0 cr)

or [MATH 1597](#) - Honors: Calculus II [LOGIC & QR] (5.0 cr)

Mathematics Core Courses (24 cr)

[CS 1511](#) - Computer Science I [LE CAT3, LOGIC & QR] (5.0 cr)

or [CS 1581](#) - Honors: Computer Science I [LE CAT3, LOGIC & QR] (5.0 cr)

Advanced Writing - WRIT 31xx (3.0 cr)

Electives (15 cr)

Take 5 courses of at least 3 credits each.

Core courses cannot count as electives.

MATH electives must be at least 3100.

Of the 5 major elective courses, at least 2 must be from MATH 4xxx-5xxx, a 3rd must be from MATH 4xxx-5xxx or STAT 5xxx.

The other 2 must be chosen from MATH 3xxx - 4xxx - 5xxx or STAT 3xxx - 4xxx - 5xxx.

MATH 3326, 4370 or STAT 3411 cannot count as major electives.

Take 2 or more course(s) totaling 6 or more credit(s) from the following:

- MATH 3xxx
- MATH 4xxx
- MATH 5xxx
- STAT 3xxx
- STAT 4xxx
- STAT 5xxx

Take 1 or more course(s) totaling 3 or more credit(s) from the following:

- MATH 4xxx
- MATH 5xxx
- STAT 5xxx

Take 2 or more course(s) totaling 6 or more credit(s) from the following:

- MATH 4xxx
- MATH 5xxx

Program Areas of Emphasis

Mathematics includes a wide variety of areas in which students can specialize: traditional mathematics (preparation for Graduate School), applied analysis, computational mathematics, discrete mathematics, and mathematics education. Although no area is required for the MATH major, students are encouraged to work with their advisers to develop a coherent major plan. See the Department of Mathematics and Statistics Web page: <http://www.d.umn.edu/math> for descriptions of elective course groups.

Mathematics Minor

Mathematics & Statistics

Swenson College of Science and Engineering

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 22 to 23

The minor in mathematics is based on the completion of the traditional core of calculus, differential equations, and elementary linear algebra commonly required of undergraduate physical science, engineering, and mathematics degrees. Additional, more advanced, elective classes are required, as well. The minor in mathematics certifies a student's quantitative, problem-solving, and critical thinking skills.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Core Courses (13 - 14 cr)

Mechanical Engineering B.S.M.E.

UMD Mechanical/Industrial Engineering

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 127
- Required credits within the major: 114
- Degree: Bachelor of Science in Mechanical Engineering

The mission of the bachelor of science in mechanical engineering is to deliver a laboratory-intensive, undergraduate mechanical engineering education that provides students with the tools and skills to excel in the engineering profession, as they pursue lifelong learning and make positive contributions to society. The student learning experience offers unique opportunities for study abroad, undergraduate research, and electives outside of mechanical engineering to develop an enhanced global perspective.

The educational objectives of the mechanical engineering program are to produce graduates who are able to:

1. Solve mechanical engineering problems by applying contemporary engineering tools to propose and implement effective solutions.
2. Design, develop, implement, and improve thermal and mechanical systems.
3. Contribute as informed, ethical, and responsible members of the engineering profession and society as a whole.
4. Continue lifelong professional development throughout their career.
5. Collaborate and communicate effectively with others as a member or leader of an engineering or multidisciplinary team in an international setting.

The B.S.M.E. program integrates topics from chemistry, physics, advanced mathematics and statistics, and core engineering science to prepare graduates to work professionally in both thermal and mechanical systems, from design, development, manufacture, and use of products involving mechanical and thermal elements.

The program emphasizes the production engineering approach to mechanical and thermal systems design and development. Upper division courses provide students with a strong understanding of mechanical and thermal systems, and the skills to design, develop, and implement these systems. The mechanical engineering program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, 410-347-7700.

Mechanical engineering graduates are qualified for employment in a wide variety of industries including design, manufacturing, materials, aerospace, transportation, natural resources, and energy. Graduates may pursue assignments in design, development, manufacturing, operations, project engineering, or sales, and frequently move into engineering management. They are also well qualified to continue with graduate education.

