Getting Started

Introduction to Anthropology / Orientation to the Course:
"Setting the Anthropological Table"

I’m looking forward to Getting Underway.

If you haven’t read my Welcome Memo of 11 August 2019, please do that as it contains useful and important information about the course.

Every week—usually on Sunday—you will receive a memo like this which outlines what’s happening for the week.
Each week you will get the memo in your UM e-mail account and it will be available in your folder in three places...

HINT: You can synchronize your calendar with your UMD Google calendar, if you want.

These weekly memos contain lots of valuable and timely information, so pay careful attention to them...

- The Weeks’ Assignments and Activities Schedule
- **Due Dates** for the Week
- **Reminders** for the Week
- Suggestions and Hints for **Exams**
- **Interesting tidbits** of the week, including **For-Fun Trivia**
• **Optional links** that might be generally interesting and/or useful, for example, with the **Extra Credit Opportunities**

• Information on **In-Class Films and Videos**
  (of which there will be many, starting next week)

• **Breaking News Items**

In the Welcome Memo I mentioned “**Tomorrow’s headlines. . . We’ll soon see what the future brings in the world of food.**” Food and food customs always seem to be in the news.*

**Disclosure:** Items selected from on-line news sources will under normal circumstances be limited to sources classified as legitimate “News” (the green rectangle on the chart) and “Fair Interpretations of the News” (the yellow rectangle on the chart) by the authors of the Media Bias Chart.
We’ll be exploring many aspects of food—cultural, nutritional, spiritual, social, political, psychological, historical, prehistorical, recreational, economic, technological, ethical, and the like—so stay tuned.

**REM: Textbooks**

Detailed information on the textbooks for the course—there are three—can be found at [http://www.d.umn.edu/cla/faculty/troufs/anthfood/aftexts.html](http://www.d.umn.edu/cla/faculty/troufs/anthfood/aftexts.html).

The course anchor text is . . .

by Gillian Crowther, Professor of Anthropology at Capilano University in Vancouver, BC (Toronto: University of Toronto Press, 2018).
is currently available on-line for $35.38 new, $19.00 used, and $22.95 e-Textbook.
(7 August 2019)

The Omnivore's Dilemma: A Natural History of Four Meals (2007)
an international run-away best seller,
is currently available on-line for $12.79 new, $1.16 used, $12.99 Kindle, and $15.99 Audiobook.
(+ p/h, where applicable, at amazon.com & eligible for FREE Super Saver Shipping on orders over $25).
(7 August 2019)

Note: The Omnivore's Dilemma: The Secrets Behind What You Eat, Young Readers Edition (2009), also by
Michael Pollen, is a different edition of the book.
As I mentioned in my last memo, the exams will be open-book essays constructed from a list of study questions that you help create, so it would be a good idea for you to have your own copy of each text you plan to use in the exams.

For the exams you should normally just need to read the books carefully and be able to discuss them intelligently. That is, you should read these as if you had picked it/them up at an airport or neighborhood bookshop because you were interested in the subject and wanted to know more about it, like literally millions of people are doing in everyday life.

PLEASE NOTE WHAT I MENTIONED EARLIER: Some students are used to principally memorizing facts in classes. This class is not one where that is the focus. It is about investigating new topics, reading, listening, synthesizing ideas, thinking, exploring, and
becoming familiar enough with the various subjects, peoples and places to carry on an intelligent conversation in modern-day society.

**Critical thinking**, involving **evaluation** and **synthesis**, has long been regarded as essential for success in the modern-day world. In recent years, actually for two decades, **creativity** has also become central to success, and "process skills" vital to creativity. Process skills involve "strategies to reframe challenges and extrapolate and transform information, and to accept and deal with ambiguity" (Pappano, "Learning to Think Outside the Box," The New York Times Education Life, 9 February 2014, 8).

Laura Pappano, writer in residence at Wellesley Center for Women at Wellesley College, points out that "In 2010 'creativity' was the factor most crucial for success found in an I.B.M. survey of 1,500 chief executives in 33 industries. These days 'creative' is the most used buzzword in LinkedIn profiles two years running" (2014, 8).

With all of the class materials you will be expected to share your ideas and comments with others in the Class Discussions and wikis.

It is not accidental that **TAPS, Canada’s leading Beer Magazine**—in fact it’s **THE BEER MAGAZINE**—features this item from this class in an editorial (Winter 2011-2012, p. 2); at least one major Editor in Chief thinks it’s worth noting and imitating.

As I mentioned in my earlier memo,

**The Course in a Nutshell**

Overall, this course consists of **three main segments**:

**I Orientation and Background**

Introduction  
Basic Concepts  
History  
Theory
Methods and Techniques

II Exploration

Comparative / Cross-Cultural
Holistic
Ethnographic Case Studies from the Real World:
Real People . . . Real Places from Around the Globe

III Student Presentations on Term Research Projects

For the first part of the course much of the material for the week will be presented in the form of text materials and on-line slide materials. Please note that many of the slide sets go hand-in-hand with the materials in the anchor text. If your learning style is visual, focus first/more on the slides. In the second section of the semester, once you have mastered the basic information relating to the Anthropology of Food, we will look (generally comparatively, cf., Main Characteristics of Anthropology in Week 1) at a series of video materials from around the world. The final section will focus on your research projects.

You will find that there are "an awful lot" of materials on-line —maybe even too many!

Where to start?
Have a look at the course “Home” page of your Anthropology of Food folder <http://canvas.umn.edu/>. It will look something like this . . .

As I mentioned in the Welcome Memo, probably the best way to start is by having a quick look at the "First Day Handout" on-line at <http://www.d.umn.edu/cla/faculty/troufs/anthfood/afhandout_first-day.html>.

Then have a look at . . .

Assignments and Events . . . this week which are listed on your “Calendar”. They are also listed on the “Syllabus” section of your canvas folder, if you prefer to have them in another form (see below).
This Week’s "Calendar" . . .

REM: Links on screenshots are not “hot” (active)
So once again, welcome to ANTH 3888 Anthropology of Food. This will be a great course, and a great experience.

You will see. . . .

If you have any questions right now, please do not hesitate to post them on the canvas “Discussions”, or e-mail troufs@d.umn.edu, or stop in Cina 215 if you’re in the neighborhood [map].

For Fun Food Trivia for the Week . . .

What is longest word ever to appear in all of literature?

I’m looking forward to “seeing” in the class.

Best Wishes,

Tim Roufs

P.S. If you are new to the world of "technology" don't worry too much about that. Things may not "work" for you at first, but hang in there and we'll help you along. If you have not used canvas course management system before, you might find it helpful to view the Canvas Student Guide.
