The end is in sight. . . .

LAST CALL: If you have not yet submitted a Final Exam Question, please do that *today* . . .

ทำความเข้าใจ: Final Exam Submitted Question

And what will the future bring for food? It’s hard to say, except, perhaps, for the views of some notable folks on *The Future of Food*, and a few other items related to class this week.

Even Napoleon in all his greatness could not have imagined the food world you live in. (It was only a little over two hundred years ago, in 1810, that Nicholas Appert discovered the process of preserving food by canning—for Napoleon’s army.)
And for that matter, your grandparents couldn’t have imagined *your* food world. Even a casual reading of Jean Anderson’s *The American Century Cookbook* (NY: Potter, 1997) will reveal lots of food innovations that have happened in your lifetime (the timeline of food events in this book is one of the best compilations on twentieth-century food events in print—personal opinion).

And speaking of your grandparents, there is no end to Michael Pollan’s *Food Rule* #2: “*Eat nothing your grandmother wouldn’t recognize as food.*”

Back to the future . . . *Some* future events are almost a certainty . . .

Course Evaluations
The Information Technology Systems & Services (ITSS) sent you an 
Invitation to Participate in an Online Course Evaluation.

Evaluations are important to me, the Department Head, and the Dean, as well as everyone in our Department.

Please fill the online Course Evaluation out carefully.

Evaluations are anonymous, and will not be seen by the instructor until final grades for this course have been recorded.

Take time to step back and reflect on the semester, and make some suggestions for next time around. We ask you to reflect on the course itself, and tell us what you think by evaluating the course and its parts. Please take time to respond. Your responses are very useful and helpful to us, and to the operations of the Department and University. We look to you for suggestions for improvement in the future, and various administrators look to and at the results for program and performance evaluations and for the future planning of course offerings. Course evaluations are one of the few places where you can have a real influence on how the University operates in the future.

The Future of Food

This week have a listen to what HRH Prince Charles has to say
about the future of food. . . .

Just a few weeks ago HRH Prince Charles mentioned that after he becomes King he will no longer be opining on matters such as this, so pay careful attention.

For extra credit, have a look at Deborah Koons Garcia’s *The Future of Food*, and compare that with HRH Prince Charles' vision of "The Future of Food".

Term Papers

If you haven’t received your Term Paper back with my comments, you should be receiving it shortly. It takes quite a while to read those and make careful and extensive comments on them, so please be just a little patient.

In the next two weeks I get to read and evaluate several hundred final exams, term papers, forum postings, and final projects. As you can imagine, that takes quite a bit of time—so have patience. I’ll be working at them pretty much continuously for the next two-and-a-half weeks. But, having said that, if you have any questions about any of those, please feel free to e-mail: troufs@d.umn.edu.