Students in the B.S.M.E. program have the opportunity to put their design and entrepreneurial skills to use in ASME design competitions, projects sponsored by regional companies, and research projects in the Undergraduate Research Opportunities Program.

Honors Requirements: To graduate with department honors, a student must have a 3.40 GPA, be an active member of Tau Beta Pi or a professional engineering society (ASME, ASSE, IIE, MSPE, SME or SWE), and be nominated by a department faculty member.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Freshman and transfer students are usually admitted to pre-major status before admission to this major

Freshman, sophomores, and transfer students may declare a ME major and be admitted to lower division status. Admission to the upper division B.S.M.E. program is competitive and based on performance in lower division courses and space availability. To be considered students must complete the MIE Application to upper division. The following requirements must be met:

1. Completion of the following courses or their transfer equivalents:
-WRIT 1120

-CS 1121 or 1411 or 1511 or 2121
-ENGR 1222
-CE 2017
-ME 2105
-MATH 3280

2. A minimum cumulative UMD GPA of 2.50. Admission is competitive and applicants are admitted on a space-available basis, with priority determined by cumulative UMD GPA.

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.

5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. Student must be accepted to the upper division BSME program and must be in good academic standing.

BSME upper division students placed on academic probation will also be removed from upper division BSME status and will not be readmitted to BSME upper division until they achieve good academic standing with the University.

B.S.M.E Core Courses (51 cr)

Natural History Minor

D Earth & Environmental Sci, Biology

Swenson College of Science and Engineering

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 34
- None

The natural history minor enhances student understanding of the ecology and geology of the natural world. It places particular emphasis on courses with field labs. The minor program covers a wide range of topics in earth's history, geomorphology, ecology, ornithology, entomology, ichthyology, mammalogy, animal behavior, and field interpretation for education, as well as other topics.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Required Courses (22 cr)

- BIOL 1011 - General Biology I [LE CAT4, NAT SCI] (5.0 cr)
- BIOL 1012 - General Biology II [SUSTAIN] (5.0 cr)

- GEOL 1110 - Geology and Earth Systems [LE CAT4, NAT SCI, SUSTAIN] (4.0 cr)
- GEOL 2110 - Earth History (4.0 cr)
- BIOL 4992 - Senior Seminar: Classic Readings in Natural History (1.0 cr)

Electives (12 cr)

Must take at least 1 additional BIOL and 1 additional GEOL course.

At least 10 credits of electives MUST be 3xxx or above.

Take 12 or more credit(s) from the following:

- BIOL 3601 - Plant Diversity (3.0 cr)
- BIOL 3603 - Plant Taxonomy (3.0 cr)
- BIOL 3701 - Animal Diversity (4.0 cr)

Physics B.A.

Physics

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 55
- Degree: Bachelor of Arts

The B.A. in physics is a liberal arts degree that allows considerable freedom in the planning of upper level courses and can easily be combined with other majors and interests. The physics courses emphasize conceptual foundations, problem-solving skills, and experimental techniques.

Honors Requirements: To graduate with honors, students must participate in the department honors program, complete and present a research project, and maintain a GPA above 3.00 overall and in the major. They are also expected to attend department colloquia. Interested students should contact the physics honors program coordinator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

Required prerequisites

Introductory Requirement (1 cr)

Transfer students with 24 or more credits and current students who change from a B.S. degree or change colleges may request to be waived from this requirement. New first-year students with 24 or more PSEO credits may request to be waived from this requirement.
[UST 1000](#) - UMD Seminar (1.0 - 2.0 cr)

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A second field of study (either a minor or another major).
2. Students interested in teaching 9-12 physics may enroll concurrently in secondary licensure requirements in the Department of Education and apply for admission to the Secondary Teacher Education Program.

3. Taking the "Honors" General Physics I course (PHYS 2017) is recommended but not required for physics majors.

Required Courses (22 cr)

Physics B.S.

