"*Extranjeras (Foreign Women)* shows the least known and most typical aspects of other cultures through the experience of various immigrant women living in Madrid. We see these women's everyday existence - their family environments, how they live and what they work at. We are given the chance to know what happens to their dreams, and where their affections lie. We also discover the new places they have created in order to meet and exchange."

4. Assignments and Events

This is going to be a long “week”

—*two* weeks long in fact. Week 9 begins after Spring Break. That should give you a chance to rest up—so you can focus when you return to business after the Vernal equinox.

If you haven't already done so, ***schedule* some serious time blocks to work on your Project**. And be sure to ask if you have any questions about your Promissory Abstract, your Working Bibliography, or even about your Proposal itself.

One thing you should already have **started to think about is how you might present your findings**. Generally it is a good idea to pretty much finish your paper before you do too much work on your presentation, but, having said that, it is still a good idea to at least start thinking about what your presentation might be like.

Take the Student Survey

For this week our course developer, has prepared an on-line survey of the class. Please help us by filling it out honestly, and promptly. Your views are very important in the future development of this course. The survey is part of our main “Assignments and Activities” of the week . . .
