Governing Procedures note on Extra Credit Papers

A Note on Extra Credit Papers

Failure to comply with the above codes and standards when submitting an Extra Credit paper will result in a penalty commensurate with the lapse, up to and including an *F* final grade for the course, and, at a minimum, a reduction in total points no fewer than the points available for the Extra Credit project. The penalty will *not* simply be a zero for the project, and the incident will be reported to the UMD Academic Integrity Officer in the Office of Student and Community Standards.

AVISO!

A Note on Extra Credit Papers

Failure to comply with the above codes and standards when submitting an Extra Credit paper will result in a penalty commensurate with the lapse, up to and including an *F* final grade for the course, and, at a minimum, a reduction in total points no fewer than the points available for the Extra Credit project. The penalty will *not* simply be a zero for the project, and the incident will be reported to the UMD Academic Integrity Officer in the Office of Student and Community Standards.

A Note on "Cutting and Pasting" without the Use of Quotation Marks (*EVEN IF* you have a citation to the source somewhere in your paper)

If you use others' words and/or works you MUST so indicate that with the use of quotation marks. Failure to use quotation marks to indicate that the materials are not of your authorship constitutes plagiarism—even if you have a citation to the source elsewhere in your paper/work.

Patterned failure to so indicate that the materials are not of your own authorship will result in an *F* grade for the course.

Other instances of improper attribution will result in a 0 (zero) for the assignment (or a reduction in points equal to the value of an Extra Credit paper), and a reduction of one grade in the final grade of the course.

All incidents will be reported to the UMD Academic Integrity Officer in the Office of Student and Community Standards as is required by University Policy.

Governing Procedures

and the

other pertinent policies as determined by the University of Minnesota, the University of Minnesota Duluth, The UMD College of Liberal Arts, and the Department of Sociology-Anthropology . . .

Teaching & Learning: Instructor and Student Responsibilities:

"UMD is committed to providing a positive, safe, and inclusive place for all who study and work here. Instructors and students have mutual responsibility to insure that the environment in all of these settings supports teaching and learning, is respectful of the rights and freedoms of all members, and promotes a civil and open exchange of ideas. To reference the full policy please see: <http://www.d.umn.edu/vcaa/TeachingLearning.html>"

Final Exams:

"All 1xxx-5xxx courses offered for undergraduate credit should include a final graded component or end of term evaluation that assesses the level of student achievement of one or more course objectives. All final graded components are to be administered or due at the time and place according to the final exam schedule and not during the last week of class. To reference the full policy please see: <http://www.d.umn.edu/vcaa/FinalExams.html>"

Excused Absences:

"Students are expected to attend all scheduled class meetings. It is the responsibility of students to plan their schedules to avoid excessive conflict with course requirements. However, there are legitimate and verifiable circumstances that lead to excused student absence from the classroom. These are subpoenas, jury duty, military duty, religious observances, illness, bereavement for immediate family, and NCAA varsity intercollegiate athletics. For complete information, please see: <http://www.d.umn.edu/vcaa/ExcusedAbsence.html>"

Appropriate Student Use of Class Notes and Course Materials:

"Taking notes is a means of recording information but more importantly of personally absorbing and integrating the educational experience. However, broadly disseminating class notes beyond the classroom community or accepting compensation for taking and distributing classroom notes undermines instructor interests in their intellectual work product while not substantially furthering instructor and student interests in effective learning. For additional information, please see: <http://www.d.umn.edu/vcaa/ClassNotesAppropriateUseof.html>"

Students with Disabilities

It is the policy and practice of the University of Minnesota Duluth to create inclusive learning environments for all students, including students with disabilities. You are also encouraged to contact the Office of Disability Resources to discuss and arrange reasonable accommodations. It's usually a good idea at the beginning of each course to read the official "Course Description" and have a look at the "Course Objectives and Outcomes."

A course may be *exactly* what you are looking for, *or it may not*. If it is not, it's a good idea to figure that out as soon as possible, and in time to find the course you might really be looking for.

So take a minute to have a look at the "official" UM items below.

In the Week 1 materials we'll have a little more informal look at what the course is all about.

And you can have a look at the course "Resources" available to the class for a bird's-eye view of the semester's topics and reading, video, and assignment schedules.

Another thing you might do is have a preview look at the course calendar and General Information WebPage on the regular UM Web:

- [Prehistoric Cultures—DAY UM Web Calendar for Fall 2012](#)
- [Prehistoric Cultures UM Web General Information WebPage](#)

And, as always, if you have questions ask—either myself, or your classmates *via* the "General Student Discussion" area.

Course Description:

Every ten weeks for the rest of your life one or more significant new discoveries and / or major news items will likely be reported in the area of prehistoric cultures.

The Prehistoric Cultures WebSite and course aim to provide a basic background and conceptual framework so that you may continue to make some sense out of these reported discoveries and of human prehistory for the remainder of your days.

In the first half of the course we will concentrate on the

Course Objectives and Outcomes:

Prehistoric Cultures Course Summary

- Prehistoric Cultures is a survey course focusing on the origin and development of extinct and living human beings and their immediate predecessors.
- Prehistoric Cultures broadly explores the nature, origin, and development of humans and other hominids from their earliest beginnings to the advent of ancient civilizations
 - Thus, typically it fits between the "Evolution" course in biology (Bio 4801), the first "Ancient Civilization" courses in Classical Heritage Track in Cultural Studies (CSt 1004— From Classical Antiquity to Medieval Culture), and the "Introduction to Archaeology" course in Anthropology (Anth 1612)
- provides an introduction to primate studies, focusing on the great apes
 - chimpanzees, orangutans, and gorillas