Physics

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 77 to 78
- Degree: Bachelor of Science

The B.S. in physics is primarily for students planning to work toward an advanced degree in physics or a related area. The physics courses emphasize conceptual foundations, problem-solving skills, and experimental techniques.

Students are encouraged to participate in research, with emphasis in experimental high-energy physics and particle astrophysics; limnological research, including observational studies and modeling of lakes; and computational physics. Additional faculty interests include optics and condensed matter physics. The department also offers courses required for other science and engineering programs.

Honors Requirements: To graduate with honors, students must participate in the department honors program, complete and present a research project, and maintain a GPA above 3.00 overall and in the major. They are also expected to attend department colloquia. Interested students should contact the physics honors program coordinator.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

The Board of Regents, on recommendation of the faculty, grants degrees from the University of Minnesota. Requirements for an undergraduate degree from University of Minnesota Duluth include the following:

1. Students must meet all course and credit requirements of the departments and colleges or schools in which they are enrolled including an advanced writing course. Students seeking two degrees must fulfill the requirements of both degrees. However, two degrees cannot be awarded for the same major.
2. Students must complete all requirements of the [Liberal Education Program](#).
3. Students must complete a minimum of 120 semester credits.
4. At least 30 of the last 60 degree credits earned immediately before graduation must be awarded by UMD.
5. Students must complete at least half of their courses at the 3xxx-level and higher at UMD. Study-abroad credits earned through courses taught by UM faculty and at institutions with which UMD has international exchange programs may be used to fulfill this requirement.
6. If a minor is required, students must take at least three upper division credits in their minor field from UMD.
7. The minimum cumulative UM GPA required for graduation will be 2.00 and will include only University of Minnesota coursework. A minimum UM GPA of 2.00 is required in each UMD undergraduate major and minor. No academic unit may impose higher grade point standards to graduate.
8. Diploma, transcripts, and certification will be withheld until all financial obligations to the University have been met.

Program Requirements

1. A minor or a second major in a different program.
2. The first math course is determined by ACT math score. The sample plan presupposes placement into MATH 1296.
3. Courses numbered above 3xxx will be offered in alternate years only. Some courses suggested in the sample plans in the junior and senior years may need to be switched to match the course offerings.

4. Students interested in teaching 9-12 physics may enroll concurrently in the Department of Education and apply for admission to the Secondary Teacher Education Program.
5. Taking the "Honors" General Physics I course (PHYS 2017) is recommended but not required.

Required Courses (44 cr)**Physics I**

- PHYS 2013 - General Physics I [LE CAT5, NAT SCI] (4.0 cr)
or PHYS 2017 - Honors: General Physics I [NAT SCI] (4.0 cr)
- PHYS 2014 - General Physics Lab I [NAT SCI] (1.0 cr)

Physics II

- PHYS 2015 - General Physics II (4.0 cr)
- PHYS 2016 - General Physics Lab II (1.0 cr)

Core Courses

- PHYS 1021 - Exploring Current Topics in Physics (1.0 cr)
- PHYS 2021 - Relativity and Quantum Physics (4.0 cr)
- PHYS 2022 - Classical Physics (4.0 cr)
- PHYS 2033 - Classical and Quantum Physics Lab (2.0 cr)

Physics Minor

Physics

Swenson College of Science and Engineering

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Spring 2015
- Required credits in this minor: 34

The physics minor provides an introduction to classical and quantum physics.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Statistics and Actuarial Science B.S.

Mathematics & Statistics

Swenson College of Science and Engineering

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2015
- Required credits to graduate with this degree: 120
- Required credits within the major: 56 to 57
- Degree: Bachelor of Science

The science of statistics is concerned with generating and analyzing data. Actuarial science applies statistical methods to assess risk in the insurance and financial industries. The statistics and actuarial science major prepares students for careers in a wide variety of fields, from banking and government to health care. Advisers have information on the national actuarial examinations.

Honors Requirements: To graduate with department honors, a student must complete the program with an overall and department GPA of 3.50, satisfactorily complete a research project under the guidance of a faculty member, and convey research results in a public presentation.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)
