Covert Entomophagy

For Fun Food Trivia
Hunting-Gathering or Foraging, and the Emergence of Food Production

This week we’re going to have a look at how people get their food in non-industrial societies . . .

featuring

(1) the classic film *The Desert People*,

(2) Ch. 2 of *Eating Cultures*, “Hunter-Gathering or Foraging,” and

(3) the chapters from Michael Pollan’s *Omnivore's Dilemma* on foraging (Chs. 15-17).

**Video Explorations:**

*The Desert People* (ca. 51 min.)

Before you view the film *The Desert People*, have a look at the viewing guide.

On the viewing guide focus on the “Terms / Concepts” and “Notes” sections. Peruse the other information on the film’s viewing guide as you see fit.
Food Revolutions

The “Agricultural Revolution” eventually follows the “Hunter-Gathering or Foraging” stage.

It’s important to keep track of the various historic Food Revolutions. . . .

Speaking of food and revolutions, Marie-Antoinette did not say, “Let them eat cake” or even, as it would have been the case "Qu’ils mangent de la brioche” (or at least there is no evidence that she ever said that, and there is credible circumstantial evidence that she didn’t—for e.g., she was still thirteen years old when the phrase appeared in literature, and even then "[Let them eat cake] was said 100 years before her by Marie-Thérèse, the wife of Louis XIV. It was a callous and ignorant statement and she, Marie Antoinette, was neither. . . .”—Lady Antonia Fraser (biographer), 2002. “Cake eaters” and those who are interested in famous cake eaters might find <http://en.wikipedia.org/wiki/Let_them_eat_cake> interesting. It’s short cake.

From the historical/pre-historical perspective, the commonly discussed revolutions in food matters are . . .
1. The Cognitive Revolution

2. The “Neolithic” or Agricultural Revolution

3. The Scientific Revolution, and

4. The Industrial Revolution.

But from the point of view of Anthropology of Food you need to add to those the revolutions those discussed by Felipe Fernández-Armesto in *Near a Thousand Tables: A History of Food* (NY: The Free Press, 2003). . . . Fernández-Armesto’s work is among the most innovative in social science food literature in recent years (personal opinion) and it has been translated into 26 languages (fact).
1. Invention of Cooking
2. Discovery that Food is More Than Sustenance
3. The “Herding Revolution”
4. Snail Farming
5. Use of Food as a Means and Index of Social Differentiation
6. Long-Range Exchange of Culture
7. Ecological Revolution of last 500 years
8. Industrial Revolution of the 19th and 20th Centuries

Speaking of Revolutions . . .

The Fake Meat Revolution
“A revolution is unfolding in the food world, resulting in the first alternatives to meat that taste like the real thing. Veggie burgers used to seem like a blend of tofu and cardboard, but in the last few years food scientists have come up with first-rate faux chicken strips and beef crumbles.”

“If the alternatives to meat are tasty, healthier, cheaper, better for the environment and pose fewer ethical challenges, the result may be a revolution in the human diet.”

Have a look at one of these articles on laboratory-grown hamburger, and plant-based “meat . . .

Food Timeline
Midterm Exam

It’s time to start thinking about the midterm exam (which will be available Week 6, 17-21 February 2020). A good activity to start your review would be looking over Ch. 1, “Setting the Anthropological Table”. And if you are a visual learner, you might have another look at the Week 1 slide sets.
Midterm Exam Question

Be sure to contribute your question(s) to the Midterm Exam by the end of Week 4, this Friday, 7 February 2020. I will review those questions, commenting on them in order to try to make them a good source for reviewing for the Midterm Exam. That is, you will be able to use those questions as study questions.

As I mentioned last week and the week before, be sure to focus on the ideas and main concepts, and differing points of view, and do not be preoccupied with only trying to memorize facts and assorted pieces of information.

NOTE: To see the details of the Exam Question Rubric click on the pull-down menu in the upper-right-hand corner of the Assignment . . .
Your Class Project

For your Class Project, start with something that you, personally, are interested in, and we’ll work things out from there. This Project is something with which you should be able to have fun.

It’s a good time to have at least a quick look at the information for your class project, which you can find at <http://www.d.umn.edu/cla/faculty/troufs/anthfood/afproject.html#title>. Your class Project is your Term Paper, plus a short “work-in-progress”.

Demosthenes Practising Oratory (1870)

Charles Dickens (1842)

Details of Presentation

Details of Term Paper
If you have trouble getting started with your Project—“getting started” basically means picking a topic—let me know and I’ll help you work out an interesting topic. For a starter, tune in to the Live Chat on Tuesday evening with your questions about the Project . . .

Live Chat: Picking a Project Topic, Tuesday, 4 February, 7:00-8:00 p.m. CDT

Your *Informal* Project Statement, or Project Proposal, is due by the end of Week 4, Friday, 7 February 2020. Basically that’s a short *informal* summary personal statement of what you are interested in doing, how you think you might go about it, and what resources you are thinking about using. It can be as simple as the following:

“For my project I’m thinking about X, or Y, and these are the items I’m thinking about using [add short list]. This is why I’m interested in this/these project(s) [add your reason(s)]. . . .

Links to the details are in the Week 4 canvas syllabus and on your canvas. Note that this is a simple *informal* proposal. It is an *informal* statement. A more formal statement will come later on (in Week 6).
Class Slides

Up until now, the slide sets for Weeks 1-4 largely followed the Orientation and Introduction schedule. This pattern will change in a couple of weeks, but for now it seems to be an efficient way of covering some basic background and establishing an analytical framework that we will attempt to put to use after the midterm, when we begin focusing a bit more on examples of food behaviors found in numerous video materials (and in numerous cultures throughout the world). And, hopefully, it also provides some interesting illustrative material to supplement the discussion in the text.
Have a look at . . .

Assignments and Events

. . . this week as they are listed on your "Calendar".

They are also listed on the "Syllabus" section of your canvas folder, if you prefer to have them in another form (see below).

For Fun Food Trivia . . .

How do you say "blueberry pie" in Anishinabe / Ojibwa / Chippewa?

(answer)

How many gallons of sap does it take to make one gallon of maple syrup?
Enjoy the Super Bowl. (Europeans often have a difficult time understanding the hype for one game. They’re used to the World Cup matches, which is like having SIXTEEN Super Bowls in a month—no, it’s even worse than that. . . .)

If you have any questions right now, please do not hesitate to post them on the Canvas Course “Chat”, or e-mail troufs@d.umn.edu, or stop by Cina 215 if you’re in the neighborhood [map].

Best Regards,

Tim Roufs
