**REM:** Textbooks

Detailed information on the textbooks for the course—there are three—can be found at [http://www.d.umn.edu/cla/faculty/troufs/anthfood/aftexts.html](http://www.d.umn.edu/cla/faculty/troufs/anthfood/aftexts.html).

The course anchor text is . . .

by Gillian Crowther, Professor of Anthropology at Capilano University in Vancouver, BC (Toronto: University of Toronto Press, 2018).

*Eating Culture: An Anthropological Guide to Food, Second Edition* is currently available on-line for $35.38 new, $19.00 used, and $22.95 e-Textbook. (7 August 2019)

2015 James Beard Award Nominee: Writing and Literature category
As I mentioned in my welcome memo, **the exams will be open-book essays constructed from a list of study questions that you help create**, so it would be a good idea for you to have your own copy of each text you plan to use in the exams.

**For the exams** you should normally just need to read the books *carefully* and be able to discuss them *intelligently*. That is, you should read these as if you had picked it/them up at an airport or neighborhood bookshop because you were interested in the subject and wanted to know more about it, like literally millions of people are doing in everyday life.

**PLEASE NOTE WHAT I MENTIONED EARLIER:** *Some students are used to principally memorizing facts in classes. This class is not one where that is the focus. It is about investigating new topics, reading, listening, synthesizing ideas, thinking, exploring, and becoming familiar enough with the various subjects, peoples and places to carry on an intelligent conversation in modern-day society.*

**Critical thinking**, involving *evaluation* and *synthesis*, has long been regarded as essential for success in the modern-day world. In recent years, actually for two decades, *creativity* has also become central to success, and "process skills" vital to creativity. Process skills involve "strategies to reframe challenges and extrapolate and transform information, and to accept and deal with ambiguity" (Pappano, "Learning to Think Outside the Box," The New York Times Education Life, 9 February 2014, 8). Laura Pappano, writer in residence at Wellesley Center for Women at Wellesley College, points out that "In 2010 'creativity' was the factor most crucial for success found in an I.B.M. survey of 1,500 chief
executives in 33 industries. These days 'creative' is the most used buzzword in LinkedIn profiles two years running" (2014, 8).

With all of the class materials you will be expected to share your ideas and comments with others in the Class Discussions and wikis.

It is not accidental that TAPS, Canada’s leading Beer Magazine—in fact it’s THE BEER MAGAZINE—features this item from this class in an editorial (Winter 2011-2012, p. 2); at least one major Editor in Chief thinks it’s worth noting and imitating. <http://www.d.umn.edu/cla/faculty/troufs/anthfood/index_online.html#KarlaDudley>

As I mentioned in my earlier memo,

The Course in a Nutshell

Overall, this course consists of three main segments:

I Orientation and Background

Introduction
Basic Concepts
History
Theory
Methods and Techniques

II Exploration

Comparative / Cross-Cultural
Holistic
Ethnographic Case Studies from the Real World:
Real People . . . Real Places from Around the Globe

III Student Presentations on Term
Research Projects

For the first part of the course much of the material for the week will be presented in the form of text materials and on-line slide materials. Please note that many of the slide sets go hand-in-hand with the materials in the anchor text. If your learning style is visual, focus first/more on the slides. In the second section of the semester, once you have mastered the basic information relating to the Anthropology of Food, we will look (generally comparatively, cf., Main Characteristics of Anthropology in Week 1) at a series of video materials from around the world. The final section will focus on your research projects.

You will find that there are "an awful lot" of materials on-line —maybe even too many!

Where to start?

Probably the best place to start is with the "First Day Handout" on-line at <http://www.d.umn.edu/cla/faculty/troufs/anthfood/afhandout_first-day.html#title>.

Also have a look at the course “Home” page of your canvas folder <http://canvas.umn.edu/>. It will look something like this . . .
Check the links on “Home” page . . .
Play around with your Canvas folder materials. . . From your “Home” page go to your “Syllabus” . . .

Start with the "Canvas Student Guide" if you are new to Canvas.
When the "Explore Canvas . . ." menu drops down, checkout the "Canvas Student Guide".

If you are new to Canvas, explore the basics

Then checkout the other items that interest you most.

Have a look at it at <http://canvas.umn.edu/>.
Have a look at . . .

Assignments and Events

They are also listed on the "Syllabus" section of your canvas folder, if you prefer to have them in another form (see below).

So once again, welcome to Anth 3888 Anthropology of Food. This will be a great course, and a great experience. You will see. . . .

If you have any questions right now, please do not hesitate to post them on the canvas “Discussions”, or e-mail troufs@d.umn.edu, or stop in Cina 215 if you’re in the neighborhood.

For Fun Food Trivia for the Week . . .

What is longest word ever to appear in all of literature?

I’m looking forward to “seeing” in the class.

Best Wishes,

P.S. If you are new to the world of "technology" don't worry too much about that. Things may not "work" for you at first, but hang in there and we'll help you along. If you have not used course management system before, you might find it helpful to view the Canvas Student Guide.
